For outside observers, current events in Israel, Gaza, and the West Bank are seldom related to the collective memory of ordinary Palestinians. But for Palestinians themselves, the iniquities of the present are experienced as a continuous replay of the injustice of the past. By focusing on memories of the Nakba or "catastrophe" of 1948, in which hundreds of thousands of Palestinians were dispossessed to create the

state of Israel, the contributors to this volume illuminate the contemporary Palestinian experience and clarify the moral claims they make for justice and redress. The book's essays consider the ways in which Palestinians have remembered and organized themselves around the Nakba, a central trauma that continues to be refracted through Palestinian personal and collective memory. Analyzing oral histories and written narratives, poetry and cinema, personal testimony and courtroom evidence, the authors show how the continuing experience of violence, displacement, and occupation have transformed the pre-Nakba past and the land of Palestine into symbols of what has been and continues to be lost. Nakba brings to light the different ways in which Palestinians experienced and retain in memory the events of 1948. It is the first book to examine in detail how memories of Palestine's cataclysmic past are shaped by differences of class, gender, generation, and geographical location. In exploring the power of the past, the authors show the urgency of the question of memory for understanding the contested history of the present. These essays by a leading Israeli "new historian" focus on Israeli decisions and the reasons behind the mass Arab exile from Palestine in 1948. Morris addresses the transfer of Majdal's Arabs to Gaza in 1950, the initial absorption of the Palestinian refugees in Arab host countries in 1948-9, and why some Arabs remained in their villages. He then explores attitudes toward the Palestinian Arabs from the 1948 war to the differing perspectives of Israel's two main parties. By examining past and present Israeli historiography, Morris identifies and analyzes the major points of controversy between the "old" official Israeli histories and the "new" histories of the 1980s.

The 508th Parachute Infantry Regiment was an airborne infantry regiment of the United States Army, first formed in October 1942 during World War II at Camp Blanding, Florida by Lieutenant-Colonel Roy E. Lindquist, who would remain its commander throughout the war. The 508th Parachute Infantry Regiment participated in Operation Overlord, jumping into Normandy at 2:15 a.m. on 6 June 1944, and was awarded the Distinguished Unit Citation for its gallantry and combat action during the first three days of fighting. The Regiment also saw active service in Operation Market Garden in the Netherlands, jumping on 17 September 1944, and continued fighting the Germans in the longest-running battle on

German soil ever fought by the U.S. Army, before crossing the border into Belgium. They played a major part in the Battle of the Bulge in late December 1944, during which they screened the withdrawal of some 20,000 troops from St. Vith, defended their positions against the German Panzer divisions, and participated in the assault led by the 2nd Ranger Battalion to capture (successfully) Hill 400. U.S. D-Day paratrooper William G. Lord II's *History of the 508th Parachute Infantry Regiment*, which was originally published in 1948, provides an extensive and fascinating chronicle for the period from October 20, 1942 to January 1, 1946, and will appeal to discerning World War II historians and scholars alike. Richly illustrated throughout with photographs and maps, this volume also includes in its appendix a list of combat awards, unit citations, and battle casualties.

*From cradle to grave* tells the extraordinary story of the NHS. Published to mark its 50th anniversary, the book traces chronologically the major achievements and events in medicine, nursing, hospital development, primary health care and health management. The introductory chapter describes the health services in 1948. The next five chapters each cover a decade, and begin with a chronology of events both in the NHA and in national life. The structure of the chapters is consistent so that a particular topic can be followed over the years. In each decade medical progress is considered first, then the developments in general practice and primary health care and the hospital service. Lastly, changes at an organisational and managerial level are discussed. The story of clinical and organisational developments in the NHS can be seen within the wider context of the development of the welfare state.

Associates; (With Photographs of the Cravath Partners). Cravath, Swaine and Moore, as it is known today, one of the most prestigious law firms in the United States, was involved in some of the most important events in history. It was also a decisive influence on the direction of American legal practice. Under the leadership of Paul D. Cravath in the 1890s, it developed the organizational model based on a large staff of associates, partners and clerical helpers that continues to dominate the modern urban law firm. Swaine [1886-1949], then a principal partner, drew heavily on the Cravath archives in the preparation of this work. The most extensive history of the firm, it is enhanced by Swaine's personal perspective. (He joined Cravath in 1910). The final volume lists biographical data for every associate and partner from 1899 to 1948.

