Recent progress in enhancing and refining the performance and properties of wood composites by chemical and thermal modification and the application of smart multi-functional coatings have made them a particular area of interest for researchers. Wood Composites comprehensively reviews the whole field of wood composites, with particular focus on their materials, applications and engineering and scientific advances, including solutions inspired biomimetically by the structure of wood and wood composites. Part One covers the materials used for wood composites and examines wood microstructure,

and wood processing and adhesives for wood composites. Part Two explores the many applications of wood composites, for example plywood, fibreboard, chipboard, glulam, cross-laminated timber, I-beams and wood-polymer composites. The final part investigates advances in wood composites and looks at the preservation and modification of wood composites, environmental impacts and legislative obligations, nano-coatings and plasma treatment, biomimetic composite materials, the integration of wood composites with other materials and carbonized and mineralized wood composites. -

Comprehensively reviews the entire field of wood composites in a single volume - Examines recent progress in enhancing and refining the performance and properties of wood composites by chemical and thermal modification and the application of smart multi-functional coatings - Explores the range of wood composites, including both new and traditional products The Complete Book of Dodge and Plymouth Muscle Cars Springer Nature

The "how-not-to" leadership book There is a paradox in leadership: we can only succeed by knowing failure.

Every accomplished leader knows there are minefields of failures that need to be navigated in order to succeed.

Wouldn't it be great to have the insights to help you prevent from making avoidable mistakes? Unfortunately, in business talking about mistakes can be taboo, and, at a certain level, learning from failure is not an option.

Weinzimmer and McConoughey speak frankly about the things that are difficult to talk about – the unvarnished truths necessary to become a successful leader. Based on a groundbreaking 7-year study of what almost 1000 managers across 21 industries really think about lessons from failures Includes exclusive interview material from CEOs at a wide range of organizations, including major firms such as Caterpillar, Priceline.com, and Allstate; startups; and entrepreneurial small businesses Drills down into failure to uncover the strategies that aspiring leaders need in order to avoid the most damning leadership mistakes: unbalanced orchestration, drama management, and reckless vanity Learning from the mistakes of others is a necessary part of the journey of effective leadership, and this book offers an indispensable guide to learning these powerful lessons—without paying the price of failure.

Code of Federal Regulations, Title 49, Transportation, Pt. 572-999, Revised as of October 1, 2009 Office of the Federal Register

This volume chronicles the maturation of the South Korean auto industry and its native automakers, from the 1997 Asian Crisis to 2019. After examining the context for domestic vehicle production in South Korea, the author presents multiple case studies for all five Korean automakers: General Motors Korea/Daewoo Motors, Kia, Hyundai, Ssangyong and Renault Samsung. This includes coverage of Hyundai-Kia 's foreign plants in North America, Europe, India, China, and Emerging Asia. The book closes by assessing the five-to-ten-year future outlooks for Korean automakers at home and abroad. This important work will prove informative to scholars of business, management, automotive history, international development, Asian studies, and public administration.
