Honda ' s GC and GS engines use the world ' s first small engine internal timing belt, designed to last the lifetime of the engine. Honda small engine no start quick fix

Bought this for my GX390 13 hp Honda engine (pressure

washer). After easy install started right up. Adjusted
fuel/air mix. Reset idle. Now starts and runs like when
new. Usually one pull does it. Highly recommend and
would buy again. Would recommend checking spark and
compression (90-100psi) to eliminate any other hard
start/run issue.

Yes, this may fit a Honda GX-390 engine, but it doesn't run
correctly and you'll go nuts trying to adjust it. I bought this
carb and another cheapie and couldn't get either to work on my
Honda engine. Then I bought a genuine Honda OEM carb for
about \$40 and it made the motor run like new without ANY
adjustment!
