The Bookseller Univ. of Tennessee Press

"This anthology is about those forms of education intended to help people think more critically about the social forces shaping their lives and think more confidently about their ability to react against those forces. Featuring articles by educator-activists, this collection explores the largely forgotten history of attempts by African Americans to use education as a tool of collective liberation. Together these contributions explore the variety of forms those attempts have taken, from the shadow of slavery to the contradictions of hip-hop." --Book Jacket.

The Bloomsbury Handbook of the Anthropology of Sound presents the key subjects and approaches of anthropological research into sound cultures. What are the common characteristics as well as the inconsistencies of living with and around sound in everyday life?

This question drives research in this interdisciplinary area of sound studies: it propels each main chapter of this handbook into a thoroughly different world of listening, experiencing, receiving, sensing, dreaming, naming, desiring, and crafting sound. This handbook is composed of six sections: sonic artifacts; sounds and the body; habitat and sound; sonic desires; sounds and machines; and overarching sensologies. The individual chapters explore exemplary research objects and put them in the context of methodological approaches, historical predecessors, research practices, and contemporary research gaps. This volume offers therefore one of the broadest, most detailed, and instructive overviews on current research in this area of sensory anthropology.

Mariners Weather Log SAGE

Analyzing more than 150 years of recipes and cookbooks, this study chronicles the culinary history of New Zealand, looking at curious dishes such as boiled calf's head and stewed liver with macaroni, to the more traditional favorites such as homemade jams and chutneys. It explores what makes New Zealand cooking distinctive, and examines how the culture has changed, from the prevalence of whitebait and mussels in the 1920s, to the arrival of Asian influences in the 1950s, and finally to the

modern emphasis on fresh ingredients and fusion cooking.

No Angel in the Classroom Simon and Schuster

Lemon-Aid Used Cars and Trucks 20102011 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years of production. This book offers an exposé gas consumption lies, a do-it-yourself service manual, an archive of service bulletins granting free repairs, and more.

Willing's Press Guide and Advertisers' Directory and Handbook Dundurn

A "well researched and vigorously written" account of social activism, radical politics, and the failed War on Poverty in 1960s Appalachia (*Journal of American History*). In 1964, a group of young social activists formed the Appalachian Volunteers with the intention of eradicating poverty in eastern Kentucky and the rest of the Southern mountains. In *Reformers to Radicals*, author Thomas Kiffmeyer documents the history of this organization as their youthful enthusiasm led to radicalism and controversy. These reformers sought to improve the lives of the Appalachian poor while making strides toward economic change in the region. Their efforts included refurbishing schools and homes and offering educational opportunities. But in time, these volunteers faced nationwide accusations that they were "seditionary" and "un-American." After losing the support of the federal and state governments and of many Appalachian people, the group disbanded in 1970. *Reformers to Radicals* examines the various factors that led to the Appalachian Volunteers' ultimate failure, from infighting within their ranks to tensions with the very people they sought to help. It chronicles a critical era in Appalachian history and investigates the impact the 1960s' reform attitude on the region.

Outlines procedures for rescuing and treating avalanche victims, including pre-accident planning.

The Bloomsbury Handbook of the Anthropology of Sound Rowman & Littlefield

Official organ of the book trade of the United Kingdom.

Ocean Industry Bloomsbury Publishing USA

This handbook examines advances in the evidence-based behavioral family intervention, parent-child interaction therapy (PCIT). It surveys innovative adaptations tailored to specific diagnostic concerns, client populations, treatment settings, and delivery formats. Chapters provide rationales for adaptation, reviews of relevant research, and discussions of advantages and challenges. Case studies illustrate the implementation of the adaptations and help to make new techniques concrete. The handbook offers practical descriptions of the adaptations to PCIT, comprehensively reviews treatment outcome literature, and integrates cutting-edge implementation science into an exploration of the current dissemination strategies in PCIT. The handbook concludes with a consideration of the questions that remain to be addressed to extend the reach of PCIT among traditionally underserved families and to continue to advance the science and practice of children's mental health interventions. Featured topics include: PCIT for children with callous-unemotional traits. PCIT for families with a history of child maltreatment. Group PCIT. PCIT for military families. The PCIT CALM program for treating anxiety in young children. PCIT for American Indian families. Transporting and disseminating PCIT internationally. Using technology to expand the reach of PCIT. The Handbook of Parent-Child Interaction Therapy is a must-have resource for researchers, professors, instructors, clinicians, and graduate students in child and school psychology, child psychiatry, and social work as well as such related disciplines as developmental, clinical, counseling, and community psychology, family studies, and mental health services and agencies.

No Angel in the Classroom: Teaching through Feminist Discourse presents a theoretically complex yet down-to-earth and personal account of feminist teaching in higher education. Starting with a nuanced interpretation of consciousness-raising, longtime feminist educator Berenice Malka Fisher develops her philosophy of feminist teaching as a form of political discourse. Through reflection on a series of candid classroom stories, she analyzes knotty problems faced by academics and activists. What counts as knowledge in discussion of feminist issues? Can teachers exercise authority without being authoritarian? What is the role of caring in political deliberation? Should safety be considered when students and teachers address volatile topics? How can feminist and other teachers committed to social justice give serious attention to the intersections of gender, race, and sexual orientation? This groundbreaking book is intended for the beginning and veteran teachers and others concerned with the contribution of education to extending social justice. Fisher's work offers a pedagogical vision that inspires both passion and critical thinking.

Rider's Cumulative Index for TV Volumes 1 Thru 16

When John M. Glen's *Highlander: No Ordinary School, 1932-1962* first appeared in 1988, it was hailed as a full and authoritative study of one of the South's most extraordinary and controversial institutions. Now, in this second edition, Glen updates *Highlander's* story through the 1990s. He

incorporates newly available materials and the latest scholarship to detail the school's recent work in Appalachia, its efforts to bring international grassroots groups together on common issues, and its support of emerging economic and environmental justice campaigns. First named the Highlander Folk School and established in 1932 by Myles Horton and Don West near Monteagle, Tennessee, this adult education center has been both a vital resource for southern and Appalachian activists and a catalyst for several major movements for social change. During its first thirty years, Highlander served as a community folk school, as a training center for southern labor and Farmer's Union members, and as a meeting place for black and white civil rights workers. Its advocacy of racial equality ultimately prompted the state of Tennessee to revoke the charter of the original institution in 1962. Undaunted, the school's officers reorganized the institution as the Highlander Research and Education Center in Knoxville, where it gave ongoing support to the civil rights movement and promoted a multiracial poor people's coalition. Today, operating in New Market, Tennessee, it continues to devise new strategies of progressive change from the experiences of ordinary people. This comprehensive history offers a unique perspective on the movements, institutions, organizations, and individuals that permanently reshaped our understanding of the South and Appalachia in the twentieth century. It also suggests the range of problems and possibilities of using education to achieve economic, political, and racial justice.
