Disruptive Pattern Material Haynes Manuals N. America, Incorporated Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

This encyclopedic art book charts the history of camouflage from its inspiration in nature, through its adoption by the military, to its current uses in design and popular culture. Divided into two books totaling 944 pages, DPM offers comprehensive coverage of this multifaceted and highly engaging subject. It contains more than 5,000 images by the world's leading nature, military and fashion photographers. It includes a comprehensive guide to the camouflage patterns issued to soldiers of 107 nations around the world and documents the rise of camouflage outside the armed forces - its use by anti-war protestors in the 1960s, further exploration by modern artists, and reinvention within areas such as fashion, architecture, music, film and sport. Depictions of camouflaged cultural icons such as David Beckham, Robert De Niro, U2, Notorious B.I.G., Ali G, Neneh Cherry and Joe Strummer illustrate the theme. Rescuing camouflage from its unhappy associations with war and conflict, this book emphasizes its natural beauty. It is the modern reference guide for both the novice and the seasoned camoufler.

It's good to talk about ministry. It's better to do it, and do it passionately. In 2008, the United Methodist Church lifted up "Four Areas of Focus" for ministry, and churches have responded. But at Ginghamburg Church, in the rust-belt town of Tipp City, Ohio, the church has been doing exciting and effective ministry in those four areas for 35 years and more. Engaging in Ministry with the Poor Improving Global Health Developing Principled Christian Leaders Creating New and Renewed Congregations The work has led to a host of creative ministries and organic growth...because they were meeting the needs of their community and their world as the hands and feet of Christ. The book comes with a built-in facilitator Guide to encourage pastor peer groups and other leadership groups interested in deepening the discussion.
