On a motorcycle trip from Manitoba to southern Chile, Cameron Dueck seeks out isolated enclaves of Mennonites—and himself. "An engrossing account of an unusual adventure, beautifully written and full of much insight about the nature of identity in our ever-changing world, but also the constants that hold us together."—Adam Shoalts, national best-seller author of *Beyond the Trees: A Journey Alone Across Canada's Arctic* and *A History of Canada in 10 Maps Across Latin America*, from the plains of Mexico to the jungles of Paraguay, live a cloistered Germanic people. For nearly a century, they have kept their doors and their minds closed, separating their communities from a secular world they view as sinful. The story of their search for religious and social independence began generations ago in Europe and led them, in the late 1800s, to Canada, where they enjoyed the freedoms they sought under the protection of a nascent government. Yet

in the 1920s, when the country many still consider their motherland began to take shape as a nation and their separatism came under scrutiny, groups of Mennonites left for the promises of Latin America: unbroken land and new guarantees of freedom to create autonomous, ethnically pure colonies. There they live as if time stands still—an isolation with dark consequences. In this memoir of an eight-month, 45,000 kilometre motorcycle journey across the Americas, Mennonite writer Cameron Dueck searches for common ground within his cultural diaspora. From skirmishes with secular neighbours over water rights in Mexico, to a mass-rape scandal in Bolivia, to the Green Hell of Paraguay and the wheat fields of Argentina, Dueck follows his ancestors south, finding reasons to both love and loathe his culture—and, in the process, finding himself.

2012 KAWASAKI TERYX 750 TECHNICAL SERVICE REPAIR DEALER MANUAL Haynes Manuals N. America, Incorporated

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

Riding the Dirt Biblioasis

Jupiter's Travels - Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGregor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of *Riding Home* and *The Gypsy in Me*.
