Mustang GT/CS Recognition Guide & Owner's Manual Distal

The Mustang GT/CS Recognition Guide & Owner's Manual by Paul M. Newitt and licensed by Ford is a hardbound, full color 224 page detailed story of the limited-edition 1968 Ford Mustang--which was created just for California. The story of how the California-Crazy car culture in the 1960s prompted the marketing of Mustang's first factory-produced special edition is described in incredible detail - from the inspiration of Shelby's "Little Red" coupe to the development by Ford Design to become 4,118 GT/California Specials. The story continues with the marketing plan by J.Walter Thompson and California's Ford Dealer's Association to bring this Mustang to market in the spring of 1968. A detailed account of the GT/CS variant, the "High Country Special," sold in the Denver sales district is also included. Detailed production statistics, rare factory photos, authentication, options, accessories, specific part descriptions and comprehensive Concours restoration information are covered, along with the complete stories of the Shelby prototype coupes "Little Red," and the EXP-500 "Green Hornet." A separate chapter is devoted to the development, prototypes and production of the 2007-09 and 2011 GT/CS, and a complete GT/CS Owner Registry of 1,300 cars with photos rounds out the volume. Each book is beautifully bound, signed and numbered. A very special, limited edition for Mustang collectors!

The New York Times Index Paul M. Newitt Designs

Canada's automotive "Dr. Phil" says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian

dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that's still reeling from a series of natural disasters.

2021 Ford Bronco Owner Manual Compatible with OEM Owners Manual, Factory Glovebox Book Dundurn

A collection of company profiles that “succeeds in demonstrating how more sustainable business ventures can function in practice” (Publishers Weekly). As long as businesses are set up to focus exclusively on maximizing financial income for the few, our economy will be locked into endless growth and widening inequality. But now people are experimenting with new forms of ownership, which Marjorie Kelly calls generative: aimed at creating the conditions for life for many generations to come. These designs may hold the key to the deep transformation our civilization needs. To understand these emerging alternatives, Kelly reports from all over the world, visiting a community-owned wind facility in Massachusetts, a lobster cooperative in Maine, a multibillion-dollar employee-owned department-store chain in London, a foundation-owned pharmaceutical company in Denmark, a farmer-owned dairy in Wisconsin, and other places where a hopeful new economy is being built. Along the way, she finds the five essential patterns of ownership design that make these models work. “This magnificent book is a kind of recipe for how civilization might cope with its too-big-to-fail problem. It’s a hardheaded, clear-eyed, and therefore completely moving account of what a different world might look like—what it already does look like in enough places that you will emerge from its pages inspired to get involved.” —Bill McKibben, author of *Deep Economy*
