Nicholas Perrot was a French-Canadian explorer who played a key role in the history of Wisconsin. This book provides a detailed biography of Perrot and examines his

interactions with Native American tribes in the region, as well as his involvement in the fur trade. Stickney's analysis sheds light on the complex cultural and economic forces that shaped Wisconsin in the seventeenth and eighteenth centuries. This is a valuable resource for students and scholars of American colonial history and Native American studies. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain" in the United States of America, and possibly other nations. 	Triumph Bonneville: 60 Years is

a celebration one of motorcycling's most iconic and beloved bikes. First manufactured in Great Britain in 1959, Triumph's legendary model resonates deeply with motorcycle enthusiasts worldwide who love its style, sound, performance, and undeniable coolness. It's no surprise that Triumph was Steve McQueen's favorite ride. The Bonneville's story is one of successes and challenges as Triumph grew steadily in the post-World War II decades to become America's most successful "import" motorcycle marque. Triumph won every championship worth winning, owned the world speed record for fifteen years, and wooed Hollywood's hottest stars. Bonneville was Triumph's halo machine, one of the highest performance motorcycles of the 1960s. However, as competing marques eventually eclipsed the Bonneville in the 1970s, Triumph management struggled, leading first to bankruptcy and then to the demise of the company in 1983. Triumph was resurrected by British industrialist John Bloor in the late 1990s to become a twenty-first century global success story, which includes a revived and thoroughly retro-contemporary Bonneville range.
