Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks

to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the

Late 14th Century England was a
time of transition - a time of
calamity - a time when the clergy
abused their positions of power
and authority - and, a time for love.
Cressedye Folkestone, a
"hedgeborn" plowmaid, exchanges
one look with Squire Talbot,

recently returned with his father from the king's wars, and their poignant saga begins. Fate transports Cresseyde from her humble village to the opulent homes of the new merchant princes of London. Cresseyde, with good courage, enters into a timeless search to find her own true heart in spite of those who would impede her journey.

Transportation Energy Data Book

A groundbreaking, explosive account of the Kennedy assassination that will rewrite the history of the 20th century's most controversial murder investigation The

questions have haunted our nation for half a century: Was the President killed by a single gunman? Was Lee Harvey Oswald part of a conspiracy? Did the Warren Commission discover the whole truth of what happened on November 22, 1963? Philip Shenon, a veteran investigative journalist who spent most of his career at The New York Times, finally provides many of the answers. Though A Cruel and Shocking Act began as Shenon's attempt to write the first insider's history of the Warren Commission, it

quickly became something much larger and more important when he discovered startling information that was withheld from the Warren Commission by the CIA, FBI and others in power in Washington. Shenon shows how the commission's ten-month investigation was doomed to fail because the man leading it — Chief Justice Earl Warren — was more committed to protecting the Kennedy family than getting to the full truth about what happened on that tragic day. A taut, page-turning narrative,

Shenon's book features some of the most compelling figures of the twentieth century—Bobby Kennedy, Jackie Kennedy, Lyndon Johnson, J. Edgar Hoover, Chief Justice Warren, CIA spymasters Allen Dulles and Richard Helms, as well as the CIA's treacherous "molehunter," James Jesus Angleton. Based on hundreds of interviews and unprecedented access to the surviving commission staffers and many other key players, Philip Shenon's authoritative, scrupulously researched book

will forever change the way we think about the Kennedy assassination and about the deeply flawed investigation that followed. A Washington Post Notable Nonfiction Book of 2013