Israeli history textbooks in the past contained many biases, distortions, and omissions concerning the depiction of Arabs and the history of the Arab-Israeli conflict. Today these misrepresentations are gradually being corrected. By reviewing curricula and textbooks used in the Israeli educational system since the establishment of Israel, the author shows how the Israeli educational system, and particularly history textbooks, have presented the image of the Arab and the history of Arab-Israeli relations in the years from 1948 to 2000, and how the trend is to provide a more balanced portrait of the other side. encourages the depiction of a balanced portrait in all textbooks.

By all accounts, the 1948 Palestine war was one of the most significant milestones in the modern history of the Middle East and remains one of the most intractable conflicts of modern times. Israelis call the 1948 war "The War of Independence" while Arabs call it al-Nakba or the disaster. The conventional Israeli version portrays 1948 as an unequal struggle between a Jewish David and an Arab Goliath, as a desperate, heroic, and ultimately successful battle for survival against overwhelming odds. In this version all the surrounding Arab states sent their armies into Palestine to strangle the Jewish state at birth and the Palestinians left the country on orders from their own leaders and in the expectation of a triumphal return. Since the late 1980s, however, a group of "new historians" or revisionist Israeli historians have challenged many of the claims surrounding the birth of the State of Israel and the first Arab-Israeli war. The present volume was conceived as a contribution to the ongoing debate about 1948. *The War for Palestine* brings together leading Israeli new historians with prominent Arab and Western scholars of the Middle East who revisit 1948 from the

perspective of each of the countries involved in the war. The result is a volume that is rich in new material and new insights and which enhances considerably our understanding of the historical roots of the Arab-Israeli conflict. Eugene L. Rogan is a Lecturer in Modern History of the Middle East, Fellow of St. Anthony's College, and Director of the Middle East Centre at the University of Oxford. He is the author of *Frontiers of State in the Late Ottoman Empire* (Cambridge, 2000) and co-editor of *Village, Steppe, and State: the Social Origins of Modern Jordan* (St. Martin's, 1995). Avi Shlaim is a Professor of International Relations and Fellow of St. Anthony's College, University of Oxford, and he is also the Director of Graduate Studies in International Relations. He is the author of several books, the most recent one being *The Iron Wall: Israel and the Arab World* (Norton, 1999). Professor Shlaim is a frequent contributor to newspapers and a media commentator on Middle Eastern affairs.

In 1948, a war broke out that would result in Israeli independence and the erasure of Arab Palestine. Over twenty months, thousands of Jews and Arabs came from all over the world to join those already on the ground to fight in the ranks of the Israel Defense Forces and the Arab Liberation Army. With this book, the young men and women who made up these armies come to life through their letters home, writing about everything from daily life to nationalism, colonialism, race, and the character of their enemies. Shay Hazkani offers a new history of the 1948 War through these letters, focusing on the people caught up in the conflict and its transnational reverberations. *Dear Palestine* also examines how the architects of the conflict worked to influence and indoctrinate key ideologies in these ordinary soldiers, by examining battle orders, pamphlets, army magazines, and radio broadcasts. Through two narratives—the official and unofficial, the propaganda and the personal letters—*Dear Palestine* reveals the fissures

between sanctioned nationalism and individual identity. This book reminds us that everyday people's fear, bravery, arrogance, cruelty, lies, and exaggerations are as important in history as the preoccupations of the elites. **Lonely Hunters** History Volume 2 (1948–1968) first appeared in 1970. It covers the history of the World Council of Churches from its first assembly at Amsterdam to its fourth assembly at Uppsala, Sweden; analyzes the development of regional ecumenical organizations; and recounts the impact of the Second Vatican Council on the ecumenical witness of the Roman Catholic Church.

