NEW ENTRY IN THE NEW YORK TIMES BEST-SELLING, GENRE-DEFINING ALTERNATE HISTORY SERIES. It ' s been five years since a cosmic incident known as The Ring of Fire transported the modern day town of Grantville, West Virginia, through time and space to 17th century Europe. The course of world history has been forever altered. And Mother Russia

is no exception. Inspired by the American up-timers ' radical notion that all people are created equal, Russian serfs are rebelling. The entire village of Poltz, led by blacksmith Stefan Andreevich, pulls up stakes to make a run for freedom. Meanwhile, Czar Mikhail has escaped house arrest, with the aid of up-time car mechanic Bernie Zeppi, his Russian associates—and a zeppelin. The czar makes his way to the village of Ufa. There he intends to set up a government-in-exile. It is to Ufa that the serfs of Poltz are heading, as well. The path is

dangerous—for the serfs as well as the czar. They face great distances and highwaymen. But the worst threat are those in the aristocracy who seek to crush the serfs and execute the czar in a bid to drive any hope for Russian freedom under their Parisian-crafted boot heels. But the Russians of 1637 have taken inspiration from their up-timer counterparts. And it could be that a new wind of liberty is about to blow three centuries early—and change Mother Russia forever. About 1636: *The Kremlin Games*: “...a well-constructed plot filled with satisfying measures of comedy, romance, political intrigue, and action.” —Publishers Weekly About 1635: *A Parcel of Rogues*: “The 20th volume in this popular, fast-paced alternative history series follows close on the heels of the events in *The Baltic War*, picking up with the protagonists in London, including sharpshooter Julie Sims. This time the 20th-century transplants are determined to

prevent the rise of Oliver Cromwell and even have the support of King Charles.”—Library Journal About 1634: *The Galileo Affair*: “A rich, complex alternate history with great characters and vivid action. A great read and an excellent book.”—David Drake “Gripping . . . depicted with power!”—Publishers Weekly About Eric Flint's *Ring of Fire* series: “This alternate history series is . . . a landmark...” —Booklist “ [Eric] Flint's 1632 universe seems to be inspiring a whole new crop of gifted alternate historians.” —Booklist “. . . reads like a technothriller set in the age of the Medicis . . . ” —Publishers Weekly **Ring of Fire II** Baen NEW TIME TRAVEL ALT. HISTORY FROM A MASTER: Flint's *Ring of Fire* and *Boundary* series have proved him to be a master of time travel alternate history. Here then, a new tale of persons displaced in time, fighting for their lives. Twice before, mysterious cosmic catastrophes have sent portions of the Earth across space and back in time—first, with the Grantville Disaster in West

Virginia, and then again with a maximum security prison in southern Illinois. Now, the planet is struck with yet another such cataclysm, whose direct impact falls upon the *Queen of the Sea*, a cruise ship in the Caribbean. When the convulsions subside, the crew and passengers of the ship discover that they have arrived in a new and frightening world. They are in the Mediterranean now, not the Caribbean. Still worse, they discover that the disaster has sent them more than two thousand years back in time. Following the advice of an historian among the passengers, Marie Easley, they sail to Egypt—or, at least, where they hope Egypt will be. Sure enough, Egypt is there—ruled over by Ptolemy, the founder of the Ptolemaic dynasty and one of Alexander the Great's chief generals. Alexander the Great, it turns out, died just two years ago. The western world has just entered what would become known as the Hellenistic Period of history, during which time Greek civilization would spread around the Mediterranean and beyond. But the first fifty years of the Hellenistic Period was the Age of Diadochi—the Time of the Successors—when Alexander's empire would collapse into chaos. By the time the Successors finished their strife, every single member of Alexander's dynasty would be murdered and only three of the

---

generals who began that civil war would still be alive. That is the new world in which the Queen of the Sea finds itself. Can Marie Easley and Captain Lars Flodden guide the crew and passengers through this cataclysm? Fortunately, they have some help: a young Norwegian ship's officer who forms an attachment to Alexander's widow; a French officer who is a champion pistol marksman; a canny Congressman from Utah—and, most of all, many people of the time who are drawn to a vision of the better world of the future. Anderson and Sarah A. Hoyt. Arcane America A new world. New magic. New history. After Halley's Comet was destroyed in a magical battle in 1759, the backlash separated the entire New World from the Old in an event known as The Sundering. Now

isolated from the rest of the globe, America has become a very different place, where magic works and history has been changed forever. It is 1803—a new 1803. Young Meriwether Lewis, footloose and intrigued, goes to hear a lecture in St. Louis by the venerated old wizard Benjamin Franklin. Franklin's talk is disrupted by the attack of a winged fire-breathing beast, much like legends from Lewis's own Welsh heritage. In the aftermath, Franklin tells the young man that he knows of a great, growing evil that lurks in the uncharted Arcane Territories west of the Mississippi. Using his own vast fortune, Franklin commissions Lewis and his own talented partner William Clark to embark on a remarkable voyage of exploration, to meet and document the indigenous tribes, to find a route all the way to the Pacific Ocean—and perhaps beyond the magical veil to Europe again—and to stop the growing evil that is filling the American West. For while the Sundering separated the rest of the world and granted the original colonists unexpected magical gifts, sorcery inspired by native legends has also been ignited. And the Arcane Territories may hold unparalleled dangers for the expedition, both natural and magical. Accompanied by the brilliant shape-shifting sorceress Sacajawea, Lewis and Clark set off on an unparalleled

