Politics Is for Power Simon and Schuster

Convinced that the expensive, vulgar presidential campaign is worse than it has ever been, Americans long for the good old days of dignified campaigns and worthy candidates which, as this book demonstrates, never existed. Troy shows that our disappointment with campaigns is simply the latest chapter in a centuries-long struggle to make peace with the idea of leadership in a democratic society.

Federal Election Campaign Laws Penguin UK

During the 2016 presidential election, America's election infrastructure was targeted by actors sponsored by the Russian government. *Securing the Vote: Protecting American Democracy* examines the challenges arising out of the 2016 federal election, assesses current technology and standards for voting, and recommends steps that the federal government, state and local governments, election administrators, and vendors of voting technology should take to improve the security of election infrastructure. In doing so, the report provides a vision of voting that is more secure, accessible, reliable, and verifiable.

1912 Harper Collins

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Election Campaigns and Welfare State Change Scribner

Behind the deeply contentious 2020 election stands a real story of a broken election process. Election fraud that alters election outcomes and dilutes legitimate votes occurs all too often, as is the bungling of election bureaucrats. Our election process is full of vulnerabilities that can be – and are – taken advantage of, raising questions about, and damaging public confidence in, the legitimacy of the outcome of elections. This book explores the reality of the fraud and bureaucratic errors and mistakes that

should concern all Americans and offers recommendations and solutions to fix those problems.

How America ' s Political Parties Change (and How They Don ' t) Oxford University Press

Tells the story of the 2016 U.S. presidential campaign between Donald Trump and Hillary Clinton in photos and essays by CNN contributors.

Election Meltdown Farrar, Straus and Giroux

"The 2000 presidential election, with its problems in Florida, was not the first major vote-counting controversy in the nation's history--nor the last. *Ballot Battles* traces the evolution of America's experience with these disputes, from 1776 to now, explaining why they have proved persistently troublesome and offering an institutional solution"--

Campaign Guide for Congressional Candidates and Committees Simon & Schuster

The election of 2016 prompted journalists and political scientists to write obituaries for the Republican Party—or prophecies of a new dominance. But it was all rather familiar. Whenever one of our two great parties has a setback, we ' ve heard: “ This is the end of the Democratic Party, ” or, “ The Republican Party is going out of existence. ” Yet both survive, and thrive. We have the oldest and third oldest political parties in the world—the Democratic Party founded in 1832 to reelect Andrew Jackson, the Republican Party founded in 1854 to oppose slavery in the territories. They are older than almost every American business, most American colleges, and many American churches. Both have seemed to face extinction in the past, and have rebounded to be competitive again. How have they managed it? Michael Barone, longtime co-author of *The Almanac of American Politics*, brings a deep understanding of our electoral history to the question and finds a compelling answer. He illuminates how both parties have adapted, swiftly or haltingly, to shifting opinion and emerging issues, to economic change and cultural currents, to demographic flux. At the same time, each has maintained a constant character. The Republican Party appeals to “ typical Americans ” as understood at a given time, and the Democratic Party represents a coalition of “ out-groups. ” They are the yin and yang of American political life, together providing vehicles for expressing most citizens ' views in a nation that has always been culturally, religiously, economically, and ethnically diverse. The election that put Donald Trump in the White House may have appeared to signal a dramatic realignment, but in fact it involved less change in political allegiances than many before, and it does not portend doom for either party. *How America ' s Political Parties Change (and How They Don ' t)* astutely explains why these two oft-scorned institutions have been so resilient.

The Northwestern Reporter Chicago Review Press

The gripping inside story of the 2008 presidential election, by two of the best political reporters in the country. “ It ' s one of the best books on politics of any kind I ' ve read. For entertainment value, I put it up there with *Catch 22*. ” —The Financial Times “ It transports you to a parallel universe in which everything in the *National Enquirer* is true....More interesting is what we learn about the candidates themselves: their frailties, egos and almost super-human stamina. ” —The Financial Times “ I can ' t put down this book! ” —Stephen Colbert *Game Change* is the New York Times bestselling story of the 2008 presidential election, by John Heilemann and Mark Halperin, two of the best political reporters in the country. In the spirit of Richard Ben Cramer ' s *What It Takes* and Theodore H. White ' s *The Making of the President 1960*, this

classic campaign trail book tells the defining story of a new era in American politics, going deeper behind the scenes of the Obama/Biden and McCain/Palin campaigns than any other account of the historic 2008 election.

Game Change HarperCollins

A journalist and feminist explores the ways the 2008 election brought issues concerning women and power, sexism and feminism into the national spotlight, and what it means for the country, all the while weaving in her first-person experience navigating this turbulent time.

