Welcome to the future, where the norms are vast bio-constructed cities, air toxic enough to force citizens to wear oxygen masks, and crime so severe that the cops drive tanks! When a mysterious winged girl with the power to cleanse the poisoned air is kidnapped by the villainous Buaku, police mini-tank commander Leona Ozaki, her tank Bonaparte, and her lovesick partner Al must confront the arch-criminal and his catgirl molls-the beautiful and deadly Annapuma and Unipuma-before Buaku's master plan kicks into gear. Buaku has more than money on his mind, and the future fate of humanity hangs in the balance! Produced by international comics superstar Shirow Masamune, creator of Appleseed and Ghost in the Shell, Dominion is an ecological-dystopian-police procedural adventure/comedy as only Shirow can create! This new edition is published for the first time in America in right-to-left reading format, as originally published in Japan. * Shirow is well-known and critically acclaimed internationally. * Produced in the authentic right-to-left reading format, as originally published in Japan.

Young and beautiful, Lois Pryce was a rising star at the BBC. Unbeknownst to her co-workers, Lois lived a parallel life as a biker babe with an overwhelming sense of wanderlust. So she packed in her career to ride her motorcycle on her own from the northernmost tip of Alaska to the southernmost tip of South America. Alone. Armed only with the Spanish words for 'caution' and 'cheese', Lois was rather under-prepared for multiple bear sightings, bribing her way through borders, spending a night in a Mexican brothel and crashing her bike in the wilds of Patagonia. She most certainly got the adventure she craved, and her pulse-pounding, soul-searching adventure has already attracted fans worldwide - a weblog that she kept whilst on her travels was receiving more than two-thousand hits a day. Her hilarious, brilliantly written travelog will appeal to anyone who's ever dreamt of jacking-it-all-in and running away to see the world.

A guide to systematic, as opposed to incidental, ad-hoc innovation Innovation need not only be jugaad. For the first time a book shows us how in India, innovation can be introduced in one's organization in a systematic, deliberate way. 8 Steps to Innovation explains how you can do this by building an idea pipeline in your organization, improving the velocity of ideas coming in, and implementing the ideas within the given constraints. All this is shown through nice, snappy examples, mostly homegrown Indian ones. Few books in the market talk about innovation in the Indian context with Indian examples as this one does.

Motor trikes have been around since the dawn of motoring, with many starting out as utility vehicles or prototypes of cars. But trikes haven't died out or become mere relics of motoring history – companies all over the world still produce them today, and many will convert a motorcycle into a trike. Trikes are not only huge fun, but can also be a lifestyle choice. They are as diverse as the people who ride them, and this book illustrates the vast range of machines available. The reader will discover a plethora of trike designs and layouts from the late 19th century to the present day. Some influential designs include Piaggio's three wheeled vehicles, the Morgan three wheeler, and the Harley-Davidson Servicar. The book also features the products of companies that convert motorcycles into trikes, and shows some mass-produced examples that you can buy today. Then there are the weird and wonderful machines built by individual enthusiasts – a testament to their engineering skills and true eccentricity ...

The best-selling Honda ever, the long-running Honda Mini Trail, was available in a huge range of models, even within each model year. The [Honda Mini Trail Enthusiast's Guide](#) covers all Honda Mini Trails and Z50 bikes produced between 1968 and 1999. Author Jeremy Polson begins with a brief introduction of the models that led up to the Mini Trail, and then jumps into a thorough analysis of the many models and iterations that Honda has offered through the years. Despite the worldwide popularity of Honda's best-selling model, no other Mini Trail book had been published, and the accuracy of information found on the Internet is suspect at best. For Z50 collectors and enthusiasts, this book presents facts and figures found nowhere else. In addition to the hard facts regarding each model of each year, this book is filled with many rare photos that track the evolution of the Mini Trail, and unravel its mystery.

"It took us three thousand years to find an intelligent species among the stars and only three months to pick a fight with them." After the United Nations of Terra (UNT) Fleet Frigate Nelson reported an encounter with an alien spaceship, she disappeared without a trace. An alien race called the Maltaani have made their presence known by landing a mass of troops on Balfan-48, a desert planet located far too close to Terra Earth for comfort. Tensions are rising and tempers are growing short. The UNT responds by deploying ISMC's Ninth Division aboard the flagship Atlas to the scene to investigate the Maltaani aggression. Blinded and deafened by enemy jamming, Ninth Division drops on Balfan-48 to counter the alien provocation. When Ninth Division is decimated by a sneak attack, it's up to Second Lieutenant Fortis to lead the surviving Space Marines in a fight for

their lives. Trapped in a shrinking perimeter, cut off from Fleet support, and short of everything except the enemy, the Space Marines fight the only way they know how: like hell. After Fortis samples a batch of DINLI brewed from lima bean rations, the radio-telephone operators ask him what message to send to Atlas in case the jamming ends. His response becomes a legend in the ISMC. "Tell them to send fresh fruit and ammo."

"Angkor, the temple and palace complex of the ancient Khmer capital in Cambodia is one of the world's most famous monuments. Hundreds of thousands of tourists from all over the globe visit Angkor Park, one of the finest UNESCO World Heritage Sites, every year. Since its UNESCO listing in 1992, the Angkor region has experienced an overwhelming mushrooming of hotels and restaurants; the infrastructure has been hardly able to cope with the rapid growth of mass tourism and its needs. This applies to the access and use of monument sites as well. The authors of this book critically describe and analyse the heritage nomination processes in Cambodia, especially in the case of Angkor and the temple of Preah Vihear on the Cambodian/Thai border. They examine the implications the UNESCO listings have had with regard to the management of Angkor Park and its inhabitants on the one hand, and to the Cambodian/Thai relationships on the other. Furthermore, they address issues of development through tourism that UNESCO has recognised as a welcome side-effect of heritage listings. They raise the question whether development through tourism deepens already existing inequalities rather than contributing to the promotion of the poor"--Publisher's description.

Pit Bikes Universitätsverlag Göttingen

When Annie's dad promises her a beach sports car, she imagines a bright red hotrod with racing stripes. All her school friends will be so jealous! But when her gift turns out to be Dad's battered old bomb car instead, Anne realizes it will take a lot of effort to turn it into the automobile of her dreams. Highlighting the power of imagination in making things new again, this entertaining story also shows how hard work can sometimes make the final reward that much sweeter.
