of Wisconsin Press

This book investigates who Lady Godiva was, how the story of her naked horseback ride through Coventry arose, and how the whole Godiva legend has evolved from the thirteenth century through to the present day. Traces the erotic myth of Lady Godiva back to its medieval origins. Based on scholarly research but written to be accessible to general readers. Combines history, literature, art and folklore. Focuses on the twin themes of voyeurism and medievalism. Contributes to our understanding of cultural history, medievalism and the history of

sexuality.

A History of the First Arab-Israeli War  
Cambridge University Press

Written by a former Deputy Prime Minister, this comprehensive work examines the Jordan-Israeli war of 1948-1951.

The History of the National Socialist Guerrilla Movement, 1944-1946 Praeger

From cradle to grave tells the extraordinary story of the NHS. Published to mark its 50th anniversary, the book traces chronologically the major achievements and events in medicine, nursing, hospital development, primary health care and health management. The introductory chapter describes the health services in 1948. The next

---

five chapters each cover a decade, and begin with a chronology of events both in the NHA and in national life. The structure of the chapters is consistent so that a particular topic can be followed over the years. In each decade medical progress is considered first, then the developments in general practice and primary health care and the hospital service. Lastly, changes at an organisational and managerial level are discussed. The story of clinical and organisational developments in the NHS can be seen within the wider context of the development of the welfare state. Israel and the Palestinians Cambridge University Press

The essays, written by leading experts, examine the

history of the international financial system in terms of the debate about globalization and its limits. In the nineteenth century, international markets existed without international institutions. A response to the problems of capital flows came in the form of attempts to regulate national capital markets (for instance through the establishment of central banks). In the inter-war years, there were (largely unsuccessful) attempts at designing a genuine international trade and monetary system; and at the same time (coincidentally) the system collapsed. In the post-1945 era, the intended design effort was infinitely more successful. The development of large international capital markets since the 1960s, however, increasingly frustrated attempts at international control. The emphasis has shifted in consequence to debates about increasing the transparency and effectiveness of markets; but these are exactly the issues that already dominated the nineteenth-century discussions.

In Kabul: A History, 1773-1948 May Schinasi provides a richly detailed, thoroughly documented, and well-illustrated account of the history of Kabul, the capital of Afghanistan, through its architecture.

**The Origins of Israel, 1882–1948** University of Georgia Press

Volume 2 (1948-1968) first appeared in 1970. It covers the history of the World Council of Churches from its first assembly at Amsterdam to its fourth assembly at Uppsala, Sweden; analyzes the development of regional ecumenical organizations; and recounts the impact of the Second Vatican Council on the ecumenical witness of the Roman Catholic Church.

The Crusaders in the Holy Land Motorbooks International

From the memories of everyday experience, Living

Atlanta vividly recreates life in the city during the three decades from World War I through World War II--a period in which a small, regional capital became a center of industry, education, finance, commerce, and travel. This profusely illustrated volume draws on nearly two hundred interviews with Atlanta residents who recall, in their own words, "the way it was"--from segregated streetcars to college fraternity parties, from moonshine peddling to visiting performances by the Metropolitan Opera, from the growth of neighborhoods to religious revivals. The book is based on a celebrated public radio series that was broadcast in 1979-80 and hailed by Studs Terkel as "an important, exciting project--a truly human portrait of a city of people." Living Atlanta presents a diverse array of voices--domestics and businessmen, teachers and factory workers, doctors and ballplayers. There are memories of the city when it wasn't quite a city: "Back in those young days it was country in Atlanta," musician Rosa Lee

---

Carson reflects. "It sure was. Why, you could even raise a cow out there in your yard." There are eyewitness accounts of such major events as the Great Fire of 1917: "The wind blowing that way, it was awful," recalls fire fighter Hugh McDonald. "There'd be a big board on fire, and the wind would carry that board, and it'd hit another house and start right up on that one. And it just kept spreading." There are glimpses of the workday: "It's a real job firing an engine, a darn hard job," says railroad man J. R. Spratlin. "I was using a scoop and there wasn't no eight hour haul then, there was twelve hours, sometimes sixteen." And there are scenes of the city at play: "Baseball was the popular sport," remembers Arthur Leroy Idlett, who grew up in the Pittsburgh neighborhood. "Everybody had teams. And people--you could put some kids out there playing baseball, and before you knew a thing, you got a crowd out there, watching kids play." Organizing the book around such topics as transportation, health and religion, education,

