it - American Honda Motor Company

Bought this for my GX390 13 hp Honda engine (pressure washer). After easy install started right up. Adjusted fuel/air mix. Reset idle. Now starts and runs like when new. Usually one pull does it. Highly recommend and would buy again. Would recommend checking spark and compression (90-100psi) to eliminate any other hard start/run issue.

Honda's GC and GS engines use the world's first small engine internal timing belt, designed to last the lifetime of the engine. Small engine timing belts are usually external and are subject to wear caused by dirt. Honda's internal timing belt runs in oil, eliminating the need for conventional drive gears. This design:
