Cases and Problems BoD –  
Books on Demand  
Civil Procedure: Cases and  
Problems, Fifth Edition  
covers all topics in the first-  
year canon of civil  
procedure, and some topics

in advanced litigation classes  
(e.g., class actions, appeals).  
The casebook is organized  
with the reality and  
complexities of civil litigation  
in mind, and follows the  
litigation sequence, from  
pleading through preclusion.  
Each chapter takes a  
practical as well as analytical  
approach, through (a) a series  
of Supreme Court and lower  
court opinions, (b) notes  
preceding and following  
those opinions intended to  
explain the underlying  
doctrines and principles  
behind them, and (c)

problems intended to assess  
and refine students  
understanding of doctrines  
and their rationales.  
Ultimately, this casebook  
demands that students read  
carefully and at a detailed  
level, analyze critically, and  
apply the law from the  
perspective of the theories  
underlying the various  
doctrines. It provides an  
effective vehicle through  
which to teach legal analysis  
and to gently nudge students  
forward and deeper into the  
materials.