adventure across a landscape that no European has ever seen. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Kevin J. Anderson: "Anderson delivers action, engaging characters and credible fantastic worlds in spades . . . not to be missed."—Publishers Weekly "Wickedly funny, deviously twisted and enormously satisfying."—Jonathan Maberry "Anderson has become the literary equivalent of Quentin Tarantino in the fantasy adventure genre."—The Daily Rotation "Prepare to be entertained." —Charlaine Harris "Delivers solid action and will certainly satisfy." —Booklist on The Winds of Dune About Sarah A. SERIES from New York Times best-selling alternate history master Eric Flint. The passage of Halley's Comet in 1759 is catastrophic. The comet appears to strike the Earth, sundering the New World from the Old. A chain of mountains rises in the Mid-Atlantic. No ship from the Old World arrives in America. No ship from the New World can find a passage to the Old—and most who try simply disappear. The comet has also unleashed magic forces, which soon spread everywhere. Slaves begin using powers derived from African witchcraft, bringing monsters from that continent into the New World. The native tribes begin doing the same. Some European settlers devise ways to couple Old World technology with sorcery. Kraken in the Atlantic, revenants in Jamaica, Dry Hands and Floating Heads in the Hudson valley, African ogres and worse set loose in the streets of New York. Magic of all kinds, emerging everywhere, most of it poorly if at all controlled. The powerful Iroquois Confederacy disintegrates. The Onondaga Council Fire is extinguished; the

Seneca and Cayuga follow their own shaman and war leader, and the Mohawks ally with the English. For their part, the English and the French in North America, who had been on the brink of war when the Sundering came, now have to contemplate what would once have been unthinkable. They must not simply forge a military alliance against the rising dark powers but may even have to unite politically behind the young English prince Edward, now the only person of royal blood left in the terrifying world created by the Sundering. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Uncharted: "History and mythology meld admirably, leading to a satisfying conclusion. This hardy adventure establishes a world ripe for many more rousing stories."—Publishers Weekly "With a light and brisk narrative that propels its heroes through a number of increasingly dangerous situations, this combination of alternate history and fantasy should appeal to fans of Eric Flint, Harry Turtledove, and historical fantasy in

general."—Booklist "While delivering plenty of action that approximates the best of cinematic fantasy, Hoyt and Anderson also strive for—and achieve—a kind of gravitas that suitably reflects the majesty of an untrammelled continent. Their descriptions of raw nature and its emotional repercussions on the humans are subtly poetic without being overblown. The native tribes are depicted in authentic ways, especially the people of Sacagawea. . . .The characterization of all the cast members is deep and revelatory of human nature. . . . There is also humor amidst the seriousness . . . [Anderson and Hoyt's] prose is a clear-eyed, sturdy naturalism meshed with flights of vivid unreality . . . filled with not only slambang adventures but also a kind of rational optimism that has become rare in genre works these days. . . Hoyt and Anderson, a kind of de Camp and Pratt for the twenty-first century, convey these ideals without lectures or sermons, embodying them in principled people doing exciting things."—Locus About Eric Flint:

Of course, these three young women were the universally feared Witches of Karres—but how was he to know that?! And after he defeated the Worm World (with the help of the witches, of course), the Empress herself had sent him on a secret mission to stop a nanite plague that was raging across the galaxy. The Thirty Years War continues to ravage 17th century Europe, but a new force is gathering power and influence: the Confederated Principalities of Europe, an alliance between Gustavus Adolphus, King of Sweden, and the West Virginians from the 20th century led by Mike Stearns who were hurled centuries into the past by a mysterious cosmic accident. The CPE has the know-how of 20th century technology, but needs iron and steel to make the machines. The iron mines of the upper Palatinate were rendered inoperable by wartime damage, and American know-how is needed on the spot to pump them out and get the metal flowing again—a mission that will prove more complicated than anyone expects. In the maelstrom that is Europe, even a 20th century copy of the Encyclopedia Britannica can precipitate a crisis, when readers learn of the 1640 Portuguese revolt, a crisis that will involve Naples as well. Another factor: Albanian exiles in Naples, inspired by the Americans, are plotting to recover lost Albanian turf, which will

precipitate yet another crisis in the Balkans. This troubled century was full of revolutions and plans for more revolutions before the Americans arrived, and gave every would-be revolutionary an example of a revolution that succeeded. Europe is a pot coming to a boil, and Mike Stearns will have his hands full seeing that it doesn't boil over on to Grantville and the CPE.
