The Rapid Visual Screening (RVS) handbook can be used by trained personnel to identify, inventory, and screen buildings that are potentially seismically vulnerable. The RVS procedure comprises a method and several forms that help users to quickly identify, inventory, and score buildings according to their risk of collapse if hit by major earthquakes. The RVS handbook describes how to identify the structural type and key weakness characteristics, how to complete the screening forms, and how to manage a successful RVS program.

Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

Points of Distribution . Points of Distribution are centralized locations where the public picks up life sustaining commodities following a disaster or emergency . Commodities usually include shelf stable food and water What are Points of Distribution or PODs? During a disaster, one method of issuing supplies may not be enough. A Local Emergency Management Agency

(LEMA) could use other distribution systems or use all of them at once. All three complement each other and provide expanded distribution coverage. For this Guide, we will focus on Points of Distribution or PODs. PODs can accommodate vehicle traffic (drive-thru), pedestrian traffic (walk thru), and mass transit traffic (bus or rail). Each person or vehicle receives a set amount of supplies. The recommended amount is for each person/vehicle to receive enough for a household of three. The amount of supplies provided will differ depending on the type of transportation used. For instance, more supplies are provided to someone in a car than to a pedestrian who must hand carry items."

Hatchet meets The Babysitters Club in this epic and thrilling survival story about pushing oneself to the limit in the face of a crisis. We were all alone, in a shaken and shattered house, in the dark. And I was in charge. Hannah Steele loves living on Pelling, a tiny island near Seattle. She's always felt totally safe there. So when she's asked to babysit after school one day, it's no big deal. Zoe and Oscar are her next-door neighbors, and Hannah just took a babysitting class, which she's pretty sure makes her an expert. She isn't even worried that she left her inhaler at home. Then the shaking begins. The terrifying earthquake only lasts four minutes, but it changes everything—damaging the house, knocking out the power, and making cell service nonexistent. Even worse, the ferry and the bridge connecting the kids to help—and their parents—are both blocked, which means they're stranded alone. And Hannah's in charge as things go from bad to worse. Praise for The Disaster Days: "A realistic, engrossing survival story that's perfect for aspiring babysitters and fans of John Macfarlane's Stormstruck!, Sherry Shahan's Ice Island, or Wesley King's A World Below."—School Library Journal "The strength of this steadily paced novel that stretches over four days of a scary disaster scenario is that Hannah doesn't figure everything out; she stumbles, doubts, and struggles throughout it all."—The Bulletin of the Center for Children's Books "Fans of survival thrillers in the vein of Gary Paulsen's Hatchet will enjoy this tense, honest tale of bravery...an excellent (and

refreshingly not didactic) teaching tool on natural-disaster preparedness."—Booklist
"The relentless progression of a variety of disaster scenarios will keep readers turning pages...equally suspenseful and informative."—School Library Connection

"Behrens uses immersive details and situations effectively viewed from Hannah's perspective to create a suspenseful, vivid story filled with lessons about responsibility and overcoming adversity."—Publishers Weekly

Hearing on Response to Terrorism Government Printing Office

FEMA has the statutory authority to deliver numerous disaster and non-disaster financial assistance programs in support of its mission, and that of the Department of Homeland Security, largely through grants and cooperative agreements. These programs account for a significant amount of the federal funds for which FEMA is accountable. FEMA officials are responsible and accountable for the proper administration of these funds pursuant to federal laws and regulations, Office of Management and Budget circulars, and federal appropriations law principles.

Research-based Web Design & Usability Guidelines Simon and Schuster

When our nation called, Tom Ridge answered. Appointed by the President to head up domestic security, Ridge established the Department of Homeland Security. In this probing and surefooted memoir, Ridge takes us through the challenges he and his new department faced, including Anthrax scares and reports (both real and false alarms) of new Al-Qaeda operations sprouting up in the United States. A "law and order" Republican who was on the shortlist to be John McCain's running mate in 2008, Ridge writes with refreshing candor on both the successes and missteps of the DHS. He details the obstacles faced in his new post—often within the administration itself—as well as the failures of Congress to provide for critical homeland security needs, and the irresponsible use of terrorism by both parties to curry favors with voters. Ridge also reveals:

- How the DHS was pressured to connect homeland security to the international "war on terror"
- How Ridge effectively thwarted a plan to raise the national security alert just before the 2004 Election
- How Ridge had pushed for a plan (defeated because of turf wars) to integrate DHS and FEMA disaster management in New Orleans and other areas before Hurricane Katrina

