While lying has been a topic in the philosophy of language, there has been a lack of genuine linguistic analysis of lying. Exploring lying at the semantics-pragmatics interface, this book takes a contextualist stand by arguing that untruthful implicatures and presuppositions are part of the total signification of the act of lying.

Chris Scott and his band of globetrotting contributors and specialists have put together the definitive manual for planning and undertaking a vehicle-dependent overlanding adventure across the wilds of Africa, Asia and Latin America. The Overlanders’ Handbook is written in the same entertaining yet clear jargon-free English for which Chris’s other books are known – it doesn’t assume you know your plug gap from a radiator cap. Planning – When to go; typical costs; documentation; sponsorship; early overland journeys. Vehicle choice and preparation – The Overlanders’ Handbook is the most comprehensive account in print, covering everything from adapting a cheap car to equipping a campervan or 4x4 for months on the road, or even building and outfitting your own accommodation module to mount on an all-terrain truck chassis. Life on the road – How to handle dodgy borders, haggle over a purchase, treat a dodgy stomach and cope with crazy driving conditions. Guidance on wild camping; navigation and mapping strategies;

onward shipping; advice for solo women overlanders; travelling with children or with pets; vehicle repairs and troubleshooting; and off-road driving techniques. Continental route outlines – Guidelines on both popular and obscure overland routes through Africa, Asia and Latin America. Includes fuel prices, easiest borders and best seasons, visa strategies, danger zones and regional highlights. Overlanders’ Tales – Half a dozen accounts of global adventures lasting months or even years – in vans, 4x4s and all-terrain trucks – from contributors aged from 9 to 69. Young and beautiful, Lois Pryce was a rising star at the BBC. Unbeknownst to her co-workers, Lois lived a parallel life as a biker babe with an overwhelming sense of wanderlust. So she packed in her career to ride her motorcycle on her own from the northernmost tip of Alaska to the southernmost tip of South America. Alone. Armed only with the Spanish words for 'caution' and 'cheese', Lois was rather under-prepared for multiple bear sightings, bribing her way through borders, spending a night in a Mexican brothel and crashing her bike in the wilds of Patagonia. She most certainly got the adventure she craved, and her pulse-pounding, soul-searching adventure has already attracted fans worldwide - a weblog that she kept whilst on her travels was receiving more than two-thousand hits a day. Her hilarious, brilliantly written travelog will appeal to anyone who's ever dreamt of jacking-it-all-in and running away to see the world.

This is the fourth edition of the classic text for students of urban and regional planning. It gives a historical overview of the developments and changes in the theory and practice of planning, throughout the entiretentieth century. This extensively revised edition follows the successful format of previous editions. Specific reference is made to the most important British developments in recent times, including the devolution of Scotland, Wales and Northern Ireland, the establishment of the Mayor of London and the dominant urban sustainability paradigm. Planning in Western Europe, since 1945, now incorporates new material on EU-wide issues as well as updated country specific sections. Planning in the United States since 1945, now discusses the continuing trends of urban dispersal and social polarisation, as well as initiatives in land use planning and transportation policies. The book looks at the nature of the planning process at the end of the twentieth century and looks forward to the twenty-first century.