*Living Atlanta* University of Wisconsin Press Colin Shindler's remarkable history begins in 1948, as waves of immigrants arrived in Israel from war-torn Europe to establish new cities, new institutions, and a new culture founded on the Hebrew language. Optimistic beginnings were soon replaced with the sobering reality of wars with Arab neighbours, internal ideological differences, and ongoing confrontation with the Palestinians. In this updated edition, Shindler covers the significant developments of the last decade, including the rise of the Israeli far right, Hamas's takeover and the political rivalry between Gaza and the West Bank, Israel's uneasy dealings with the new administration in the United States, political Islam and the potential impact of the Arab Spring on the region as a whole. This sympathetic yet candid portrayal asks how a nation that emerged out of the ashes of the Holocaust and was the admiration of the world is now perceived by many Western governments in a less than benevolent light.

From the memories of everyday experience, *Living Atlanta* vividly recreates life in the city during the three decades from World War I through World War II—a period in which a

small, regional capital became a center of industry, education, finance, commerce, and travel. This profusely illustrated volume draws on nearly two hundred interviews with Atlanta residents who recall, in their own words, "the way it was"—from segregated streetcars to college fraternity parties, from moonshine peddling to visiting performances by the Metropolitan Opera, from the growth of neighborhoods to religious revivals. The book is based on a celebrated public radio series that was broadcast in 1979–80 and hailed by Studs Terkel as "an important, exciting project—a truly human portrait of a city of people." *Living Atlanta* presents a diverse array of voices—domestics and businessmen, teachers and factory workers, doctors and ballplayers. There are memories of the city when it wasn't quite a city: "Back in those young days it was country in Atlanta," musician Rosa Lee Carson reflects. "It sure was. Why, you could even raise a cow out there in your yard." There are eyewitness accounts of such major events as the Great Fire of 1917: "The wind blowing that way, it was awful," recalls fire fighter Hugh McDonald. "There'd be a big board on fire, and the wind would carry that board, and it'd hit another house and start right up on that one. And it just kept spreading." There are glimpses of the workday: "It's a real job firing an engine, a darn hard job," says railroad man J. R. Spratlin. "I was using a scoop and there wasn't no eight hour haul then, there was twelve hours, sometimes sixteen." And there are scenes of the city at play: "Baseball was the popular sport," remembers Arthur Leroy Idlett, who grew up in the Pittsburgh neighborhood. "Everybody had teams. And people—you could put some kids out there playing baseball, and before you knew a thing, you got a crowd out there, watching kids play." Organizing the book around such topics as transportation, health and religion, education,

leisure, and politics, the authors provide a narrative commentary that places the diverse remembrances in social and historical context. Resurfacing throughout the book as a central theme are the memories of Jim Crow and the peculiarities of black-white relations. Accounts of Klan rallies, job and housing discrimination, and poll taxes are here, along with stories about the Commission on Interracial Cooperation, early black forays into local politics, and the role of the city's black colleges. Martin Luther King, Sr., historian Clarence Bacote, former police chief Herbert Jenkins, educator Benjamin Mays, and sociologist Arthur Raper are among those whose recollections are gathered here, but the majority of the voices are those of ordinary Atlantans, men and women who in these pages relive day-to-day experiences of a half-century ago.

In 1880 the Jewish community in Palestine encompassed some 20,000 Orthodox Jews; within sixty-five years it was transformed into a secular proto-state with well-developed political, military, and economic institutions, a vigorous Hebrew-language culture, and some 600,000 inhabitants. *The Origins of Israel, 1882-1948: A Documentary History* chronicles the making of modern Israel before statehood, providing in English the texts of original sources (many translated from Hebrew and other languages) accompanied by extensive introductions and commentaries from the volume editors. This sourcebook assembles a diverse array of 62 documents, many of them unabridged, to convey the ferment, dissent, energy, and anxiety that permeated the Zionist project from its inception to the creation of the modern nation of Israel. Focusing primarily on social, economic, and cultural history rather than Zionist thought and diplomacy, the texts are organized in themed chapters.

They present the views of Zionists from many political and religious camps, factory workers, farm women, militants, intellectuals promoting the Hebrew language and arts—as well as views of ultra-Orthodox anti-Zionists. The volume includes important unabridged documents from the origins of the Arab-Israeli conflict that are often cited but are rarely read in full. The editors, Eran Kaplan and Derek J. Penslar, provide both primary texts and informative notes and commentary, giving readers the opportunity to encounter voices from history and make judgments for themselves about matters of world-historical significance.