America 1844 National Academies Press

With a new prologue ‘ Splendid . . . anyone who wants to understand Indian politics or think they do should read it ’ -Indian Express ‘ Delightfully written . . . he has a sharp eye for details, especially the actions of political leaders ’ - India Today ‘ Captures the drama of 2014 and the men who powered it ’ -Open ‘ Holds you to your seat, often on the edge . . . A procession of India ’ s colourful political characters—Lalu Yadav, Amit Shah, Rahul Gandhi, Narendra Modi and many more come intimately close through the author ’ s accounts ’ -The Hindu ‘ Candid and forthright . . . and deliciously indiscreet ’ -Hindustan Times ‘ A racy narrative that goes beyond recording immediate political history ’ -Tehelka The 2014 Indian general elections has been regarded as the most important elections in Indian history since 1977. It saw the decimation of the ruling Congress party, a spectacular victory for the BJP and a new style of campaigning that broke every rule in the political game. But how and why? In his riveting book, Rajdeep Sardesai tracks the story of this pivotal election through all the key players and the big news stories. Beginning with 2012, when Narendra Modi won the state elections in Gujarat for a third time but set his sights on a bigger prize, to the scandals that crippled Manmohan Singh and UPA-II, and moving to the back-room strategies of Team Modi, the extraordinary missteps of Rahul Gandhi and the political dramas of election year, he draws a panoramic picture of the year that changed India.

Shaking Things Up: 14 Young Women Who Changed the World American Bar Association

With electoral votes disputed in three states, a Democrat winning the popular vote, and the Supreme Court stepping in to overrule Florida court decisions, the presidential election of 1876 was an eerie precursor to that of 2000. Rutherford Hayes's defeat of Samuel Tilden has been dubbed the "fraud of the century"; now one of America's preeminent political historians digs deeper to unravel its real significance. This election saw the highest voter turnout of any in U.S. history—a whopping 82 percent—and also the narrowest margin of victory, as a single electoral vote decided the outcome. Michael Holt offers a fresh interpretation of this disputed election, not merely to rehash claims of fraud but to explain why it was so close. Examining the post-Civil War political environment, he particularly focuses on its most curious feature: that Republicans were the only party in history to retain the presidency in the middle of a severe depression after decisively losing the preceding off-year congressional elections. Holt begins with the election of 1872 to demonstrate how competition for Liberal Republicans shaped the campaign strategies of both parties. He stresses the critical but little-noted importance of Colorado statehood in August—which changed the size of the electoral-vote majority needed to win—and provides a new answer to the vexing question of why a Democratic-controlled Congress had admitted Colorado in time to participate in the presidential election, when without its votes Tilden would have won. And he argues that the high voter turnout was attributable both to Republicans exploiting fears of ex-Confederates recapturing control of the government and to long-apathetic southern Democrats reacting to war memories and Reconstruction realities. By One Vote shows how this election triggered a Republican revival and established the GOP as the Democrats' major competitor. Holt's compelling analysis of the dispute over electoral votes also explains why charges of Republican fraud are questionable—and how Democrats were just as guilty of corruption. A masterly retelling of this controversial episode, Holt's study captures the mood of the country and testifies to the power that hatreds and fears aroused by the Civil War still exercised over the American people.

Electoral College Reform HarperCollins

FROM THE AUTHOR OF THE #1 NATIONAL BESTSELLER JUSTICE ON TRIAL Stunned by the turbulence of the 2020 election, millions of Americans are asking the forbidden question: what really happened? It was a devastating triple punch. Capping their four-year campaign to destroy the Trump presidency, the media portrayed a Democratic victory as necessary and inevitable. Big Tech, wielding unprecedented powers, vaporized dissent and erased damning reports about the Biden family's corruption. And Democratic operatives, exploiting a public health crisis, shamelessly manipulated the voting process itself. Silenced and subjected, the American people lost their faith in the system. RIGGED is the definitive account of the 2020 election. Based on Mollie Hemingway's exclusive interviews with campaign officials, reporters, Supreme Court justices, and President Trump himself, it exposes the fraud and cynicism behind the Democrats' historic power-grab. Rewriting history is a specialty of the radical left, now in control of America's political and cultural heights. But they will have to contend with the determination, insight, and eloquence of Mollie Hemingway. RIGGED is a reminder for weary patriots that truth is still the most powerful weapon. The stakes for our democracy have never been higher.

Predicting the Next President Routledge

The seventeenth edition of Party Politics in America continues the comprehensive and authoritative coverage of political parties for which it is known while expanding and updating the treatment of key related topics including interest groups and elections. Marjorie Hershey builds on the book ’ s three-pronged coverage of party organization, party in the electorate, and party in government and integrates contemporary examples—such as campaign finance reform, party polarization, and social media—to bring to life the fascinating story of how parties shape our political system. New to the 17th Edition Fully updated through the 2016 election, including changes in virtually all of the boxed materials, the chapter openings, and the data presented. Explores increasing partisan hostility, the status of voter ID laws and other efforts to affect voter turnout, young voters' attitudes and participation, and the role of big givers such as the energy billionaire Koch brothers in the 2016 campaigns. Critically examines the idea that Super PACs are replacing, or can replace, the party organizations in running campaigns. New and expanded online Instructor's Resources, including author-written test banks, essay questions, relevant websites with correlated sample assignments, the book ’ s appendix, and links to a collection of course syllabi.

