## A Documentary History 1948A History of the First Arab-Israeli War

After seven years of economic research and developing forecasting models that have outperformed the experts, author, blogger, and physicist Dr. Jason Smith offers his controversial insights about the major driving factors behind the economy derived from the data and it's not economics - it's social changes. These social changes are behind the questions of who gets to work, how those workers organize, and how workers identify politically - and it is through labor markets that these social changes manifest in economic effects. What would otherwise be a disjoint and nonsensical postwar economic history of the United States is made into a cohesive workers' history driven by women entering the workforce and the backlash to the Civil Rights movement - plainly: sexism and racism. This new understanding of historical economic data offers lessons for understanding the political economy of today and insights for policies

that might actually work.

Motorbooks International

For outside observers, current events in Israel, Gaza, and the West Bank are seldom related to the collective memory of ordinary Palestinians. But for Palestinians themselves, the iniquities of the present are experienced as a continuous replay of the injustice of the past. By focusing on memories of the Nakba or "catastrophe" of 1948, in which hundreds of thousands of Palestinians were dispossessed to create the state of Israel, the contributors to this volume illuminate the contemporary Palestinian experience and clarify the moral claims they make for justice and redress. The

---

book's essays consider the ways in which Palestinians have remembered and organized themselves around the Nakba, a central trauma that continues to be refracted through Palestinian personal and collective memory. Analyzing oral histories and written narratives, poetry and cinema, personal testimony and courtroom evidence, the authors show how the continuing experience of violence, displacement, and occupation have transformed the pre-Nakba past and the land of Palestine into symbols of what has been and continues to be lost. Nakba brings to light the different ways in which Palestinians experienced and retain in memory the events of 1948. It is the first

book to examine in detail how memories of Palestine's cataclysmic past are shaped by differences of class, gender, generation, and geographical location. In exploring the power of the past, the authors show the urgency of the question of memory for understanding the contested history of the present. Contributors: Lila Abu Lughod, Columbia University; Diana Keown Allan, Harvard University; Haim Bresheeth, University of East London; Rochelle Davis, Georgetown University; Samera Esmeir, University of California, Berkeley; Isabelle Humphries, University of Surrey; Lena Jayyusi, Zayed University; Laleh Khalili, SOAS, University of London; Omar Al-Qattan, filmmaker;

Our publications present the key information on a wide variety of topics in a quick and accessible way that is guaranteed to save you time on your journey of discovery.

Nakba Palgrave Macmillan

Popular Politics in the History of South Africa, 1400 – 1948 offers an inclusive

vision of South Africa's past. Drawing largely from original sources, Paul Landau presents a history of the politics of the country's people, from the time of their early settlements in the elevated heartlands, through the colonial era, to the dawn of Apartheid. A practical tradition of mobilization, alliance, and amalgamation persisted, mutated, and occasionally vanished from view; it survived against the odds in several forms, in tribalisms, Christian assemblies, and other, seemingly hybrid movements; and it continues today. Landau treats southern Africa broadly, concentrating increasingly on the southern Highveld and ultimately focusing on a transnational movement called the 'Samuelites'. He shows how people's politics

---

in South Africa were suppressed and transformed, but never entirely eliminated.

A Social History of the 1948 War Yale University Press

This book investigates who Lady Godiva was, how the story of her naked horseback ride through Coventry arose, and how the whole Godiva legend has evolved from the thirteenth century through to the present day. Traces the erotic myth of Lady Godiva back to its medieval origins. Based on scholarly research but written to be accessible to general readers. Combines history, literature, art and folklore. Focuses on the twin themes of voyeurism and medievalism. Contributes to our understanding of cultural history, medievalism and the history of sexuality.

Dear Palestine BRILL

1948A History of the First Arab-Israeli War Yale University Press

A Pictorial History Routledge

These essays, three of which appear for the first

time, examine and elucidate aspects of the Arab exodus from Palestine in 1948, focusing on Israeli decision-making and the causes of the mass exile. A Workers' History of the United States 1948-2020

Wipf and Stock Publishers

The book that is providing a storm of controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappé's groundbreaking book revisits the formation of the State of Israel. Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible

---

removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East.

**Beyond National Narratives** Cambridge University Press

An update of the history of Palestine since the 1800s, which includes recent dramatic events.

Essays in the History of Ideas University of Georgia Press

These essays do not contribute to metaphysical and epistemological questions; they are primarily historical.

