The Brown Center on Education Policy conducts research on topics in American education, with a special focus on efforts to improve academic achievement in elementary and secondary schools. The center seeks to inform policymakers at all levels of government, to influence the course of future educational research, and to produce a body of work valuable not only to policymakers and scholars, but also to parents, teachers, administrators, taxpayers, school board members, and the general public. The 2002 report address three concerns: whether arithmetic skills are declining; what U.S. students think of American high schools after attending school abroad; and how the nation's top high schools in football, basketball, and baseball perform on tests of reading and math.

The incredible memoir from the man voted one of the "Best Umpires of All Time" by the Society of American Baseball Research—filled with more than three decades of fascinating baseball stories. Doug Harvey was a California farm boy, a high school athlete who nevertheless knew that what he really wanted was to become an unsung hero—a major league umpire. Working his way through the minor leagues, earning three hundred

dollars a month, he survived just about everything, even riots in stadiums in Puerto Rico. And while players and other umps hit the bars at night, Harvey memorized the rule book. In 1962, he broke into the big leagues and was soon listening to rookie Pete Rose worrying that he would be cut by the Reds and laying down the law with managers such as Tommy Lasorda and Joe Torre. This colorful memoir takes you behind the plate for some of baseball's most memorable moments, including Roberto Clemente's three thousandth and final hit; the heroic three-and-two pinch-hit home run by Kirk Gibson in the '88 World Series; and the nail-biting excitement of the '68 World Series. But beyond the drama, Harvey turned umpiring into an art. He was a man so respected, whose calls were so feared and infallible, that the players called him "God." And through it all, he lived by three rules: never take anything from a player, never back down from a call, and never carry a grudge. A book for anyone who loves baseball, *They Called Me God* is a funny and fascinating tale of on- and off-the-field action, peopled by unforgettable characters from Bob Gibson to Nolan Ryan, and a treatise on good umpiring techniques. In a memoir that transcends the sport, Doug Harvey tells a gripping story of responsibility, fairness, and honesty.

Modern Curriculum for Gifted and Advanced Academic Students addresses the need for advanced curriculum design in an age of national standards and 21st-century learning innovations. The text and its authors work from the assumption that the most advanced learners need a qualitatively different design of learning experiences in order to develop their potential into outstanding achievement, answering the question, "How should we design learning experiences for our most advanced academic students in the foundational curriculum areas?" This book provides the most contemporary thinking about how to design in-depth courses of study in the foundational curriculum areas with a high degree of

---

complexity and advanced content. The book includes chapters articulating specific design components like creative thinking, critical thinking, and authentic research, but also subject-specific chapters in mathematics, language arts, science, and social studies to demonstrate application of those design components.
