Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. AN INSTANT NEW YORK TIMES BESTSELLER An edge-of-your-seat thriller about a group of retired Green Berets who come together to save a former comrade—and 500 other Afghans—being targeted by the Taliban in the chaos of America's withdrawal from Afghanistan. In April, an urgent call was placed from a Special Forces operator serving overseas. The message: Get Nezam out of Afghanistan now. Nezam was part of the Afghan National Army's first group of American-trained commandos. He passed through Fort Bragg's legendary Q course and served alongside the US Special Forces for over a decade. But Afghanistan's government and army are collapsing, and Nezam is getting threatening texts from the Taliban. The message reached Nezam's former commanding officer, retired Lt. Col. Scott Mann, who can't face the idea of losing another soldier in the long War on Terror. He sends out an SOS to a group of Afghan vets (Navy SEALs, Green Berets, CIA officers, USAID advisors). They all answer the call for one last mission. Operating out of basements and garages, Task Force Pineapple organizes an escape route for Nezam and gets him into hiding in Taliban-controlled Kabul. After many tense days, he braves the enemy checkpoints and the crowds of thousands blocking the airport gates. He finally makes it through the wire and into the American-held airport thanks to the frantic efforts of the Pineapple express, a relentless Congressional aide, and a US embassy official. Nezam is safe, but calls are coming in from all directions requesting help for other Afghan soldiers, interpreters, and at-risk women and children. Task Force Pineapple begins all over again—and ends up rescuing 500 more Afghans from Kabul in the three chaotic days before the ISIS-K suicide bombing. Operation Pineapple Express is a thrilling, suspenseful tale of service and loyalty amidst the chaos of the US withdrawal from Afghanistan.

This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

The legendary story of Harley-Davidson's rise to power--not only as an international industry leader but as an American cultural icon. How did the Harley-Davidson motorcycle, originally a machine for casual riders, evolve into a symbol of defiance and liberation? An embellished 1947 Life magazine article about a California town terrorized by gangs of motorcycle punks changed the world's perception of motorcycles from sporty machines to menaces-to-society, and as the loudest and heaviest bikes on the market, Harley-Davidsons were considered the baddest of them all. *Outlaw Machine* chronicles the fascinating social history that built Harley-Davidson's reputation--including the rise of Hell's Angels and the counterculture classic *Easy Rider*--and, more entrancing still, the bike's and its company's storybook rise to international fame and popularity. Written by renowned automotive journalist Brock Yates, *Outlaw Machine* is the definitive book on the Harley-Davidson and its place in American culture.

What does it mean to bring Asia into conversation with current literature on everyday multiculturalism? This book focuses on the empirical, theoretical and methodological considerations of using an everyday multiculturalism approach to explore the ordinary ways people live together in difference in the Asian region while also drawing attention to increasing trans-Asian mobilities. The chapters in this collection encompass inter-disciplinary research undertaken in Australia, Hong Kong, Malaysia, Singapore and South Korea that explores some core aspects of everyday multiculturalism as it plays out in and across Asia. These include an increase in intraregional movements and especially labour mobility, which demands regard for the experiences of migrants from Burma, China, Nepal, The Philippines and India; negotiations of cultural diversity in nations where a multi-ethnic citizenry is formally recognised through predominantly pluralist models, and/or where national belonging is highly racialized; and intercultural contestation against, in some cases, the backdrop of a newly emergent multicultural policy environment. The book challenges and reinvigorates discussions around the relative transferability of an everyday multiculturalism framework to Asia, including concepts such as super-diversity, conviviality and everyday racism, and the importance of close attention to how people navigate differences and commonalities in local and trans-local contexts. This book will be of interest to academics and researchers studying migration, multiculturalism, ethnic and racial studies, and to advanced students of Sociology, Political Science and Public Policy. It was originally published as a special issue of Ethnic and Racial Studies.
