This book serves as a preparation tool for excellent results for students at the CSEC level.

The Journal of Immunology Heinemann

This is a groundbreaking study of Cork's rise from insignificance to international importance as a city and port, and of South Munster's development from agricultural hinterland to one of early modern Ireland's wealthiest regions and a symbol of a new commercial order. Reconstructing the framework of a pre-modern regional society in a way never before attempted for Ireland, Old World Colony integrates social, economic, and political history across the heartlands of "the Hidden Ireland" from the seventeenth century's civil wars to Catholic emancipation in the 1820s. Dickson shows that colonization and commerce transformed the region, but at a price: even in South

Munster's formative years, the problems of pre-Famine Ireland-gross income inequality and land scarcity-were already evident. Co-published with Cork University Press, Ireland Wisconsin edition for sale only in the U.S., its territories and possessions, and Canada. "A masterful account. . . So finely nuanced and meticulously researched that it effectively raises the historiographical bar for Irish regional history."--James G. Patterson, H-Atlantic, H-Net Reviews

BSNL Jr. Engineer (TTA) Exam Guide + Practice Workbook (Concept Notes + 2 Solved + 10 Practice Sets) 2nd Edition Nelson Thornes
Disability and Inequality: Socioeconomic Imperatives and Public Policy in Jamaica explores the lived experiences of persons with disabilities (PWDs) in Jamaica, examining measurable socioeconomic deficits that establish PWDs are more likely to experience inferior education, training, and labor market outcomes compared to persons without disabilities. The author provides an evidence-based, theoretically grounded, and implementable public policy framework, called Framework of Key Determinants for Political and Socioeconomic Inclusion of PWDs, which advances anti-discrimination legislation and a twin-track policy schema with interconnected enablers of human rights. Using this framework, Jamaica, the Caribbean, and other Southern countries looking for methods and strategies to fulfill commitments set out by the United Nations' Convention on the Rights of Persons with Disabilities will find approaches to sustain existing progress, and address structural systemic deficits which continue to deny PWDs long-term sustainable development.

Calendar of Treasury Papers, 1556-7--[1728]: 1714-1719 Springer

Solid waste has become a major consequence of development and modernization, yet some of the greatest challenges to its management are felt most keenly in the developing countries. This is part of the larger paradox of development; namely, that factors that create the most intransigent problems currently facing the developing countries are invariably those which derive from development itself. Introduction This volume presents a collection of papers which, with

perspectives from Africa and the Caribbean, raise critical issues in the management of solid waste. It is intended to offer a basis for discussion among the wide range of disciplines and sectors involved in solid waste management and suggest directions for future work both in the theoretical and practical dimensions of the challenge with which developing countries are confronted.

Staff Appraisal Report Springer Nature

"SSC Combined Graduate Level (Tier I & Tier II) Exam 101 Speed Tests with 5 Practice Sets" As the name suggests the book contains 100 Topic-wise Tests and 5 Practice Sets.

The questions on all the IMPORTANT CONCEPTS which are required to crack this exam have been covered in the book in the form of 101 SPEED TESTS. No matter where you PREPARE from – a coaching or any textbook/ Guide - 101 SPEED TESTS provides you the right ASSESSMENT on each topic. Your performance provides you the right cues to IMPROVE your concepts so as to perform better in the final examination. It is to be noted here that these are not mere tests but act as a checklist of student's learning and ability to apply concepts to different problems. How is this product different?

- 1st unique product with 101 speed tests.
- Each test is based on small topics which are most important for the SSC Combined Graduate Level (Tier I & Tier II) Exam. Each test contains around 30 MCQs (on the latest pattern of the exam) depending upon its importance for the exam.
- The whole syllabus has been divided into 4 sections which are further distributed into 100 topics. 1. Quantitative Aptitude is distributed into 28 topics. 2. Reasoning is distributed into 28 topics. 3. General English is distributed into 14 topics. 4. General Awareness is distributed into 28 topics.
- In the end of each section a Sectional Test is provided so as to sum up the whole section. So 1 sectional Test each for Quantitative Aptitude, Reasoning, General English and General Awareness.
- Finally at the end 5 Practice Sets is provided so as to give the candidates the real feel of the final exam.
- In all, the book contains 4000+ Quality MCQ's in the form of 105 tests.
- Solutions to each of the tests are provided at the end of the book.
- Separate Time Limit, Maximum Marks, Cut-off, Qualifying Score is provided for each test.
- The book also provides a separate sheet, SCORE TRACKER where you can keep a record of your scores and performance.
- It is our strong belief that if an aspirant works hard on the cues provided through each of the tests he/ she can improve his/ her learning and finally the SCORE by at least 20%."

Frontiers Media SA

This volume builds upon emergent understandings about educational leadership and policy in hopes of continuing to refine our understanding of what effective leadership means in linguistically and culturally diverse school contexts. The volume seeks to entrench a deeper understanding of the broader leadership policies and practices that promote the success of linguistically and culturally diverse students, while also recognizing that effective leadership can be highly dependent on context. It offers original empirical research that enhances an understanding of the interdependencies between leadership, culture, language, and policy

(i.e., the mechanisms that engender or hinder successful stewardship of linguistic and cultural plurality). The confluence of school leadership, linguistic diversity, and multiculturalism makes this volume unique, especially considering the pace at which global migration continues to accelerate, coupled with the need to accommodate an array of diverse learning needs in today's schools.

Teens in Latin America and the Caribbean generally face a difficult path to adulthood. Poverty and unemployment, violence, political instability, and emigration are frequently the norm in their native countries. Those from poorer families must often work as well as attend school, and opportunities for higher education and good jobs are limited.

Wealthier teens, on the other hand, are sheltered from harshness and enjoy private schools, vacations abroad, and access to American consumer products. Yet family is important no matter what the class, and most of these teens share a love of parties, music, and current fashions. Latin America and the Caribbean are important regions to the United States, since large numbers of Americans can trace their roots there. Teen Life in Latin America and the Caribbean allows U.S. teens to understand the unique challenges and opportunities of teens in 15 Latin American or Caribbean countries. Photos complement the text.

- BARC - Civil Engineering (CE) Exam Prep Kit comes with well-structured and 100% detailed solutions for all the questions.
- Clear exam with good grades using thoroughly Researched Content by experts.

The New Statesman and Nation Chandresh Agrawal

This book examines childhood in four Caribbean SIDS (Barbados, Jamaica, Haiti and St. Lucia). Through the analysis of primary and secondary data, the author reveals that children in Caribbean SIDS experience an endangered childhood. The intrinsic characteristics of SIDS, including susceptibility to climate change, and high levels of poverty, indebtedness and inequality, Henry-Lee argues, increase the vulnerability of children. Furthermore, duty bearers are not adequately investing in children, private and public spaces are not child-friendly, and children 's rights are violated daily. Endangered and Transformative Childhood in Caribbean Small Island Developing States shows that children are therefore at risk of being left behind in the fulfilment of the UN2030 Agenda and that the Convention of the Rights of the Child (1989) lacks enforceable sanctions. Unless a radical transformation of childhood takes place, the prosperity and viability of Caribbean SIDS will remain elusive for generations to come. Students, scholars and policy-makers with an interest in childhood studies, children 's rights, and social policy will find this book a valuable read.
