Issues in Geography

Teaching examines a
wide range of issues
which are of interest
to those teaching
geography from the

early years through to higher education, including: the role of research and the use of ICT in teacher training; the significance of developing critical thinking skills; broader educational issues such as citizenship and development; the importance of environmental education; the position and role of assessment; the present state and status of geographical education and issues that are likely to be of concern in the future. Issues in Geography Teaching details the contexts, presents the facts and raises thought-provoking questions which should stimulate further interest and discussion.

Geography Revision Leaving Cert Gill Education

Expertgives advice on how best to prepare for and cope most successfully with the exam Full range of skill-based exam and exam-style questions, and other activities on each course topic Numerous examtraining exercises feature exam questions, with sample answers and valuable tips on marking schemes Full-colour, illustrated workbook - the perfect companion to the core text. Exam Expert gives advice on how best to prepare for and cope most successfully with the exam Full range of skill-based exam and exam-style questions, and other activities on each course topic Numerous exam training exercises feature exam questions,with sample answers and valuable tips on marking schemes

Focus on Geography

The Economic Elective, Geoecology and Global Interdependence Options presented in this new book complete the vibrant new approach to Leaving Certificate Geography by Ireland's leading Geography author, Charles Hayes. The Economic Elective is for both Ordinary Level and Higher Level

students. Higher Level students may choose the Global Interdependence Option or the Geoecology Option (one option must be studied by Higher Level students). Concise yet comprehensive approach to the syllabus Unique double page design promotes visual and in-context learning and student understanding All the information needed to achieve an A-grade Leaving Certificate for both Higher and Ordinary Level students No time-consuming, off-course material Succinct chapter Sum Ups and carefully selected exam-style questions to consolidate the learning process Numerous exam-training exercises featuring exam questions, sample answers and valuable tips on marking schemes *Parliamentary Debates (Hansard)*.

Don't just face exams, ace exams! Less Stress More Success gives you all you need to get the best results you can in your exams. Your complete course condensed, organised and prioritised, in full-colour, making facts stick and revision easier. Make those study hours really pay!

Education in Africa

First published in 1982, *Education in Africa* offers a comprehensive treatment of the development of education in Africa. Until now only scattered documents on educational growth in individual countries have been available; works devoted to Africa as a whole have tended towards the general and have, by and large, been written by outside observers. This book is a collection of illuminating syntheses of major trends in educational development

in Africa, by renowned African educationists, and is the first attempt to supply the need for a comprehensive book on African education written from an African viewpoint. All but one of the chapters were written specially for the book by leading African educators each of whom has had a distinguished career and wide experience in education in his or her own country; they represent eleven nations in all. The volume is designed for African students, teachers and administrators and will also be welcomed by educational planners and by scholars working in the fields of comparative education and the history of education. It will be of special interest to departments, institutions and faculties of education in all the universities and colleges of education in

Africa, and to educators and the language of the students worldwide who are concerned with comparative African education.

Papers Regarding the Educational Conference, Allahabad, February 1911

Landscapes: Core Units and Human Elective guides students to top marks with relevant exam-focused content. This book comprises: Core Unit 1: Patterns and Processes in the Physical Environment
