This book covers a very
broad range of topics in
marketing,

communication, and tourism, focusing especially on new perspectives and technologies that promise to influence the future direction of marketing research and practice in a digital and innovational era. Among the areas covered are product and brand management, strategic marketing, B2B marketing and sales management, international marketing, business communication and advertising, digital and

social marketing, tourism and hospitality marketing and management, destination branding and cultural management, and event marketing. The book comprises the proceedings of the International Conference on Strategic Innovative Marketing and Tourism (ICSIMAT) 2018, where researchers, academics, and government and industry practitioners from around the world came together to discuss best practices, the latest

research, new paradigms, and advances in theory. It will be of interest to a wide audience, including members of the academic community, MSc and PhD students, and marketing and tourism professionals. Science Reporter Kogan Page Publishers (Black & White version) Fundamentals of Business was created for Virginia Tech's MGT 1104 Foundations of Business through a collaboration between the Pamplin College of Business and Virginia Tech Libraries.

Few decisions are harder to

make for a parent than finding a suitable school for their child. The Independent Schools Guide, now in its twelfth edition, provides the detailed information parents need to make a fully informed choice. It includes extensive indices for over 2,000 schools, classified by county, religious affiliation, sex, provision for dyslexia plus details of specialist schools. There is also useful advice on school fee planning, plus details of scholarships, bursaries and other awards. This up-to-date guide provides thorough information on the levels of awards including

GCSEs, A Levels, Scottish examinations, GNVQs and the International Baccalaureate. There is also guidance for overseas parents, including advice on language support and guardianship for children attending boarding school in the United Kingdom. Complete with a parent's guide to the sixth form and beyond, covering university entry and careers, and a directory of useful addresses and associations, this is invaluable reading for any parent seeking educational advice.

The genre of adventure games is frequently overlooked. Lacking the constantly-evolving graphics and graphic violence of their counterparts in first-person and third-person shooters or role-playing games, they are often marketed to and beloved by players outside of mainstream game communities. While often forgotten by both the

industry and academia, adventure games have had (and continue to have) a surprisingly wide influence on contemporary games, in categories including walking simulators, hidden object games, visual novels, and bestselling titles from companies like Telltale and Campo Santo. In this examination of heirs to the genre's legacy, the authors examine the genre from multiple perspectives, connecting technical analysis with critical commentary and social context. This will be the first book to consider this important genre from a

comprehensive and transdisciplinary perspective. Drawing upon methods from platform studies, software studies, media studies, and literary studies, they reveal the genre's ludic and narrative origins and patterns, where character (and the player's embodiment of a character) is essential to the experience of play and the choices within a game. A deep structural analysis of adventure games also uncovers an unsteady balance between sometimes contradictory elements of story, exploration, and puzzles: with different

games and creators employing a multitude of different solutions to resolving this tension. Adventure Games Rama Publishers

How do Canadian provincial
and territorial governments
intervene in the cultural
and artistic lives of their
citizens? What changes and

influences shaped the origin
of these policies and their
implementation? On what
foundations were policies
based, and on what
foundations are they based
today? How have
governments defined the
concepts of culture and of
cultural policy over time?
What are the objectives and
outcomes of their policies,
and what instruments do
they use to pursue them?
Answers to these questions
are multiple and complex,
partly as a result of the
unique historical context of
each province and territory,
and partly because of the
various objectives of

successive governments, and the values and identities of their citizens. Cultural Policy: Origins, Evolution, and Implementation in Canada ' s Provinces and Territories offers a comprehensive history of subnational cultural policies, including the institutionalization and instrumentalization of culture by provincial and territorial governments; government cultural objectives and outcomes; the role of departments, Crown corporations, other government organizations, and major public institutions in the cultural domain; and

the development, dissemination, and impact of subnational cultural policy interventions. Published in English. Tourism has become a major international industry, with many countries all over the world relying on the income it produces. Because it is a major source of finances and employment, government and other institutions activitely

promote tourism, regardless of the impact on the environment, ecology and social structure of the region. The demands of tourism can contribute to the destruction of the natural and cultural environment upon which it depends. The natural and cultural landscape's capacity to accommodate the local and worldwide effects of tourism, the typology thereof and its implications for the economy and society constitute very important study objectives. The development of tourism can result in the degradation of

natural landscapes that paradoxically attract tourists to such areas. Featured topics include: Tourism Strategies; Tourism as a Tool of Development; Tourism Impact; Tourism and Protected Areas; Rural Tourism; Community Involvement; IT and Tourism; Climate Change and Tourism; Environmental Issues; Art, Architecture and Culture; Modelling; Emergent Strategies for Tourism Development; Landscape and Tourism; Tourism and Urban Planning.
