War In Italy, 1943-1945 Alpha Edition

Richard Lamb, one of the few Italian-speaking officers in the British Army during World War II, has relied in part on newly opened Italian archives to present a surprising and unprecedented history of the war in Italy from Mussolini's fall until the final victory. Chronicling an unbroken sequence of Nazi infamies, Lamb reveals how German troops massacred thousands of surrendering Italians in the Aegean islands, deported Italian Jews to Auschwitz, and slaughtered Italian hostages and POWs. Had it not been for Mussolini's frenzied attempts to protect his countrymen, Italy would have been treated even worse than Poland. Lamb answers important and controversial questions, such as why the Allies did not land unopposed in Italy before the Germans poured over the Brenner Pass, and why Pope Pius XII did not take a stronger stand on behalf of Jews and the victims of the Ardeatine massacre. He details Anthony Eden's opposition to an aid for Italian partisans, and the disastrous order from the War Office that British POWs should stay in their camps. He unfolds the extraordinary stories of the Cossack settlement in the Friuli, the attempted annexation of northern Italy by de Gaulle and Tito, the contributions of the Royalist Army to the Allied cause, the Italian civilians who helped Allied POWs escape, and the German generals who failed to obey Hitler's order to "scorch" all of Northern Italy. War in Italy will long remain the most complete account ever published of one of the most terrible dramas of World War II.

Riddles & Brain Teasers for Kids and Family Vandenhoeck & Ruprecht
Monsters figure prominently in classic works of literature as well as in films and stories intended for a wide audience. Since Darwin's time, most of these imaginary beasts have taken the form of natural creatures, rather than supernatural ones. This volume explores both literary and cinematic texts that are especially explicit in their depiction of beasts in Darwinian terms, though these same monsters retain an archaic mythological aspect. The myth of Leviathan and Behemoth, for instance, is at the heart of *Jaws* as much as it is central to *Moby-Dick*; indeed, *Jaws* inherits the myth directly from *Moby-Dick*, as does *King Kong*. These and other monster tales keep the myth alive by retelling it in the context of biological and cultural evolution. There is a pattern of alternating bestialization and

anthropomorphism in many monster tales, suggesting that these images are being displayed in repeated attempts to define who we are in relation to animals. As fables of identity, these tales dramatize our anxieties and fears concerning our own animal nature and help us come to terms with our own evolution.

Please proceed with caution as the book contains graphic violence and sexual content that is recommended for mature reading audiences with an open mind only! **EXCERPT:** "Turn around and look at me." The order was thrown in a chillingly calm tone. Trembling and worried about the consequences, Anika slowly turned, and raised her eyes toward the man in front of her. Her vision was still blurry from the residual moisture. She wiped her tears away and was met with the sight of the broad back of a tall man. He was turned away from her as he closed the door shut. Stepping back, she wrapped her arms around her protectively. She kept her wary eyes trained on his back, waiting for what, she didn't know. As soon as he turned, she felt like the air was

sucked away from around them, making her gasp out loud. The man looked larger than life, and more importantly, he looked like he could easily kill her with a single blow. His eyes scanned the mess she had made in the room, before he turned to look at her face dispassionately. She expected to see anger, but there was none. He didn't say anything for a long moment, just kept his eyes firmly locked on her face. After an indeterminate amount of time, he broke the deafening silence. "So. You are my bride-to-be," he stated rather than ask in a deep voice. After an indeterminate amount of time, he broke the deafening silence. "So. You are my bride-to-be," he stated rather than ask in a deep voice. The word 'bride' broke through her trance and made adrenaline course through her body. God, this is so messed up. Why am I cowering in fear?" "I don't want this," she whispered, unable to work up a louder voice. She kept her eyes on his face, pleading. "Please stop this marriage." He didn't respond, and neither did he react. "I don't want this wedding," she repeated. "We can think of another solution. We should be able to come up with a reasonable..." her voice trailed off when she saw him compressing his lips into a thin, hard line as he began to walk toward her. Through trembling lips, she spoke again. "I'm not from your world. I don't belong here. Let me go back to my family," she reasoned. The man stopped in front of her until he was too close for comfort. His eyes were riveted on her face as his mouth stretched into a sneer full of hate and loathe. "We are getting married because your precious family has begged me to do so. So, if you or your fucking family tries to pull any stunt during our wedding today, and try to back out, I'm not going to spare anyone." He spat out the words 'your family' like they were a curse. Slowly and deliberately his eyes swept over her body clothed in traditional bridal attire. "Nothing and no one--including you--can stop this from happening. You will become my wife by tonight," he vowed. Listening to those words, her legs gave out from under her, and

she collapsed on her knees unable to swallow the defeat. How could she let herself be trapped in this hellhole? Because of her one impulsive decision, she was going to lose everything.

Designed as one of the first true textbooks on how to use the UNIX operating system and suitable for a wide variety of UNIX-based courses, UNIX and Shell Programming goes beyond providing a

reference of commands to offer a guide to basic commands and shell programming. Forouzan/Gilberg begin by introducing students to basic commands and tools of the powerful UNIX operating system. The authors then present simple scripting concepts, and cover all material required for understanding shells (e.g., Regular Expressions, grep, sed, and awk) before introducing material on the Korn, C, and Bourne shells. Throughout, in-text learning aids encourage active learning and rich visuals support concept presentation. For example, sessions use color so students can easily distinguish user input from computer output. In addition, illustrative figures help student visualize what the command is doing. Each chapter concludes with problems, including lab sessions where students work on the computer and complete sessions step-by-step. This approach has proven to be successful when teaching this material in the classroom.

Ruth Parton is a part of the local history that no-one seems to know about, largely because her extraordinary abilities were displayed on the road. She literally gave up family, friends, and a home to be a successful horsewoman. Her direct descendants have provided old family ranch journals, as well as artifacts and archives of her life. The rodeo life had just begun, and initially the women competed with the men. Ruth was acknowledged as the World Champion Relay Racer from 1914 thru 1917. By the 1930's thoroughbred horse racing was growing at established tracks on the west coast. Ruth Parton excelled at that sport as well, winning 45 races at Longacre's in 1945 and 26 wins

with a horse named Cyclonic. Ruth was the first woman to be issued a Thoroughbred Trainers license. She was Native American. Her lifetime included the woman's right to vote, Prohibition, World War One, the Great Depression, the repeal of Prohibition, and World War Two. She was inducted into the Cowgirl Hall of Fame in 1988 and the Thoroughbred Racing Hall of Fame in 2019. Both forms of horse racing have evolved over time, but Ruth Parton was at the ground level beginning of what is truly an American sport today.

The Company Daughters

The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.
