FEMA's Hazard Mitigation Grant Program is a powerful resource in the combined effort by Federal, State, and local government, as well as private industry and homeowners, to end the cycle of repetitive disaster damage. The Robert T. Stafford Disaster Relief and Emergency Assistance Act was passed on November 23, 1988, amending Public Law 93-288, the Disaster Relief Act of 1974. The Stafford Act included Section 404, which established the Hazard Mitigation Grant Program. In 1993, the Hazard Mitigation and Relocation Act amended Section 404 to increase the amount of HMGP funds available and the cost-share to 75 percent Federal. This amendment also encouraged the use of property acquisition and other non-structural flood mitigation measures. In an effort to streamline HMGP delivery, FEMA encourages States to develop their mitigation programs before disaster strikes. States are adopting a more active HMGP management role. Increased capabilities may include: Conducting comprehensive all-hazard mitigation planning prior to disaster events; Providing applicants technical assistance on sound mitigation techniques and hazard mitigation policy and procedures; Coordinating mitigation programs through interagency teams or councils. Conducting benefit-cost analyses; and Preparing National Environmental Policy Act reviews for FEMA approval. States that integrate the HMGP with their frequently updated State Administrative and Hazard Mitigation Plans will create cohesive and effective approaches to loss reduction. This type of coordinated approach minimizes the distinction between "pre-disaster" and "post-disaster" time periods, and instead produces an ongoing mitigation effort.

Hazard mitigation is any sustained action taken to reduce or eliminate long-term risk to people and property from natural hazards and their effects. A key purpose of the HMGP is to ensure that the opportunity to take critical mitigation measures to protect life and property from future disasters is not lost during the recovery and reconstruction process following a disaster. Program grant funds available under Section 404 of the Stafford Act provide States with the incentive and capability to implement mitigation measures that previously may have been infeasible. The purpose of this Desk Reference is to: Provide comprehensive information about FEMA's Hazard Mitigation Grant Program (HMGP); Increase awareness of the HMGP as an integral part of statewide hazard mitigation efforts; and Encourage deeper commitments and increased responsibilities on the part of all States and communities to reduce damage and losses from natural disasters. This Desk Reference is organized to simplify program information and assist the reader with practical guidance for successful participation in the program. Lists of program-related acronyms and definitions are included, along with appendices that amplify selected aspects of the HMGP. This Desk Reference is organized into 14 sections, each of which presents a major HMGP subject area. In each section, information is presented on the right side of the page. In several sections, job aids containing supplemental material are provided. The job aids for each section can be found at the end of the section. At the front of each section, there is a detailed table of contents to help you locate specific information.

Introduction to Fire Protection and Emergency Services DIANE Publishing  
Hatchet meets The Babysitters Club in this epic and thrilling survival story about pushing oneself to the limit in the face of a crisis. We were all alone, in a shaken and shattered house, in the dark. And I was in charge. Hannah Steele loves living on Pelling, a tiny island near Seattle. She's always felt totally safe there. So when she's asked to babysit after school one day, it's no big deal. Zoe and Oscar are her next-door neighbors, and Hannah just took a babysitting class, which she's pretty sure makes her an expert. She isn't even worried that she left her inhaler at home. Then the shaking begins. The terrifying earthquake only lasts four minutes, but it changes everything—damaging the house, knocking out the power, and making cell service nonexistent. Even worse, the ferry and the bridge connecting the kids to help—and their parents—are both blocked, which means they're stranded alone. And Hannah's in charge as things go from bad to worse. Praise for The Disaster Days: "A realistic, engrossing survival story that's perfect for aspiring babysitters and

Guide for All-Hazard Emergency Operations Planning John Wiley & Sons

When our nation called, Tom Ridge answered. Appointed by the President to head up domestic security, Ridge established the Department of Homeland Security. In this probing

and surefooted memoir, Ridge takes us through the challenges he and his new department faced, including Anthrax scares and reports (both real and false alarms) of new Al-Qaeda operations sprouting up in the United States. A "law and order" Republican who was on the shortlist to be John McCain's running mate in 2008, Ridge writes with refreshing candor on both the successes and missteps of the DHS. He details the obstacles faced in his new post—often within the administration itself—as well as the failures of Congress to provide for critical homeland security needs, and the irresponsible use of terrorism by both parties to curry favors with voters. Ridge also reveals:

- How the DHS was pressured to connect homeland security to the international "war on terror"
- How Ridge effectively thwarted a plan to raise the national security alert just before the 2004 Election
- How Ridge had pushed for a plan (defeated because of turf wars) to integrate DHS and FEMA disaster management in New Orleans and other areas before Hurricane Katrina

Finally, Ridge offers a prescriptive look to the future, advocating ways that America may reaffirm its safety—including his provocative support for a national ID card program and for comprehensive immigration reform—without sacrificing personal liberty. Television captures every word and every expression. I was reasonable to think that our enemies would look for any sign of weakness in the person who in a few days would be responsible for protecting America against them. At that moment, I experienced a royal flush of emotion—after all, I was leaving the state I loved, a loyal staff, many friendships developed over a lifetime, the frustration of work unfinished, to head into the unknown and the undoable. In normal times, I might have shed a tear at such thoughts. But I was determined not to do so as I said my farewell. If I needed any reminding, I glanced down at the note I had written for counsel. "The bastards are watching." We can never guarantee we will be free from another attack. We must also understand that every day thousands and thousands of our fellow citizens work here and abroad to take us to a new level of readiness and security. For in the end, Americans do not live in fear. We live in freedom. And we will let no one take that freedom away. —Tom Ridge, from THE TEST OF OUR TIMES

Federal Register Kaplan Publishing

An Architectural Record Notable Book A fascinating, thought-provoking journey into our built environment Modern humans are an indoor species. We spend 90 percent of our time inside, shuttling between homes and offices, schools and stores, restaurants and gyms. And yet, in many ways, the indoor world remains unexplored territory. For all the time we spend inside buildings, we rarely stop to consider: How do these spaces affect our mental and physical well-being? Our thoughts, feelings, and behaviors? Our productivity, performance, and relationships? In this wide-ranging, character-driven book, science journalist Emily Anthes takes us on an adventure into the buildings in which we spend our days, exploring the profound, and sometimes unexpected, ways that they shape our lives. Drawing on cutting-edge research, she probes the pain-killing power of a well-placed window and examines how the right office layout can expand our social networks. She investigates how room temperature regulates our cognitive performance, how the microbes hiding in our homes influence our immune systems, and how cafeteria design affects what—and how much—we eat. Along the way, Anthes takes readers into an operating room designed to minimize medical errors, a school designed to boost students' physical fitness, and a prison designed to support inmates' psychological needs. And she previews the homes of the future, from the high-tech houses that could monitor our health to the 3D-printed structures that might allow us to live on the Moon. The Great Indoors provides a fresh perspective on our most familiar surroundings and a new understanding of the power of architecture and design. It's an argument for thoughtful interventions into the built environment and a story about how to build a better world—one room at a time.

#1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. "[Bryan Stevenson's] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country." —John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and

women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn't commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinksmanship—and transformed his understanding of mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book "Every bit as moving as To Kill a Mockingbird, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields." —David Cole, The New York Review of Books "Searing, moving . . . Bryan Stevenson may, indeed, be America's Mandela." —Nicholas Kristof, The New York Times "You don't have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. Just Mercy will make you upset and it will make you hopeful." —Ted Conover, The New York Times Book Review "Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he's also a gifted writer and storyteller." —The Washington Post "As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty." —The Financial Times "Brilliant." —The Philadelphia Inquirer