Dewey Defeats Truman Yale University Press

Think that Richard Nixon lost the 1960 presidential election because he sweated on TV? Or that John Kerry was A swiftboated out of the presidency in 2004? Think again! In A Predicting the Next President political analyst and historian Allan J. Lichtman presents thirteen historical factors, or keys (that determine the outcome of presidential elections. In the chronological, successful application of these keys to every election since 1860, Lichtman dispels much of the mystery behind electoral politics and challenges many traditional assumptions.

Malaysia's 14th General Election and UMNO 's Fall Oxford University Press

The presidential election of 1844 was one of the two or three most momentous elections in American history. Had Henry Clay won instead of James K. Polk, we'd be living in a very different country today. It cemented the westward expansion that brought Texas, California, and Oregon into the union. It also took place amid religious turmoil that included anti-Mormon and anti-Catholic violence, and the "Great Disappointment" in which thousands of followers of an obscure preacher named William Miller believed Christ would return to earth in October 1844. Author and journalist John Bicknell details even more compelling, interwoven events that occurred during this momentous year—the murder of Joseph Smith, the religious fermentation of the Second Great Awakening, John C. Fr é mont's exploration of the West, Charles Goodyear's patenting of vulcanized rubber, the near-death of President John Tyler in a freak naval explosion, and much more. All of these elements illustrate the competing visions of the American future—Democrats v. Whigs, Mormons v. Millerites, nativists v. Catholics, those who risked the venture westward and those who stayed safely behind—and how Polk's victory cemented the vision of a continental nation. John Bicknell has written and edited for FCW, Congressional Quarterly, Roll Call, and was coeditor of the 2012 edition of Politics in America, CQ's 1200-page guide to the US Congress. He lives in Haymarket, Virginia.

America Votes Penguin

For over three decades, mature European welfare states have been on their way into an austerity phase marked by greater needs and more insecure revenues. A number of reform pressures—including population ageing, unemployment, economic globalization, and increased migration—call into question the economic sustainability and normative underpinnings of transfer systems and public services. And while welfare states long seemed resilient to growing challenges, it now seems clear that they are changing. Election Campaigns and Welfare State Change examines how political leaders and the public respond to reform pressures at a pivotal moment in a mass democracy: the election campaign. Do campaigns facilitate debate and attention to welfare state challenges? Do political parties present citizens with distinct choices as to how challenges might be met? Do leaders prepare citizens for the idea that some solutions may be painful? Do their messages have adaptive consequences for how the public perceives the need for reform? Do citizens adjust their normative support for welfare policies in the process? The answers to these questions affect how we understand welfare state change and representative democracy in an era of mounting challenges.

Portrait of an Election DIANE Publishing

From the nation 's leading expert, an indispensable analysis of key threats to the integrity of the 2020 American presidential election As the 2020 presidential campaign begins to take shape, there is widespread distrust of the fairness and accuracy of American elections. In this timely and accessible book, Richard L. Hasen uses riveting stories illustrating four factors increasing the mistrust. Voter suppression has escalated as a Republican tool aimed to depress turnout of likely Democratic voters, fueling suspicion. Pockets of incompetence in election administration, often in large cities controlled by Democrats, have created an opening to claims of unfairness. Old-fashioned and new-fangled

dirty tricks, including foreign and domestic misinformation campaigns via social media, threaten electoral integrity. Inflammatory rhetoric about “ stolen ” elections supercharges distrust among hardcore partisans. Taking into account how each of these threats has manifested in recent years—most notably in the 2016 and 2018 elections—Hasen offers concrete steps that need to be taken to restore trust in American elections before the democratic process is completely undermined.

Securing the Vote UNC Press Books

Endogenous election timing allows leaders to schedule elections 'when the time is right'. The author proposes and tests an informational theory of endogenous election timing that explains when leaders call for elections and the consequences of their decisions. In particular, he argues that, if all else is equal, leaders announce elections when they anticipate a decline in their future performance. As a consequence, early elections signal a leader's lack of confidence in future outcomes. The earlier elections occur, relative to expectations, the stronger the signal of demise. Using data on British parliaments since 1945, the author tests hypotheses related to timing of elections, electoral support and subsequent economic performance. Leaders who call elections early (relative to expectations) experience a decline in their popular support relative to pre-announcement levels, experience worse post-electoral performance, and have shorter campaigns.

2014 Rowman & Littlefield

An informative and up-to-date look at how we elect our government.
