Fair winds and fine cruising is author Chris Doyle's wish for readers of this popular, newly updated guide to the 10 island nations of this enchanting Caribbean chain. Doyle's background in research makes this volume rich in practical details; yet its tone is conversational. His is also an intimate knowledge, gathered from more than 20 years of live-aboard Caribbean cruising on his Carib 41 Helos, a former charterboat. The Leewards are a cultural and topographic mix, and Doyle addresses them by geographical grouping. The Renaissance Islands (St. Martin, St. Barts and Anguilla), an economically strong bareboating enclave, offer short cruising passages and a wide choice of anchorages. The Islands That Brush the Clouds - a volcanic chain strung between Saba and Montserrat - present cruisers with a variety of channels and terrain. Most broadly strewn are the Islands of Mountains and Mangroves, a patchwork chiefly of rugged rainforest and

exotic fauna, guarded in spots by spectacular reefs. The southern Leewards in particular have cried for reliable charting. Doyle provides aid throughout, using GPS coordinates, a trove of charts and color maps. All are cross-referenced with the newly released Caribbean Yachting Charts, exactly detailed and available through Cruising Guide Publications. Spectacular photographs add a visual feast. Onshore accommodations, transportation, communications, entertainment and provisioning are also addressed throughout the guide, and in an exhaustive directory by island and service type.

First published in 1988 as West Country Cruising, Mark Fishwick's definitive sailing guide for the ever-attractive coastline of Dorset, Devon, Cornwall and the Isles of Scilly combines a skilful blend of pilotage and cruising information, with historical insight and suggestions of where to eat and what to do ashore. For those who plan to head west, this book is more than essential reading – it will

enhance your enjoyment and prove to be a worthy and much used addition to the ship's library. Those already in the west will find themselves regularly thumbing its pages. Share Mark Fishwick's passion for this region which combines with his in-depth knowledge from a lifetime cruising these waters to create a text which will inspire and inform you. It is enhanced with colour charts and detailed photography, including spectacular aerial shots of ports, harbours and anchorages, many taken in 2020. This latest, ninth, edition is fully updated for publication and further updates are provided every Spring on the Fernhurst Books' website. More than one satisfied reader has aptly described the book as "the perfect on-board companion".

Color & Light DIANE Publishing

Color & Light is an essential practical guide to how color works in light. Written from the perspective of a theatrical lighting designer, it discusses how to see color, how to construct effective lighting palettes, and how to make use of both color filters and color-mixing LED fixtures to create compositions that work well with scenery and costumes to tell compelling stories. We are presently at the leading edge of a revolution in theatrical lighting, redefining how it can be used to create and communicate. Today's LED-based additive color-mixing fixtures require new methodologies and new ways of thinking, and Color & Light directly addresses this technology's potentials and challenges. But underpinning lighting's many recent technological changes is the fundamental language of color that artists have worked with since the birth of humanity's artistic urges.

Stackpole Books

The only guide to Southeast Asia that covers the entire length and breadth of a region frequently visited by round-the-world sailors, many of whom

leave Australia to head west. This 2008 edition concentrates on the most frequented routes and includes the most popular stops. There are hundreds of possible anchorages, the most popular of which are usefully summarised in tables. Introductory sections cover planning and the last part of the book deals with more general topics including advice on provisioning and the problems that are often faced by cruisers. Stephen Morgan and Elaine Davies first arrived in the region over 30 years ago. They work in Hong Kong- Stephen Davies as Director of the Hong Kong Maritime Museum and Elaine Morgan as a writer and editor. While this pilot is aimed at yachtsmen and indeed was surveyed from the Davies/Morgan yacht, it is just as relevant to the commercial or military mariner. The part of the world described in this work is one of the most interesting on our planet. Culturally, scenically, climatically and commercially- it has everything. This excellent book - now in its second edition, describes it all very enticingly. Set to the usual high standard of the Imray pilots that precede it, this one is spiced up by the wit and anecdotes the authors are so good at.