Jordan's Palestinian Challenge, 1948-1983

Cambridge University Press

From cradle to grave tells the extraordinary story of the NHS. Published to mark its 50th anniversary, the book traces chronologically the major achievements and

events in medicine, nursing, hospital development, primary health care and health management. The introductory chapter describes the health services in 1948. The next five chapters each cover a decade, and begin with a chronology of events both in the NHA and in national life. The structure of the chapters is consistent so that a particular topic can be followed over the years. In each decade medical progress is considered first, then the developments in general practice and primary health care and the hospital service. Lastly, changes at an organisational and managerial level are discussed. The story of clinical and organisational developments in the NHS can be seen within the wider context of the development of the welfare state.

Oil and the Arab-Israeli Conflict, 1948-63 Stanford Studies in Middle East

Austin cars continued in production long after the other marques that formed BMC were discontinued, with only the MG name that was applied to some Rover models lasting beyond 2000.

Illustrated in full colour and with detailed information including colour schemes, optional equipment and technical specifications, this book provides a complete catalogue of the cars from 1948 onwards, including the Austin models built by the Rover group during the 1990s. This is the ultimate book for those interested in the Austin marque, which is so often only covered briefly in other publications.

1948 and After John Wiley & Sons

A re-examination of the Arab-Israeli war of 1948 written by leading Arab, Israeli and western scholars.

Roy Lichtenstein Columbia University Press  
Israeli history textbooks in the past contained

many biases, distortions, and omissions concerning the depiction of Arabs and the history of the Arab-Israeli conflict. Today these misrepresentations are gradually being corrected. By reviewing curricula and textbooks used in the Israeli educational system since the establishment of Israel, the author shows how the Israeli educational system, and particularly history textbooks, have presented the image of the Arab and the history of Arab-Israeli relations in the years from 1948 to 2000, and how the trend is to provide a more balanced portrait of the other side. encourages the depiction of a balanced portrait in all textbooks. 1948 and After Cambridge University Press  
Colin Shindler's remarkable history begins in 1948, as waves of immigrants arrived in Israel from war-torn Europe to establish new cities, new institutions, and a new culture founded on

---

the Hebrew language. Optimistic beginnings were soon replaced with the sobering reality of wars with Arab neighbours, internal ideological differences, and ongoing confrontation with the Palestinians. In this updated edition, Shindler covers the significant developments of the last decade, including the rise of the Israeli far right, Hamas's takeover and the political rivalry between Gaza and the West Bank, Israel's uneasy dealings with the new administration in the United States, political Islam and the potential impact of the Arab Spring on the region as a whole. This sympathetic yet candid portrayal asks how a nation that emerged out of the ashes of the Holocaust and was the admiration of the world is now perceived by many Western governments in a less than benevolent light.

Watkins Glen 1948-1952 Basingstoke,

Hampshire : Macmillan

In 1948, a war broke out that would result in Israeli independence and the erasure of Arab Palestine. Over 20 months, thousands of Jews and Arabs came from all over the world to join those already on the ground to fight in the ranks of the Israel Defense Forces and the Arab Liberation Army. With this book, the young men and women who made up these armies come to life through their letters home, writing about everything from daily life to nationalism, colonialism, race, and the character of their enemies. Shay Hazkani offers a new history of the 1948 War through these letters, focusing on the people caught up in the conflict and its transnational reverberations. *Dear Palestine* also examines how the architects of the conflict worked to influence and indoctrinate key ideologies in these ordinary soldiers, by

---

examining battle orders, pamphlets, army magazines, and radio broadcasts. Through two narratives--the official and unofficial, the propaganda and the personal letters--Dear Palestine reveals the fissures between sanctioned nationalism and individual identity. This book reminds us that everyday people's fear, bravery, arrogance, cruelty, lies, and exaggerations are as important in history as the preoccupations of the elites.

Israel and the Palestinians Routledge

The updated second edition of *The War for Palestine* presents the genesis of the Arab-Israeli conflict.

*A History of Europe, 1648-1948* Rizzoli Publications

This history of the foundational war in the Arab-Israeli conflict is groundbreaking, objective, and deeply revisionist. Besides the military account, it also focuses on the war's political dimensions.

Historian Morris probes the motives and aims of the protagonists on the basis of newly opened Israeli and Western documentation. The Arab side--where the archives are still closed--is illuminated with the help of intelligence and diplomatic materials. Morris stresses the jihadi character of the two-stage Arab assault on the Jewish community in Palestine. He examines the dialectic between the war's military and political developments and highlights the military impetus in the creation of the Palestinian refugee problem. He looks both at high politics and general staff decision-making and at the nitty-gritty of combat in the battles that resulted in the emergence of the State of Israel and the humiliation of the Arab world--a humiliation that underlies the continued Arab antagonism toward Israel.--Résumé de l'édition.
