*The Vintage Motorcyclists' Workshop* Haynes Manuals N. America, Incorporated During the muscle car wars of the 1960s, Holley carburetors emerged as the carbs to have because of their easy-to-tune design, abundance of parts, and wide range of sizes. The legendary Double Pumper, the universal 600-cfm 1850 models, the Dominator, and now the Avenger have stood the test of time and are the leading carburetors in the high-performance engine market. To many enthusiasts, the operation, components, and rebuilding procedures remain a mystery. Yet, many carburetors need to be rebuilt and properly set up for a particular engine package. Veteran engine building expert and automotive author Mike Mavrigian guides you through each important stage of the rebuilding process, so you have the best operating carburetor for a particular engine and application. In addition, he explains carb identification as well as idle, mid-range and high-speed circuit operation, specialty tools, and available parts. You often need to replace gaskets, worn parts, and jets for the prevailing weather/altitude conditions or a different engine setup. Mavrigian details how to select parts then disassemble, assemble, and calibrate all of the major Holley carburetors. In an easy-to-follow step-by-step format, he shows you each critical stage for cleaning sensitive components and installing parts, including idle screws, idle air jets, primary/secondary main jets, accelerator pumps, emulsion tubes, and float bowls. He also includes the techniques for getting all of the details right so you have a smooth-running engine. Holley carburetor owners need a rebuilding guide for understanding, disassembling, selecting parts, and reassembling their carbs, so the carb then delivers exceptional acceleration, quick response, and superior fuel economy. With *Holley Carburetors: How to Rebuild* you can get the carb set up and performing at its best. And, if desired, you can move to advanced levels of tuning and modifying these carbs. If you're looking for the one complete book that helps you quickly and expertly rebuild your Holley and get back on the road, this book is a vital addition to your performance library.

*Race Tech's Motorcycle Suspension Bible* Haynes Manuals N. America, Incorporated This is a true story about a special relationship that developed between a wild desert bird and the owner and friends of a special house in the Western Mojave in California. If you have ever looked into the eyes of a wild animal, especially in its natural habitat, you know how special that moment can be. Anyone with a family pet knows the special bond between animal and man and it can be a truly amazing experience. In fact, most pet "owners" consider their animals to be an integral part of the family and include them in weddings, rely on them for protection and grieve upon their demise. Having an untamed animal not only approach you but maintain a constant presence throughout its life was transformative for me and became a defining part of my life. It is a story that is best shared and will hopefully enrich yours as well.

A lavishly illustrated and definitive look at the design evolution of the racing motorcycle. The dynamic between competition and design has always fueled the evolution of racing motorcycles and inspired astonishing feats of design and engineering. This book traces the development of the sport bike, from the earliest French motorcycles to the dominance of British machinery in the 1930s, the exotic Italian motorcycles of the 1950s and 1960s, the influence of American racing in the 1970s and 1980s, and today ' s Japanese superbikes. More than fifty classic motorcycles—from Harley-Davidsons to Peugeots, Velocettes, Moto Guzzis, BMWs, Kawasakis, and Ducatis—are presented chronologically illustrated with stunning studio photographs that present the machines as works of art and wonders of design in themselves, accompanied by rare and beautiful archival images that place the subjects in the contexts of classic races, rallies, and motorcycle shows, and accompanied by essays revealing the legends behind the machines. Some of the championship motorcycles featured include the 1902 Manon, the 1922 Harley Davidson 8-valve, the 1935 Terrot 500, the 1948 AJS Porcupine, the 1954 Moto Guzzi V8, the 1965 Honda GP 250, The 1976 Suzuki RK67, the 1986 Cagiva GP, and the 1990 Ducati Supermono.