leisure, and politics, the authors provide a narrative commentary that places the diverse remembrances in social and historical context. Resurfacing throughout the book as a central theme are the memories of Jim Crow and the peculiarities of black-white relations. Accounts of Klan rallies, job and housing discrimination, and poll taxes are here, along with stories about the Commission on Interracial Cooperation, early black forays into local politics, and the role of the city's black colleges. Martin Luther King, Sr., historian Clarence Bacote, former police chief Herbert Jenkins, educator Benjamin Mays, and sociologist Arthur Raper are among those whose recollections are gathered here, but the majority of the voices are those of ordinary Atlantans, men and women who in these pages relive day-to-day experiences of a half-century ago. *The 1948 Palestine War* Cambridge University Press  
Austin cars continued in production long after the other marques that formed BMC were

---

discontinued, with only the MG name that was applied to some Rover models lasting beyond 2000. Illustrated in full colour and with detailed information including colour schemes, optional equipment and technical specifications, this book provides a complete catalogue of the cars from 1948 onwards, including the Austin models built by the Rover group during the 1990s. This is the ultimate book for those interested in the Austin marque, which is so often only covered briefly in other publications.

**Kabul: A History 1773-1948** 1948A History of the First Arab-Israeli War

Israeli history textbooks in the past contained many biases, distortions, and omissions concerning the depiction of Arabs and the history of the Arab-Israeli conflict. Today these misrepresentations are gradually being corrected. By reviewing curricula and

textbooks used in the Israeli educational system since the establishment of Isreal, the author shows how the Israeli educational system, and particularly history textbooks, have presented the image of the Arab and the history of Arab-Israeli relations in the years from 1948 to 2000, and how the trend is to provide a more balanced portrait of the other side. encourages the depiction of a balanced portrait in all textbooks. Yale University Press

These essays do not contribute to metaphysical and epistemological questions; they are primarily historical.

The book that is providing a storm of

---

controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappé's groundbreaking book revisits the formation of the State of Israel. Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the

forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East.

*Popular Politics in the History of South Africa, 1400–1948* Pickle Partners Publishing

As in his highly acclaimed *Growing Up Gay in the South*, James Sears masterfully blends a symphony of Southern voices to chronicle the era from the baby boom to the dawn of gay rights and the Stonewall riot. Sears weaves a rich historical tapestry through the use of personal reminiscences, private letters, subpoenaed testimony and previously

Reprint of the sole edition. Volume I: The Cravath Firm and Its Predecessors

1819-1906; Volume II: The Cravath Firm Since 1906; Volume III: The Cravath

Associates; (With Photographs of the

Cravath Partners). Cravath, Swaine and

Moore, as it is known today, one of the most prestigious law firms in the United

States, was involved in some of the most important events in history. It was also a

decisive influence on the direction of

American legal practice. Under the

leadership of Paul D. Cravath in the 1890s, it developed the organizational model based on a large staff of associates, partners and clerical helpers that continues to dominate the modern urban law firm. Swaine [1886-1949], then a principal partner, drew heavily on the Cravath archives in the preparation of this work. The most extensive history of the firm, it is enhanced by Swaine's personal perspective. (He joined Cravath in 1910). The final volume lists biographical data for every associate and partner from 1899 to 1948.

A History of the Hashemite Kingdom of Jordan Stanford Studies in Middle East

The updated second edition of *The War for Palestine* presents the genesis of the Arab-Israeli conflict.

*The Arrival, the Rise, the Fall* Rizzoli Publications

Colin Shindler's remarkable history begins in 1948, as waves of immigrants arrived in Israel from war-torn Europe to establish new cities, new institutions, and a new culture founded on the Hebrew language. Optimistic beginnings were soon replaced with the sobering reality of wars with Arab

neighbours, internal ideological differences, and ongoing confrontation with the Palestinians. In this updated edition, Shindler covers the significant developments of the last decade, including the rise of the Israeli far right, Hamas's takeover and the political rivalry between Gaza and the West Bank, Israel's uneasy dealings with the new administration in the United States, political Islam and the potential impact of the Arab Spring on the region as a whole. This sympathetic yet candid portrayal asks how a nation that emerged out of the ashes of the Holocaust and was the admiration of the world is now perceived by many Western governments in a less than benevolent light. **Dear Palestine** Stanford University Press
