Developed by Ronald J. Williams over fifteen years in a formal course on Hebrew syntax at the University of Toronto, Williams Hebrew Syntax has since been widely used as an intermediate textbook in biblical Hebrew. First published in 1967, with a second edition issued in 1976, this substantially revised and expanded third edition is designed as an intermediate textbook for students of Biblical Hebrew. The guide explains the meanings of morphological categories and the way that words, phrases, and clauses relate to one another to create meaning. Expanded to meet the demands of contemporary classroom use, John C. Beckmans third edition also functions as a grammatical reference, providing updated analysis and thoroughly up-to-date cross-

references to literature in the field. By providing interlinear translations and final translations for examples, the latest edition better enables students with modest vocabulary and knowledge of parsing to understand the examples and grammatical points.

"Chireau has written a marvelous text on an important dimension of African American religious culture. Expanding beyond the usual focus of scholarship on Christianity, she describes and analyzes the world of magical-medical-religious practice, challenging hallowed distinctions among "religion" and "magic." Anyone interested in African American religion will need to reckon seriously with Chireau's text on conjure."—Albert J. Raboteau, Princeton University "Deprived of their own traditions and defined as chattel, enslaved Africans formed a new orientation in America. Conjuring—operating alongside of and within both the remnants of African culture and the acquired traditions of North America—served as a theoretical and practical mode of deciphering and divining within this, enabling them to create an alternate meaning of life in the New World. Chireau's is the first full-scale treatment of this important dimension of African American culture and religion. A wonderful book!"—Charles H. Long, Professor of History of Religions University of California, Santa Barbara and author of Significations: Signs, Symbols and Images in the

John L. Esposito is one of America's leading authorities on Islam. Now, in this brilliant portrait of Islam today-- and tomorrow-- he draws on a lifetime of thought and research to provide an accurate, richly nuanced, and revelatory account of the fastest growing religion in the world. Here Esposito explores the major questions and issues that face Islam in the 21st century and that will deeply affect global politics: Is Islam compatible with modern notions of democracy, rule of law, gender equality, and human rights? How representative and widespread is Islamic fundamentalism and the threat of global terrorism? Can Muslim minority communities be loyal citizens in America and Europe? In the midst of these questions Esposito places an important emphasis on the issue of Islamophobia, the threat it poses, and its vast impact on politics and society in the US and Europe. He also turns the mirror on the US and Europe and paints a revealing portrait of how we appear to Muslims. Recent decades have brought extraordinary changes in the Muslim world, and in addressing these issues, Esposito paints a complex picture of Islam in all its diversity--a picture of urgent importance as we face the challenges of the coming century.
