"A good balance between theory and practice . . . it definitely fills a void in the [lack of] texts in the area and the change literature in general . . . a good fit for my graduate class on 'Managing Organizational Change.'"

—Anthony F. Buono, McCallum Graduate School of Business, Bentley College "Like Gareth Morgan's Images of Organization, this book is a superb blend of theory and practicality. It demystifies chaos and paradox, and it encourages the understanding of organizational dynamics from multiple perspectives. It is refreshing to read a book that presents diverse theories and interventions so even-handedly." —Andrea Markowitz, Ph.D., President,

OB&D, Inc. Learning to Change: A Guide for Organizational Change Agents provides a comprehensive overview of organizational change theories and practices developed by both U.S. and European change theorists. The authors compare and contrast five fundamentally different ways of thinking about change: yellow print thinking, blue print thinking, red print thinking, green print thinking and white print thinking. They also discuss in detail the steps change agents take, such as diagnosis, change strategy, the intervention plan, and interventions. In addition, they explore the attributes of a successful change agent and provide advice for career and professional development. The book includes case studies that describe multiple approaches to organizational change issues. This book will appeal to both the practitioner and academic audiences. It can be used as a text in graduate courses in change management and will also be a useful reference for consultants and managers.

Features: Discusses the abilities, attitudes, and styles of successful change agents Describes five fundamentally different ways of thinking about change Presents a state-of-the-art overview of change management insights, methods, and instruments Summarizes an extensive amount of organizational change literature Supplies readers with useful insights and courses of action that will allow them to design and implement change professionally Learning to Change became a bestseller upon its initial publication in the Netherlands. The color-model on change is very popular among thousands of managers and change consultants and presents a new approach to change processes and a new language for change.

Manager selection is a critical step in implementing any investment program. Investors hire portfolio

managers to act as their agents, and portfolio managers are then expected to perform to the best of their abilities and in the investors' best interests. Investors must practice due diligence when selecting portfolio managers. They need to not only identify skillful managers, but also determine the appropriate weights to assign to those managers. This book is designed to help investors improve their ability to select managers. Achieving this goal includes reviewing techniques for hiring active, indexed, and alternative managers; highlighting strategies for setting portfolio manager weights and monitoring current managers; and considering the value of quantitative and qualitative methods for successful manager selection.

African Books in Print Macmillan Reference USA
