THE BEST-SELLING RING OF FIRE
SERIES CONQUERS THE NEW WORLD!

It has taken almost five years for the United States of Europe to stabilize its position in 17th-century Europe. Now it turns its attention to the New World, where the English have ceded their colonial claims to France. There are vast lands and rich resources across the Atlantic for any nations powerful enough to rule and control them—and equal incentive for other nations to block their path. The time-displaced Americans know about the future path that led to their own United States in North America, in the other universe they came from. But do they want to repeat that history as it was? Yes, they had democracy—but they are helping to create that in Europe. And they have learned the bitter prices paid for chattel slavery and the near-extinction of the native populations. Knowledge is power. Perhaps a new course can be taken. Accordingly, an expedition is sent to the New World to see just what might be happening there and what might be done. They are armed with their technology, among which are a radio and an airship. More importantly, they are armed with the knowledge of future history and their determination not to repeat the errors of their past. What could possibly go wrong? "Personable characters and superb storytelling make this an excellent choice. . . . Essential for Pern fans of all ages." —Library Journal (starred review) The son of a miner, Kindan has no expectations for any other life. He loves his lessons with the camp's harper, but music isn't part of a miner's future. He also enjoys helping out with the camp's watch-wher—a creature distantly related to dragons and uniquely suited to work in dark, cold spaces—but even that important job can't promise a future above the ground. Then disaster strikes. In one terrible instant, Kindan loses his family and the camp loses its watch-wher. It will take a new friendship and a new responsibility to teach Kindan that even a seemingly impossible dream is never out of reach . . . and that light can be found in the deepest darkness. "A guaranteed pleaser [in] one of SF's most splendid and longest-lived sagas." —Booklist "Another delightful entry in the Pern series." —Publishers Weekly

Using, for the first time, data from the 1871 Census of Canada in conjunction with data

from the 1971 Census, Madeline Richard delineates the general patterns of ethnic intermarriage in 1871 and 1971 and specifically considers the trends for the English, Irish, Scotch, French, and Germans. Choosing a number of characteristics, such as level of literacy, nativity, age, and place of residence, for the husbands, the author determines the odds for their marrying outside their communities. She also examines the socio-demographic characteristics, such as group size, sex ratio, per cent urban, and level of literacy of each group to determine the marriage patterns of the husbands.

What is a paleontologist doing on Mars? Pushing her boundaries. . .

.Problematica, n: a term used in paleontology to refer to fossils that appear to be either of unknown taxonomic origin, or whose occurrence in the location they are found contradicts current beliefs of the field. The find was made by a teenager. A "funny fossil" no one had seen before out in the middle of the Arizona desert. And right in the middle of controversy: the strangely shaped fossil could help explain one of the greatest mysteries of Earth's past, the great die-off at the KT boundary. It warranted a big dig, one that could lead to the mother lode, and professional immortality. But what Dr. Helen Sutter didn't realize was that it would take her all the way to Mars. . .

Book #21 in the multiple New York Times best-selling Ring of Fire series. The uptimers and their allies take on the Ottoman Empire at its height of power. The modern West Virginia town of Grantville has been displaced in time to continental Europe in 1632. Now four years have passed. The long-feared attack on Austria by the Ottoman Empire has begun. Armed with new weapons inspired by the time-displaced Americans of Grantville, the Turks are determined to do what they were unable to do in the universe the Americans came from: capture Vienna. The Ottomans have the advantage of being able to study the failings and errors of their own campaigns in a future they can now avoid. They are led by the young, dynamic, and ruthless Murad IV, the most capable emperor the Ottomans have produced in a century. They are equipped with weapons that would have seemed fantastical to the Turks of that other universe: airships, breech-loading rifles, rockets—even primitive tanks. And this time they won't have to face massive reinforcements from Austria's allies. In fact, the only force Emperor Gustav Adolf can think of sending to Austria is the United States of Europe Third Division under the command of Mike Stearns. It's an army currently engaged in a desperate struggle for Bavaria. The emperors of the USE and Austria share the same problem. They have one too many enemies, one too few allies, and only one general to cover the gaps. Fortunately, that general is Mike Stearns, also known as the Prince of Germany. For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.