Finally, Ridge offers a prescriptive look to the future, advocating ways that America may reaffirm its safety—including his provocative

support for a national ID card program and for comprehensive immigration reform—without sacrificing personal liberty. Television captures every word and every expression. I was reasonable to think that our enemies would look for any sign of weakness in the person who in a few days would be responsible for protecting America against them. At that moment, I experienced a royal flush of emotion—after all, I was leaving the state I loved, a loyal staff, many friendships developed over a lifetime, the frustration of work unfinished, to head into the unknown and the undoable. In normal times, I might have shed a tear at such thoughts. But I was determined not to do so as I said my farewell. If I needed any reminding, I glanced down at the note I had written for counsel. "The bastards are watching." We can never guarantee we will be free from another attack. We must also understand that every day thousands and thousands of our fellow citizens work here and abroad to take us to a new level of readiness and security. For in the end, Americans do not live in fear. We live in freedom. And we will let no one take that freedom away. —Tom Ridge, from *THE TEST OF OUR TIMES*

Department of Housing and Urban Development, and Certain Independent Agencies Appropriations for Fiscal Year 1983: American Battle Monuments Commission John Wiley & Sons

Provides an overview of the various types of disasters that may occur, the myriad of actors that are involved in emergency management, and the diverse theoretical frameworks from which post-disaster activities may be approached.

- Includes updated chapters keeping the material fresh and accessible while incorporating recent changes in policy and new research
- Highlights lessons learned from such incidents and catastrophes as: Hurricane Katrina, Earthquake in Haiti, Parking lot collapse in Miami, West Texas industrial explosion, Train wreck in Spain, Aurora movie shooting, Times Square bombing, etc.
- Examines typical challenges to be expected during response efforts along with tools and techniques to enhance the ability to protect lives, reduce property damage and minimize disruption
- Includes an instructor package which contains: Sample Syllabus, Teaching Suggestions, Test bank, and PowerPoints

A Citizen's Guide to Disaster Assistance Sourcebooks, Inc.

Course Overview The purpose of this course is to increase awareness and understanding of the need for full inclusion of disaster survivors and FEMA staff who are people with disabilities, and people with access and functional needs. The course provides an overview of disabilities and access and functional needs and explains how disaster staff can apply inclusive practices in their

disaster assignments. Course Objectives: At the completion of this course, participants should be able to: -Explain the importance of including people with disabilities and others with access and functional needs in disaster operations at the JFO and field locations. -Describe how JFO and field staff can support and include people with disabilities and others with access and functional needs in disaster operations. -Describe principles and FEMA initiatives that provide a foundation for the integration of people with disabilities and others with access and functional needs in disaster operations. -Describe the history of the treatment of and services for people with disabilities. -Identify laws that provide the legal foundation for issues related to people with disabilities and others with access and functional needs. -Describe the function of the Disability Integration Advisor. -Describe personal actions to support the integration of people with disabilities and others with access and functional needs in the JFO and field disaster operations. Primary Audience This course is designed for all personnel involved in disaster operations at the Joint Field Office (JFO) and in other disaster facilities and activities.

Repairing Your Flooded Home Macmillan

In order for a community to be truly prepared to respond to any type of emergency, it must develop effective emergency planning. Emergency Planning guides readers through the steps of developing these plans, offering a number of strategies that will help ensure success. It delves into the patterns of human disaster behavior, social psychology, and communication as well as the basics of generic protective actions, planning concepts, implementation, and action.

American Battle Monuments Commission

Course Overview On February 28, 2003, President Bush issued Homeland Security Presidential Directive-5. HSPD-5 directed the Secretary of Homeland Security to develop and administer a National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic

incidents. You can also find information about NIMS at <http://www.fema.gov/nims/> This course introduces NIMS and takes approximately three hours to complete. It explains the purpose, principles, key components and benefits of NIMS. The course also contains "Planning Activity" screens giving you an opportunity to complete some planning tasks during this course. The planning activity screens are printable so that you can use them after you complete the course. What will I be able to do when I finish this course? * Describe the key concepts and principles underlying NIMS. * Identify the benefits of using ICS as the national incident management model. * Describe when it is appropriate to institute an Area Command. * Describe when it is appropriate to institute a Multiagency Coordination System. * Describe the benefits of using a Joint Information System (JIS) for public information. * Identify the ways in which NIMS affects preparedness. * Describe how NIMS affects how resources are managed. * Describe the advantages of common communication and information management systems. * Explain how NIMS influences technology and technology systems. * Describe the purpose of the NIMS Integration Center CEUs: 0.3
