Harley-Davidson Twin Cam 88 Service and Repair Manual Wolfgang Publications, Incorporated

212 pages and more than 85 illustrations and charts, size 6.625 x 10.25 inches. This publication is a faithful reproduction of the Triumph Factory Manual No.11 for the 1945 to 1955 pre-unit 650cc, 500cc and 350cc twins. This manual covers the rigid frame, sprung hub and swing-arm models constructed from 1945 through 1955, it also includes a supplement for the 1945-1951 Triumph 3T. Owners of these earlier models should be aware that when the later 1956 to 1962 continuation manual No.17 was published the data for the sprung hub and 3T models was deleted. Owners of the later 650cc and 500cc pre-unit models are directed to Triumph Factory Manual No.17 ISBN 9781588502872, which covers the September 1956 through August 1962 models. Owners of the unit-construction 650cc and 500cc twins from 1963 through 1970 require the Triumph Factory Manual ISBN 9781588502667. THE VARIOUS 1945 to 1970 650cc & 500cc MANUALS EXPLAINED 1945-1962 PRE-UNIT MANUALS: The original small format (5 1/2' x 8 1/2") stapled booklet style Manual No.11 covered the 1945 to 1955 rigid frame, sprung hub and swing-arm twins and remained in print under part number 99-0836 (ISBN 9781588502865) through the mid 1960's. Manual No.11 was superseded by Manual No.17 (Ref. 800/62) which was ultimately reprinted (without modifications) under part number 99-0837 (ISBN 9781588502872). It includes coverage for the last of the pre-unit (swing-arm only) 650cc and 500cc models from September 1956 up to August 1962. 1963-1970 UNIT-CONSTRUCTION MANUALS: Manuals for these models

commenced with the publication of a large format (8 1/2" x 11") 3-ring bound, manual part number 99-0883 that covered the 1963 (September 1962) through the 1968 unit-construction models. The 99-0883 manual was subsequently updated by the publication of part number 99-0889 which was unique to the 1969 and 1970 models. Ultimately, both of these manuals were merged under part number 99-0883/0889 (ISBN 9781588502667) as a single manual covering the 1963 through 1970 models. Unfortunately, owners of pre-1970 Triumph motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of originals and reprints of the various manuals that have recently flooded the online marketplace. We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb-bound photocopies that are scanned and printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned', 'used' or even 'refurbished'! In addition, they are often advertised for the incorrect series and/or model years.

Clymer Vintage British Street Bikes: BSA, Norton, Triumph Repair Manual Haynes Manuals N. America, Incorporated

1945 to 1955 (and later?) Models: An illustrated workshop manual covering Triumph twin-cylinder motorcycles from 1945 to 1955: This is a faithful reproduction of the Factory Workshop Manual No. 11, originally published in the US by Floyd Clymer. The major revision in the later pre-unit factory manuals was the addition of technical specifications for the T120 Bonneville (1959). Unfortunately, those revisions also included the deletion of repair data for rigid frame, sprung hub and 3T models. This makes the Factory Workshop Manual No. 11 the most comprehensive workshop manual available for pre-unit, twin-cylinder Triumph motorcycles up to and including 1962 models as it includes repair and

maintenance data for the full line of rigid frame, sprung hub, swing-arm and 350cc models. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of engines, gear boxes, frames, swing-arm, forks, wheels, hubs, carburetors, electrics, etc., essential information for the enthusiast, owner or restorer of these classic motorcycles. Size: 5.5" x 8.5" with 224 pages and 84 illustrations, includes 8 pages of detailed technical specification charts and both an illustration index and a comprehensive index of contents. Applicable to the following models: 5T Speed Twin, T100 Tiger 100, TR5 Trophy, 6T Thunderbird, T110 Tiger 110 and 3T De-Luxe. Includes maintenance and repair data for the following engines: Twin Cylinder 350cc OHV, 500cc OHV and 650cc OHV.
