Take an authoritative, thorough, and heavily illustrated look at Triumph

motorcycles, from beloved classics to popular new models! What do Marlon Brando, James Dean, Steve McQueen, Bob Dylan, and Arthur Fonzerelli all have in common? All of these men define the very essence of cool, and all have owned Triumph motorcycles. Originally formed as a bicycle company in 1885, in 1902 Triumph produced its first motorcycle, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time. For the first time ever, The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today collects all of the motorcycles from this

iconic brand in a single volume. Written by respected Triumph expert Ian Falloon, all of the major and minor models are covered, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today will also feature important non-production models and non-factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan will want to be without!

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically

and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
