CAFO : The Tragedy of Industrial Animal Factories provides an unprecedented view of concentrated animal feeding operations, where increasing amounts of the world's meat, milk, eggs, and seafood are produced. As the photos and essays in this powerful book demonstrate, the rise of the CAFO industry around the world has become one of the most pressing issues of our time. Industrial livestock production is now a leading source of climate-changing emissions, a source of both freshwater and ocean pollution, and a significant contributor to diet-related

diseases such as obesity and the spread of food-borne illnesses. The intensive concentration of animals in such crammed and filthy conditions dependent on antibiotic medicines and steady streams of subsidized industrial feeds poses serious moral and ethical concerns for all of us. "Local editors Schaper and Horwitz have assembled a noteworthy collection of noir-infused stories mixed with laughter... The Akashic noir short-story anthologies are avidly sought and make ideal samplers for regional mystery collecting." --Library Journal "The best pieces in the collection turn the clichés of the genre on their head . . . and despite the unseemly subject matter, the stories are often surprisingly funny." —City Pages (Minneapolis) Brand-new stories from John Jodzio, Tom Kaczynski, and Peter Schilling, Jr., in

addition to the original volume's stories by David Housewright, Steve Thayer, Judith Guest, Mary Logue, Bruce Rubenstein, K.J. Erickson, William Kent Krueger, Ellen Hart, Brad Zellar, Mary Sharratt, Pete Hautman, Larry Millett, Quinton Skinner, Gary Bush, and Chris Everheart. "St. Paul was originally called Pig's Eye's Landing and was named after Pig's Eye Parrant--trapper, moonshiner, and proprietor of the most popular drinking establishment on the Mississippi. Traders, river rats, missionaries, soldiers, land speculators, fur trappers, and Indian agents congregated in his establishment and made their deals. When Minnesota became a territory in 1849, the town leaders, realizing that a place called Pig's Eye might not inspire civic confidence, changed the name to St. Paul, after the largest church in the city . . . Across the river, Minneapolis has its own sordid story. By the turn of the twentieth century it was considered one of the most crooked cities in the nation. Mayor Albert Alonzo Ames, with the assistance of the chief of police, his brother Fred, ran a city so corrupt that according to Lincoln Steffans its 'deliberateness, invention, and avarice has never been equaled.' As recently as the mid-'90s, Minneapolis was called 'Murderopolis' due to a rash of killings that occurred over a long hot summer . . . Every city has its share of crime, but what makes the Twin Cities unique may be that we have more than our share of good writers to chronicle it. They are homegrown and they know the territory--how the cities look from the inside, out . . ."

Five T'ang Poets Harper Collins

There's something in the earth deep below Elise Kavanagh's territory. A shadow is falling upon local demons to devour their flesh and harvest their souls. And it's coming for Elise next. The Union has an easy way out. They want to send Elise into hiding again with her former partner, James Faulkner. All she has to do is surrender the territory and trust that they can protect the ethereal ruins, the dark gate, and the city she's come to know as home. Greater powers have other plans for Elise and her fabled power as Godslayer--plans that mean surrendering her life and blood to the most powerful demon alive. But if she descends, there's no turning back. Once she gazes into the abyss, it will gaze back into her...and Elise will be damned forever.

The Book of Athyra Prentice Hall

Five great poets of the T'ang dynasty (eighth and ninth centuries A.D.) are represented in this collection: Wang Wei, Li Po, Tu Fu, Li Ho, and Li Shang-Yin. Each poet is introduced by the translator and represented by a selection that spans the poet's development and career. These constitute some of the greatest lyric poems ever written.

**Akashic Books**

This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies - shamanism, sorcery, enchantment, the occult - is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and architects to Donald Trump and George Soros.

Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.

The Book of Jhereg and The Book of Taltos collected the first five novels of Steven Brust's highly imaginative fantasy series that Locus praised as "entertaining and worth reading." The Book of Athyra features books six and seven in the series—Athyra and Orca. Vlad Taltos is a sorcerer and assassin without peer—as deadly

at spell casting as he is with sword wielding. Accompanying him on his journeys are two leathery-winged jhereg who share a telepathic link with Vlad—and triple his chances against even the most powerful of enemies... In Athyra, Vlad finds he's ready to retire himself and his jhereg companions, but the biggest hitters of the House of the Jhereg have something else in mind. In Orca, Vlad must repay a debt to a boy who saved his life—even if it means breaking a financial scandal big enough to bring down the House of the Orca, and possibly the entire Empire...

Learn the fundamentals of RF and  
microwave electronics visually,  
using many thoroughly tested,  
practical examples RF and  
microwave technology are essential  
throughout industry and to a world  
of new applications-in wireless  
communications, in Direct  
Broadcast TV, in Global

the field for the first time,  
Radio Frequency and Microwave  
Electronics Illustrated is the  
fastest way to master every key  
measurement, electronic, and  
design principle you need to be  
effective. Dr. Matthew Radmanesh  
uses easy mathematics and a highly  
graphical approach with scores of  
examples to bring about a total  
comprehension of the subject.  
Along the way, he clearly  
introduces everything from wave  
propagation to impedance matching

in transmission line circuits,  
microwave linear amplifiers to  
hard-core nonlinear active circuit  
design in Microwave Integrated  
Circuits (MICs). Coverage  
includes: A scientific framework

(MICs) Novel use of "live math" in  
circuit analysis and design Dr.  
Radmanesh has drawn upon his many  
years of practical experience in  
the microwave industry and  
educational arena to introduce an  
exceptionally wide range of  
practical concepts and design  
methodology and techniques in the  
most comprehensible fashion.

Applications include small-signal,  
narrow-band, low noise, broadband

Aramaic version of the Torah (though "Jerusalemite" should not be taken literally, since the city of Jerusalem did not exist as a place of Jewish habitation at the time that this text was composed). In light of the discovery of many manuscripts containing similar works, it can be recognized that the Targum Yerushalmi that appears in the Mikra'ot Gedolot is but one representative of a larger family of Aramaic texts that are designated in the scholarly literature as "Fragmentary Targums." Dates: Although the known manuscripts of these Targums are from the 11th-13th century, it appears that their contents originated hundreds of years earlier. Place: Israel  
Description: The "Targum Yerushalmi" does not provide a complete Aramaic translation of the Torah, but is confined to specific verses (or sometimes just individual phrases or words). There is no evidence that this Targum was intended to provide alternative readings for one of the complete Targum texts.
