Containing walks and detailed maps from throughout the city, Secret Stairs highlights the charms and quirks of a unique feature of the Los Angeles landscape, and chronicles the geographical, architectural, and historical aspects of the city's staircases, as well as of the neighborhoods in which the steps are located. From strolling through the

classic La Loma neighborhood in Pasadena glory till 1996; the Evo Sportster, offered to walking the Sunset Junction Loop in Silver Lake, to taking the Beachwood Canyon hike through "Hollywoodland" to enjoying the magnificent ocean views from the Castellammare district in Pacific Palisades, Secret Stairs takes you on a tour of the staircases all across the City of Angels. The circular walks, rated for duration and difficulty, deliver tales of historic homes and their fascinating inhabitants, bits of unusual local trivia, and stories of the neighborhoods surrounding the stairs. That's where William Faulkner was living when he wrote the screenplay for To Have and Have Not; that house was designed by Neutra; over there is a Schindler; that's where Woody Guthrie lived, where Anais Nin died, and where Thelma Todd was murdered . . . Despite the fact that one of these staircases starred in an Oscar-winning short film—Laurel and Hardy's The Music Box, from 1932—these civic treasures have been virtually unknown to most of the city's residents and visitors. Now, Secret Stairs puts these hidden stairways back on the map, while introducing urban hikers to exciting new "trails" all around the city of Los Angeles.

The Voluntarists are Libertarians who have organized to promote non-political strategies to achieve a free society. We reject electoral politics, in theory and in practice as incompatible with libertarian goals.

Governments must cloak their actions in an aura of moral legitimacy in order to sustain their power, and political methods invariably strengthen that legitimacy. Voluntarists seek instead to delegitimize the state through education, and we advocate withdrawal of the cooperation and tacit consent on which state power ultimately depends.

Tucked away in the northwestern frontier, Portland offered all the best vices: opium dreams, gambling, cheap prostitutes, and drunken brawling. In its early days, Portland was a combination rough-and-ready logging camp and gritty, hard-punching deep-water port town," and as a young city (established in the late 1840s) it developed an international reputation for lawlessness and violence. In the early 1900s, the British and French governments filed formal complaints about Portland to the US state department, and Congressional testimony from the time cites Portland as the worst place in the world for crimping. Today, tours of the alleged Shanghai Tunnels offer Portland visitors a taste of that seedy past."

Protecting the Privacy of Customers of Broadband and Other Telecommunications Services (US Federal Communications Commission Regulation) (FCC) (2018 Edition) The Law Library presents the complete text of the *Protecting the Privacy of Customers of Broadband and Other Telecommunications Services (US Federal Communications Commission Regulation) (FCC) (2018 Edition)*. Updated as of May 29, 2018 In this document, the Federal Communications Commission (Commission) adopts final rules based on public comments applying the privacy requirements of the Communications Act of 1934, as amended, to broadband Internet access service (BIAS) and other telecommunications services. In adopting these rules the Commission implements the statutory requirement that telecommunications carriers protect the confidentiality of customer proprietary information. The privacy framework in

these rules focuses on transparency, choice, and data security, and provides heightened protection for sensitive customer information, consistent with customer expectations. The rules require carriers to provide privacy notices that clearly and accurately inform customers; obtain opt-in or opt-out customer approval to use and share sensitive or non-sensitive customer proprietary information, respectively; take reasonable measures to secure customer proprietary information; provide notification to customers, the Commission, and law enforcement in the event of data breaches that could result in harm; not condition provision of service on the surrender of privacy rights; and provide heightened notice and obtain affirmative consent when offering financial incentives in exchange for the right to use a customer's confidential information. The Commission also revises its current telecommunications privacy rules to harmonize today's privacy rules for all telecommunications carriers, and provides a tailored exemption from these rules for enterprise customers of telecommunications services other than BIAS. This book contains: - The complete text of the *Protecting the Privacy of Customers of Broadband and Other Telecommunications Services (US Federal Communications Commission Regulation) (FCC) (2018 Edition)* - A table of contents with the page number of each section

Secret Walks: A Walking Guide to the Hidden Trails of Los Angeles is a sequel to the popular Secret Stairs: A Walking Guide to the Historic Staircases of Los Angeles, and features another collection of exciting urban walks through parks, canyons, and neighborhoods unknown

and unseen by most Angelinos. Each walk is rated for duration, distance, and difficulty, and is accompanied by a map.

The walks, like those in Secret Stairs, are filled with fascinating factoids about historical landmarks—the original Bat Cave from Batman, the lake where Opie learned to fish on The Andy Griffith Show, or the storage barn for one of L.A.'s oldest wineries. The book also highlights the people who made the landmarks famous: the infamous water engineer William Mulholland; the convicted murderer and philanthropist Colonel Griffith J. Griffith; Charles Lummis, who walked from Cincinnati to Los Angeles to take a job on the L.A. Times; and tobacco millionaire Abbot Kinney, who dug canals to drain the marshes south of Santa Monica and create his American "Venice." Written in the entertainingly informed style that has made Secret Stairs a Los Angeles Times best-seller, Secret Walks is the perfect book for the walker eager to explore but tired of the crowds at Runyon Canyon or Temescal Park.
