Renowned psychologist Jordan B. Peterson's answer to this most difficult of questions uniquely combines the hard-won truths of ancient tradition with the stunning revelations of cutting-edge scientific research. Humorous, surprising and informative, Dr. Peterson tells us why skateboarding boys and girls must be left alone, what terrible fate awaits those who criticize too easily, and

why you should always pet a cat when you meet one on the street. What does the nervous system of the lowly lobster have to tell us about standing up straight (with our shoulders back) and about success in life? Why did ancient Egyptians worship the capacity to pay careful attention as the highest of gods? What dreadful paths do people tread when they become resentful, arrogant and vengeful? Dr. Peterson journeys broadly, discussing discipline, freedom, adventure and responsibility, distilling the world's wisdom into 12 practical and profound rules for life. 12 Rules for Life shatters the modern commonplaces of science, faith and human nature, while transforming and ennobling the mind and spirit of its readers.

The miraculous account of the man who survived alone and adrift at sea longer than anyone in recorded history. For fourteen months, Alvarenga survived constant shark attacks. He learned to catch fish with his bare hands. He built a fish net from a pair of empty plastic bottles. Taking apart the outboard motor, he fashioned a huge fishhook. Using fish vertebrae as needles, he stitched together his own clothes. Based on dozens of hours of interviews with Alvarenga and interviews with his colleagues, search and rescue officials, the medical team that saved his life and the remote islanders who nursed him back to health, this is an epic tale of survival. Print run 75,000.

Gonzo journalist and  
literary roustabout Hunter  
S. Thompson flies with the  
angels—Hell’s Angels,  
that is—in this short work of  
nonfiction. “California,

Labor Day weekend . . .

early, with ocean fog still in  
the streets, outlaw  
motorcyclists wearing chains,  
shades and greasy Levis roll  
out from damp garages, all-  
night diners and cast-off one-  
night pads in Frisco,  
Hollywood, Berdoo and East  
Oakland, heading for the  
Monterey peninsula, north  
of Big Sur. . . The Menace is  
loose again.” Thus begins  
Hunter S. Thompson’s  
vivid account of his  
experiences with  
California’s most notorious  
motorcycle gang, the Hell’s  
Angels. In the mid-1960s,  
Thompson spent almost two  
years living with the  
controversial Angels, cycling  
up and down the coast,  
reveling in the anarchic spirit  
of their clan, and, as befits  
their name, raising hell. His  
book successfully captures a  
singular moment in

---

American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America.

Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as The New Yorker pointed out, “ For all its uninhibited and sardonic humor,

Thompson ’ s book is a thoughtful piece of work. ”

As illuminating now as when originally published in 1967, Hell ’ s Angels is a gripping portrait, and the best account we have of the truth behind an American legend.
