The remarkable story of everything Sydney Herbert Allard achieved in motor sport and motor car manufacture is framed in an up-to-date commentary co-authored by his own son. This is a tribute unswayed by legend, but based on the facts and achievements of his eponymous company. With contributions from the Allard Owners' Club and Allard Register, this book contains painstaking research of Allard history from 1929 to the present day, including previously unpublished material. Just under 2,000 Allards were built, and approximately 510 are believed to remain on the road or

known to be under -restoration. More await discovery - even as this book was being written, one of Sydney's long-lost 1930s 'Allard Specials' has been found after years being forgotten. Other topics covered in this remarkable book include: car-by-car engineering and design details; unseen ideas and projects; the history of the Allard marque in motor sport and the Allard story in the USA. Finally, it features the Allard Owner's Club, Allard Register, members and their cars. Motor Cycling and Motoring Motorbooks International

This book provides a wealth of detailed information that collectors, investors, and

restorers of imported cars will not find in any other book. This massive volume spans the marques of imported vehicles. The list includes such familiar names as Alfa Romeo, Aston Martin, Bentley, Citroen, Jaguar, Lamborghini, Porsche, Rolls-Royce, Saab, and Volkswagon. Also in these pages, you'll find details on such lesser-known yet no less intriguing marques as Abarth, DAF, Frazer Nash, Humber, Iso, Nardi, Panhard, Peerless, Sabra and Skoda. The book also highlights model changes and corporate histories and provides value information on the most popular models of imported cars.

EJ ' Ted ' Cutting was not only Aston Martin ' s most successful Chief Race Car Design Engineer, but was also an innovator with influential force on the worldwide automotive industry. Originating from a limited edition hardback version, this eBook was produced in celebration of the 60th anniversary of Aston Martin winning the World Sports Car Championship for Britain with the all-conquering DBR1 designed, engineered and created by Ted himself. Rather than a traditional biography of his life, Ted wanted his book to be rather less scripted and informal; it was therefore initially adapted from a number of recorded conversations between himself and Aston Martin Heritage Trust members Stuart Bailey and Brian Joscelyne - the title being an obvious choice considering this! In addition to the in-depth telling of a legendary period in British motorsport by a man at the centre of it all, the book also sees Ted clarify a number of

details which have in the past been incorrectly reported. Unusually it also contains all his published documents and access to a 90 minute video of his unique lecture on ' Racing Astons ' to further endorse his story. Although the original hardback edition of this book was produced only in a limited run, Ted ' s wish was to make the complete book available to a much wider audience, now possible through the internet; as an engineer always working at the cutting edge of technology, he would appreciate the benefits of information sharing in the digital age. As well as being of interest to fans of Aston Martin and of motorsports in general, the book is a compelling read for any student of automotive design and engineering; after all, progress is about standing on the shoulders of giants - and in the field of race car design, few individuals ever reach the colossal heights achieved by Ted Cutting.

Read the full story of Great Britain's best-loved sports car manufacturer with Aston Martin DB, an exquisitely produced, photo-loaded, history by Aston Martin expert, Andrew Noakes. The name David Brown is synonymous with the glory days of Aston Martin, when a tiny British sports car company was rescued from near-extinction and turned into a marque that could compete with Ferrari--and win. Stylish design, lavish illustration from the Aston Martin Heritage Trust and meticulously researched text come together in this large-format, 224-page book to create a superb celebration of the 70th

anniversary of DB Aston Martins in 2017.

There's a wealth of detail on the Aston Martin DB road and race cars, both from the David Brown era of 1947-1972 and the modern DB era from 1993 onwards, together high quality images and specification tables for all the key models. Aston Martin DB 70 Years is a fitting celebration of one of the world's most enduring sports cars. The fast, beautiful sports cars that Aston Martin built under Brown's ownership won the Le Mans 24-hour race and the World Sports Car Championship, and provided James Bond with his most famous transport: the ejector-seat equipped DB5 that won acclaim in Goldfinger. Though the DB era ended when Brown sold the company in 1972, its influence continued to be felt. James Bond's most recent car, the specially-made DB10, and Aston Martin has just launched its most complete car ever, the DB11. 'DB' means as much to Aston Martin now as ever.

Aston Martin is now more than a century old – and what a century it has been. Since its birth in London on the eve of the First World War, the company has experienced the highs of racing triumph – most famously in the 1959 Le Mans 24-hour race – and the lows of bankruptcy, yet throughout it all has been in the first rank of British marques. Published in association with the

Aston Martin Heritage Trust and written by enthusiast Richard Loveys, Aston Martin is a fully illustrated history of the company that has created some of the the world's best loved and most widely respected cars, including James Bond's iconic DB5. It covers the cars themselves, the personalities and talents who have shaped Aston Martin from owners to engineers, the drivers who have shared with the company in racing glory, and the centenary celebrations of 2013.

Life's a Hoot Veloce Publishing Ltd

In the new edition of this classic text, Brian Laban brings the story of the AC Cobra up to date. In the early 1960s, a flamboyant Texan, Carroll Shelby, dreamed of a special kind of sports car, a marriage of European style with lusty, affordable American V8 power. He took his dream forward and he persuaded British sports car specialist AC Cars to build his car, and US industry giant the Ford Motor Co to fund it. Its name also came to him in a dream - Cobra. The original production of the Cobra lasted just five years and encompassed barely a thousand cars built within the original framework. But it was only the beginning of a story that is still very much alive, encompassing 'continuations', spin-offs, and a massive worldwide replica industry. Shelby and AC Cobra details the man behind the cars, the story of their development and engineering, racing pedigree and owning and driving

these powerful, iconic cars today. Fully illustrated with 250 archive colour photographs.
