The Revolt of the Public and the Crisis of Authority in the New Millennium DIANE

Publishing

How insurgencies—enabled by digital devices and a vast information sphere—have mobilized millions of ordinary people around the world. In the words of economist and scholar Arnold Kling, Martin Gurri saw it coming. Technology has categorically reversed the information balance of power between the public and the elites who manage the great hierarchical institutions of the industrial age: government, political parties, the media. *The Revolt of the Public* tells the story of how insurgencies, enabled by digital devices and a vast information sphere, have mobilized millions of ordinary people around the world. Originally

published in 2014, *The Revolt of the Public* is now available in an updated edition, which includes an extensive analysis of Donald Trump’s improbable rise to the presidency and the electoral triumphs of Brexit. The book concludes with a speculative look forward, pondering whether the current elite class can bring about a reformation of the democratic process and whether new organizing principles, adapted to a digital world, can arise out of the present political turbulence.

Lemon-Aid New and Used Cars and Trucks 2007–2018 Taylor & Francis

'A landmark in the process of decolonizing imperial Western knowledge.' Walter Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as

'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.

Whether you're a retired soldier, a seeker of adventure, or simply one who wants to gain insight into today's soldier of fortune, this manual covers everything you need to know: clients and accounts, how to assume the "chameleon mode," money and survival, psywar ops, shock warfare and classic SOF cities. Seasoned professional mercenary Paul Balor reveals the experiences, tricks of the trade and hard-learned lessons that have kept him alive for more than four decades.

The Structural Engineer ' s Professional Training Manual Xlibris Corporation  
Following the 2008/9 financial crisis and deep recession, a cyclical recovery took hold in Ukraine, supported by a stronger

external environment. Efforts to consolidate public finances and repair the banking system began strengthening Ukraine ' s resilience to external shocks. More recently, policies have not been sufficient to meet key objectives, and the government has hesitated to undertake politically unpopular reforms. The external environment has become less supportive, and the recovery is losing momentum.

Imperial Leather chronicles the dangerous liaisons between gender, race and class that shaped British imperialism and its bloody dismantling. Spanning the century between Victorian Britain and the current struggle for power in South Africa, the book takes up the complex relationships between race and sexuality, fetishism and money, gender and violence, domesticity and the imperial market, and the gendering of nationalism within the zones of imperial and anti-imperial power. Official Gazette of the United States Patent and Trademark Office Dundurn

With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands

in the age of globalization. Although the balance sheet may not even put a value on it, a company's brand or its portfolio of brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of Brands and Branding provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand

---

communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, *Brands and Branding* sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

An expanded edition of the classic exploration of the English esoteric musical underground—with the first biography of Coil, Current 93, and Nurse With Wound. This newly expanded edition of England's *Hidden Reverse*, the classic exploration of the English esoteric musical underground that includes the first, and only, biographies of Coil, Current 93, and Nurse With Wound, is based on exclusive interviews and unprecedented access to all

three bands' personal archives. Together, these genre-defying bands and their circles represent the English underground in all its cultural, artistic, and sexual variety. Over four decades, the three intertwined groups have maintained a symbiotic, yet uneasy, relationship with the mainstream of popular culture, even as their music, beliefs, and practices have repelled them from it. Theirs was a clandestine scene whose work accents the many occulted peculiarities of Englishness that flow through generations of outsiders, channeling personalities as diverse as Aleister Crowley, Arthur Machen, Joe Orton, Shirley Collins, Björk, and Marc Almond. The story of this *Hidden Reverse* has, necessarily, remained a secret. Until now. This new volume contains almost 100 pages of extra material culled from *Furfur*, a collection of interviews with musicians and artists whose careers intersected with the bands', initially published alongside *Strange Attractor's* first limited edition of the book. *Moody's Bank and Finance Manual* Penguin

Gideon the Ninth is the first book in the New York Times and USA Today Bestselling Locked Tomb Series, and one of the Best Books of 2019 according to NPR, the New York Public Library, Amazon, BookPage, Shelf Awareness, BookRiot, and Bustle! WINNER of the 2020 Locus Award and Crawford Award Finalist for the 2023 Hugo Award for Best Series! Finalist for the 2020 Hugo, Nebula, Dragon, and World Fantasy Awards “ Unlike anything I ’ ve ever read. ” —V.E. Schwab “ Lesbian necromancers explore a haunted gothic palace in space! ” —Charles Stross “ Deft, tense and atmospheric, compellingly immersive and wildly original. ” —The New York Times The Emperor needs necromancers. The Ninth Necromancer needs a swordswoman. Gideon has a sword, some dirty magazines, and no more time for undead nonsense. Tamsyn

