Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set. America, Incorporated From electronic ignition to electronic fuel injection, slipper clutches to traction control, today's motorcycles are made up

of much more than an engine, frame, and two wheels. And, just as the bikes themselves have changed, so have the tools with which we tune them. *How to Tune and Modify Motorcycle Engine Management Systems* addresses all of a modern motorcycle's engine-control systems and tells you how to get the most out of today's bikes. Topics covered include: How fuel injection works Aftermarket fuel injection systems Open-loop and closed-loop EFI systems Fuel injection products and services Tuning and troubleshooting Getting more power from your motorcycle engine Diagnostic tools Electronic throttle control (ETC) Knock control systems Modern fuels Interactive computer-controlled exhaust systems Harley Davidson FXD Twin Cam 88 1999-2005 Olympia Press GSX-R750T (1996), GSX-R750V (1997), GSX-R750W (1998), GSX-R750X (1999) National Agenda for Motorcycle Safety Haynes Manuals It's good to talk about ministry. It's better to do it, and do it passionately. In 2008, the United Methodist Church lifted up "Four Areas of Focus" for ministry, and churches have responded. But at Ginghamburg Church, in the rust-belt town of Tipp City, Ohio, the church has been doing exciting and effective ministry in those four areas for 35 years and more. Engaging in Ministry with the Poor Improving Global Health Developing Principled Christian Leaders Creating New and Renewed Congregations The work has led to a host of creative ministries and organic growth...because they were meeting the needs of their

community and their world as the hands and feet of Christ. The book comes with a built-in facilitator Guide to encourage pastor peer groups and other leadership groups interested in deepening the discussion.

I do trust it to open the awareness of simple things, which when done daily, and with a hefty dose of love, will become a starting point to recreate a society determined to develop a healthy mentality of empathy as we learn to fight a growing society rife with self-centered, potentially narcissistic adults. I intend to build an awareness of what lies before us if we continue to turn our heads and to participate in

developing a new attitude:
proudly show we focus more on
the kind of children we are
leaving the world, than the world
we seek to leave them.
