THE INDIAN LISTENER

This book includes selected papers from the International

Conference on Data Science and Intelligent Applications

(ICDSIA 2020), hosted by Gandhinagar Institute of

Technology (GIT), Gujarat, India, on January 24 – 25, 2020.

The proceedings present original and high-quality contributions on theory and practice concerning emerging technologies in the

areas of data science and intelligent applications. The conference provides a forum for researchers from academia

and industry to present and share their ideas, views and results, while also helping them approach the challenges of

technological advancements from different viewpoints. The contributions cover a broad range of topics, including:

collective intelligence, intelligent systems, IoT, fuzzy systems, Bayesian networks, ant colony optimization, data privacy and

security, data mining, data warehousing, big data analytics, cloud computing, natural language processing, swarm

intelligence, speech processing, machine learning and deep learning, and intelligent applications and systems. Helping

strengthen the links between academia and industry, the book

offers a valuable resource for instructors, students, industry practitioners, engineers, managers, researchers, and scientists alike.
