The Day the Crayons Quit Haynes Manuals

With almost 5 million copies sold 60 years after its original

publication, generations of readers have now journeyed with Milo to the Lands Beyond in this beloved classic. Enriched by Jules Feiffer's splendid illustrations, the wit, wisdom, and wordplay of Norton Juster's offbeat fantasy are as beguiling as ever. "Comes up bright and new every time I read it . . . it will continue to charm and delight for a very long time yet. And teach us some wisdom, too." --Phillip Pullman For Milo, everything's a bore. When a tollbooth mysteriously appears in his room, he drives through only because he's got nothing better to do. But on the other side, things seem different. Milo visits the Island of Conclusions (you get there by jumping), learns about time from a ticking watchdog named Tock, and even embarks on a quest to rescue Rhyme and Reason. Somewhere along the way, Milo realizes something astonishing. Life is far from dull. In fact, it's exciting beyond his wildest dreams!

The Illustrated London News

The hilarious, colorful #1 New York Times bestselling phenomenon that every kid wants! Gift a copy to someone you love today. Poor Duncan just wants to color. But when he opens his box of crayons, he finds only letters, all saying the same thing: His crayons have had enough! They quit! Blue crayon needs a break from coloring all those bodies of water. Black crayon wants to be used for more than just outlining. And Orange and Yellow are no longer speaking—each believes he is the true color of the sun. What can Duncan possibly do to appease all of the crayons and get them back to doing what they do best? With giggle-inducing text from Drew Daywalt and bold and bright illustrations from Oliver Jeffers, *The Day the Crayons Quit* is the perfect gift for new parents, baby showers, back-to-school, or any time of year! Perfect for fans of *Don't Let the Pigeon Drive the Bus* by Mo Willems and *The True Story of the Three Little Pigs* by Jon Scieszka and Lane Smith. Praise for *The Day the Crayons Quit*: Amazon's 2013 Best Picture Book of the Year A Barnes & Noble Best Book of 2013 Goodreads' 2013 Best Picture Book of the Year Winner of the E.B. White Read-Aloud Award * "Hilarious . . . Move over, Click, Clack, Moo; we've got a new contender for the most successful picture-book strike." —BCCB, starred review "Jeffers . . . elevates crayon drawing to remarkable heights." —Booklist "Fresh and

funny." — The Wall Street Journal "This book will have children asking to have it read again and again." — Library Media Connection * "This colorful title should make for an uproarious storytime." — School Library Journal, starred review * "These memorable personalities will leave readers glancing apprehensively at their own crayon boxes." — Publishers Weekly, starred review "Utterly original." — San Francisco Chronicle Engineering and Mining Journal

First published in 2006. The ambitious role cast for scientists in public affairs has been matched by an equal coyness on the part of scientists to play it. Yet in spite of themselves, they have been virtually dragged on to the political stage because of their 'collectivities' - groups formed over the last four centuries often more fugitive than institutional - which have helped modify the human environment, thereby enabling men to emancipate themselves from the tyranny of the present and plan for the future. The byproducts of such plans, from the great botanical gardens to the seed beds of physical scientists like the Ecole Polytechnique, have also incubated further ideas about the relation of science and society that are ecumenical in scope. Indeed the positivist overtones of the Polytechnique herald the transition from plutocracy to technocracy, for the technical intelligentsia trained its German, Russian and American counterparts have effected a quasi-religious synthesis of physics and politics. In this 'planning' was the central theme. The social history of such planning (with the concomitant views on the social organisation of science) is the subject of the book *Pressurising* it is the conviction that "we can identify a particular thing only by pointing to the various things it successively was before it became that particular thing that it will presently cease to be", and the story, which begins four hundred years ago and ends in 1964.
