Education Assoc.  
This book is designed to help you master the AP Calculus AB and BC exam. It contains 45 topic-specific lessons with key summaries. Each lesson contains about 5 to 10 practice problems, which are the most up-to-date types of AP Exam test problems. This book is divided into two parts. The first part consists of lesson 1 through lesson 28 for which are the common topics for AP Calculus AB and BC: limits and continuity, differentiation, applications of derivatives, the definite integral, integration techniques, area between two curves, volume of a solid by revolution, and differential equations. The second part consists of

lesson 29 through lesson 45 for which are the topics for AP Calculus BC only: logarithmic differentiation, L'Hospital's rule, derivatives of parametric and polar equations, volume by cylindrical shells method, integration by parts and partial fractions, improper integral, differential equations including Euler's method and logistic growth model, and sequences and series.

Book, a Full-Length Exam Online. Are you ready for your exam? Try our focused practice set inside the book. Then take our full-length online practice exam (one each for Calculus AB & BC) to ensure you're ready for test day. If you're cramming for the exam or looking for a concise course review, Crash Course is the study guide every AP® student needs. About Our Authors Joan Marie Rosebush teaches calculus courses at the University of Vermont. Ms. Rosebush has taught mathematics to elementary, middle school, high school, and college students. She taught AP®

Calculus via satellite television to high school students scattered throughout Vermont. Ms. Rosebush earned her B.A. degree in elementary education, with a concentration in mathematics, at the University of New York in Cortland, N.Y. She received her Master's Degree in education from Saint Michael's College, Colchester, Vermont. Flavia Banu graduated from Queens College of the City University of New York with a B.A. in Pure Mathematics and an M.A. in Pure Mathematics in 1997. Ms. Banu was an adjunct professor at Queens College where she taught Algebra and Calculus II.

---

Currently, she teaches mathematics at Bayside High School in Bayside, New York, and coaches the math team for the school. Her favorite course to teach is AP Calculus because it requires "the most discipline, rigor and creativity." About Our Revisions Editor Stu Schwartz has been teaching mathematics since 1973. For 35 years he taught in the Wissahickon School District, in Ambler, Pennsylvania, specializing in AP Calculus AB and BC and AP Statistics. Mr. Schwartz received his B.S. degree in Mathematics from Temple University, Philadelphia. Mr. Schwartz was a 2002 recipient of the Presidential Award for Excellence in Mathematics Teaching and also won the 2007 Outstanding Educator of the Year Award for the Wissahickon School District. Mr. Schwartz's resource-rich website, [www.massmathmentor.com](http://www.massmathmentor.com), is geared toward helping educators teach AP® Calculus, AP® Statistics, and other math courses. Mr. Schwartz is always looking for ways to provide teachers with new and innovative teaching materials, believing that it should be the goal of every math teacher not only to teach students mathematics, but also to find joy and beauty in math as well.
