This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more.  
Table of Contents Introduction Section One: Windows Configuration Chapter 1: AlwaysInstallElevated Section Two: Domain Controller Chapter 2: ZeroLogon Section Three: Windows Service Chapter 3: Service - Insecure File Permission Chapter 4: Service - Unquoted Path Chapter 5: Service - Bin Path Chapter 6: Service - Registry Chapter 7: Service - DLL Hijacking Section Four: Scheduled Tasks Chapter 8: Scheduled Tasks Section Five: Windows Registry Chapter 9: Autorun Chapter 10: Startup Applications Section Six: Windows Kernel Chapter 11: Kernel - EternalBlue Chapter 12: Kernel - MS15-051 Chapter 13: Kernel - MS14-058 Section Seven: Potato Exploits Chapter 14: Juicy Potato Chapter 15: Rogue Potato Section Eight: Password Mining Chapter 16: Password Mining - Memory Chapter 17: Password Mining - Registry Chapter 18: Password Mining - SiteList Chapter 19: Password Mining - Unattended Chapter 20: Password Mining - Web.config Section Nine: UAC Bypass Chapter 21: User Account Control Bypass For more information, please visit <http://www.howtopassoscp.com/>.

Aluminium is an engineering material of strategic importance in the current stage of Industry 4.0. This book discusses advanced composites based on aluminium alloys. It also describes pressure infiltration of gas with liquid aluminium, the mechanical synthesis of aluminium alloy powder and halloysite nanotubes (HNTs) or multi-wall carbon nanotubes (MWCNTs) consolidated by plastic deformation, selected optimization and prediction models, casting aluminium alloys containing zirconium, aluminium alloys subjected to high-speed extrusion of shapes, corrosion resistance of alloys containing lithium, machining conditions of alloys with copper and zinc additions, and more.  
*DIY Skoolie Guide* Alfred Music Publishing  
Do you have what it takes to convert your own bus into the living space of your dreams?If so, this book is written for you-

the ambitious DIY dreamer. Jeff and Missy Miller have converted numerous buses into motorhomes, tiny homes, mobile stores, and food trucks from the ground up with their Skoolie Homes team. In this comprehensive DIY skoolie guide, they share all of their proven strategies and experiences with you so that you don't have to waste your time and money figuring it out alone. You will learn how to:

- \* Purchase your bus with confidence
- \* Design the right floor plan for your unique lifestyle
- \* Gut your bus and create your foundation
- \* Build the interior from the ground up
- \* Maximize your living and storage spaces
- \* Install your own plumbing and electrical systems
- \* Prep, prime and paint the exterior
- \* Save money on your conversion without cutting corners

Get your skoolie dream on the reality road. This DIY Skoolie Guide is your comprehensive road map—giving you a clear plan on how to convert your bus from start to finish. From basic planning to completion, this book walks you through each step of the conversion process so that you can create your dream and get it on the road.

#### **Living the RV Life** Simon and Schuster

Doc Paskowitz started surfing in the Gulf of Mexico on Galveston Island in 1930. He's 93, and he's still surfing (now riding in heaven). While he would never agree, Doc can be considered one of the earliest pioneers of the shape of today's surf culture. He spent nearly 25 years on the road, living in a succession of used campers. It is, quite possibly, the world's longest surf trip. He and his wife raised nine children in those campers, soaking them in the ocean and their idea of how life should be lived. Take a trip with Doc Paskowitz and his family. This easy read is honest and can help you understand his passion for Surfing and Health,

Professional technicians have relied on the

Chilton Labor Guide estimated repair times for decades. This latest edition expands on that reliability by including technical hotline feedback and research from professional labor experts. The labor times reflect actual vehicle conditions found in the aftermarket, including rust, wear and grime. Available in both hardcover and CD-ROM, this completely revised manual provides thousands of labor times for 1981 through current year domestic and imported vehicles. All times reflect technicians' use of aftermarket tools and training.

#### *Motor Auto Repair Manual*

This exceptional book includes nearly 400 full-color photographs and updates over 2,000 current values, making this edition totally in sync with the ever-changing market. The authors have put a special emphasis on radios from the 50s and 60s.

The F53 Motorhome Manual 2000: V10 Gas is a handy reference tool. The manual included by your motorhome/RV manufacturer does not include the F53 Ford Chassis reference manual. The obvious use for such a guide would be to

obtain the part number for a relay that might power windshield wipers or turn signals. Ford suggests you read the guide from front to back. This may sound like a geeky thing to do, but having read this guide, I can assure you the small expenditure of time is well worth the knowledge you will gain over such a large investment. I was, for example, surprised to find out that the Ford F53 V10 will run in a "Fail Safe" mode when overheated. Half the cylinders will not fire but rather circulate air over the remaining cylinders to keep them cool!

#### **Advanced Aluminium Composites and Alloys**

"Follow the simple steps to learn how to draw lots of charming characters and cool vehicles. ... Inside this book there are: creepy crawlies, wild animals, farmyard friends, cuddly creatures, sea life, things that go"--Page [1].

#### Development and Implementation of Ship BWMS

Whether you're downsizing or thrill-seeking—or anything in between—find out if the RV lifestyle is right for you, and learn how to transition from a life of traditional home-ownership to one on the road. Do you love traveling? Meeting new people and seeing new places? Are you craving a life that feels meaningful and new? The RV lifestyle could be the answer. Both aspirational and practical, *Living the RV Life* is your ultimate guide to living life on the road—for people of all ages looking to downsize, travel, or work on the go. Learn if life in a motor home is right for you, with insightful details on the experiences of full-time RV-ers, tips for how to choose an RV (how big? new or used?), whether to sell your home (and if not, what to do with it), model costs, sample routes and destinations, basic vehicle maintenance, legal and government considerations—and much more! Written in a light and an easy-to-understand style, *Living the RV Life* is your bible to living a mobile life.
