CELEBRATING THE MAHATMA'S RELEVANCE TODAY

Contributors include: Ela Gandhi • Tushar Gandhi

• RA Mashelkar • Anil Kakodkar • Brenda Gourley • Radhakrishnan Pillai • Kumar Ketkar • Rohini Hattangadi • Rajkumar Hirani • Bharat Dabholkar A collection of exceptional think pieces by some of the brilliant minds of our time Compiled and edited by noted scholar Rajan Welukar, Gandhi@150 explores the relevance of Mahatma Gandhi ' s ideas in today ' s world and the impact of his philosophy across a wide spectrum of areas such as religion, economics, science, education, the arts and health and development. In this book, the contributors explain how certain Gandhian concepts can be used for our nation ' s advancement. For example, ' Gandhian Engineering ' can help boost India ' s

progress with its focus on getting more from fewer resources for more people. In addition, the gram swaraj approach alone can stop the mass exodus of youth from villages to cities in search of jobs—a major worry for urban planners and village economies today. These are just a few of the many applicable solutions based on Gandhi ' s ideas you will come across in these pages. To celebrate Gandhi ' s 150th birth anniversary, experts from various fields, such as Anil Kakodkar, RA Mashelkar, Douglas Roche, Ela Gandhi, Tushar Gandhi, Justice RC Chavan, Rajkumar Hirani and Daniel C Taylor among others, have contributed to this remarkable anthology. This book will help you understand why Gandhi ' s views are relevant now more

than ever. RAJAN WELUKAR, an eminent academician, is the former vice-chancellor of the University of Mumbai, Yashwantrao Chavan Maharashtra Open University and GH Rasoni University. He lives in Mumbai.

This book is designed to acquaint the readers with major aspects of e-commerce with particular emphasis on technology such as

cryptography, e-payment and mobile payment security. The book presents a layered architecture of e-commerce systems with six layers. The physical layer (the bottommost layer) described first, provides the basic communication infrastructure needed by e-commerce. The next layer described is the logical layer consisting of Local Area Networks, the Internet, Intranet, etc. which provide connectivity. The layer above is the network services layer which provides e-mail and World Wide Web applications. Above this is a very important messaging layer of e-commerce which provides facilities for exchanging messages securely using the communication infrastructure. Here various methods of encryption, public key infrastructure and digital signature are discussed. It is also explained as to how the messaging layer is used to exchange structured electronic documents, using XML. The next layer called middleman services layer, describes the design of home page of an organization and elaborates various payment services such as credit card, e cash, smart card, etc. The topmost layer is on applications, namely, B2C, B2B and C2C e-commerce which are defined and described at the beginning of the book. As use of mobile phones and mobile network is rapidly increasing, a whole chapter is devoted to explain m-commerce. Of special interest are detailed discussions of Wireless Application Protocol, security issues and payment methods. A complete chapter is also devoted to new developments in multimedia information goods such as e-books, MP3 compressed audio and digital quality video. A unique feature of these goods is the method of delivery which also uses the mobile Internet infrastructure. Finally, the legal framework of e-commerce provided by the Information Technology Act 2000 (and the amended act of 2008) is explained. This book with its numerous student-friendly features is an ideal text for undergraduate and postgraduate students of Computer Science