Muir ’ s Gideon the Ninth unveils a solar system of swordplay, cut-throat politics, and lesbian necromancers. Her characters leap off the page, as skillfully animated as arcane revenants. The result is a heart-pounding epic science fantasy. Brought up by unfriendly, ossifying nuns, ancient retainers, and countless skeletons, Gideon is ready to abandon a life of servitude and an afterlife as a reanimated corpse. She packs up her sword, her shoes, and her dirty magazines, and prepares to launch her daring escape. But her childhood nemesis won ’ t set her free without a service. Harrowhark Nonagesimus, Reverend Daughter of the Ninth House and bone witch extraordinaire, has been summoned into action. The Emperor has invited the heirs to each of his loyal Houses to a deadly trial of wits and skill. If Harrowhark succeeds she will be become an immortal, all-

---

powerful servant of the Resurrection, but no necromancer can ascend without their cavalier. Without Gideon ' s sword, Harrow will fail, and the Ninth House will die. Of course, some things are better left dead. Named a Best Book of the Year by NPR, San Francisco Chronicle, Entertainment Weekly, The Huffington Post, BuzzFeed, Grantland Booklist, St. Louis Post-Dispatch, Shelf Awareness, Book Riot, School Library Journal, Bustle, and Time Our New York The acclaimed debut novel by the author of Little Fires Everywhere and Our Missing Hearts “ A taut tale of ever deepening and quickening suspense. ” —O, the Oprah Magazine “ Explosive . . . Both a propulsive mystery and a profound examination of a mixed-race family. ” —Entertainment Weekly “ Lydia is dead. But they don ’ t know this yet. ” So begins this exquisite novel about a Chinese American family living in 1970s small-town Ohio. Lydia is the favorite child of Marilyn and James Lee, and her parents are determined that she will fulfill the dreams they were unable to

pursue. But when Lydia ’ s body is found in the local lake, the delicate balancing act that has been keeping the Lee family together is destroyed, tumbling them into chaos. A profoundly moving story of family, secrets, and longing, Everything I Never Told You is both a gripping page-turner and a sensitive family portrait, uncovering the ways in which mothers and daughters, fathers and sons, and husbands and wives struggle, all their lives, to understand one another.

TWENTY-FIRST CENTURY'S FUEL SUFFICIENCY ROADMAP Page Publishing Inc Collision Reconstruction Methodologies - Volume 7B -The last ten years have seen explosive growth in the technology available to the collision analyst, changing the way reconstruction is practiced in fundamental ways. The greatest technological advances for the crash reconstruction community have come in the realms of photogrammetry and

---

digital media analysis. The widespread use of scanning technology has facilitated the implementation of powerful new tools to digitize forensic data, create 3D models and visualize and analyze crash vehicles and environments. The introduction of unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced the ability of a crash analyst to visualize and model the components of a crash reconstruction. Because of the technological changes occurring in the industry, many SAE papers have been written to address the validation and use of new tools for collision reconstruction. Collision Reconstruction Methodologies Volumes 1-12 bring together seminal SAE technical papers surrounding advancements in the crash reconstruction field. Topics featured in the series include:

- Night Vision Study and Photogrammetry
- Vehicle Event Data Recorders
- Motorcycle, Heavy Vehicle, Bicycle and Pedestrian Accident

Reconstruction The goal is to provide the latest technologies and methodologies being introduced into collision reconstruction - appealing to crash analysts, consultants and safety engineers alike.

20 20 Smart Lists Routledge

The U.S. Marine Corps' war in Vietnam was a mixture of large-scale conventional battles against main Viet Cong and North Vietnamese Army (NVA) units and smaller pacification operations designed to secure the South Vietnamese population from Communist insurgents. During the latter half of 1965, Marine forces fought repeated engagements against large Viet Cong units, most notably the 1st Viet Cong Regiment. The first battle, a fight in August to secure the area around Chu Lai called Operation Starlite, inflicted significant casualties upon this force. However, within just a few months, the Communist unit reconstituted itself, forcing the

---

Marines to launch another operation to destroy the formation in December. The Marines codenamed this action Operation Harvest Moon. Operation Harvest Moon has largely been overlooked in histories of the Vietnam War. While Operation Starlite was considered a major success and a clear demonstration of the superiority of America's conventional military forces compared to the Viet Cong, Harvest Moon was less decisive. The following year, the Marine Corps' attention also began to shift north toward the demilitarized zone (DMZ) as more regular North Vietnamese combat forces put pressure on the Marines' area of operations. Consequently, the battle was overshadowed by larger engagements. Nevertheless, the operation was important for a number of reasons. Harvest Moon was the Marines' last large-

scale, conventional operation of 1965 in Vietnam. Fought in the valleys and hills between the city of Tam Ky and the inland outpost of Hiep Duc, it was the largest combined operation between Marine units and the South Vietnamese military to that date. Perhaps most importantly, the battle demonstrated many of the frustrations and problems faced by all the American forces in South Vietnam as they tried to defeat the Viet Cong-led insurgency. The disparity in the fighting abilities between the Marines and South Vietnamese Army units hindered combat effectiveness. The lack of coordination between the two forces, and between the Marine Corps and U.S. Air Force, also led to heavy losses on the allied side. Enjoying logistical support from North Vietnam, the 1st Viet Cong Regiment was able to defeat South Vietnamese forces while largely

---

evading American units.
