successful Chief Race Car Design Engineer, but was also an innovator with influential force on the worldwide automotive industry. Originating from a limited edition hardback version, this eBook was produced in celebration of the 60th anniversary of Aston Martin winning the World Sports Car

Drive Veloce Publishing Ltd
EJ ' Ted ' Cutting was not
only Aston Martin ' s most

Championship for Britain with the all-conquering DBR1 designed, engineered and created by Ted himself. Rather than a traditional biography of his life, Ted wanted his book to be rather less scripted and informal; it was therefore initially adapted from a number of recorded conversations between himself and Aston Martin Heritage Trust members Stuart Bailey and Brian Joscelyne - the title being an obvious choice considering this! In addition to the in-depth telling of a legendary period in British motorsport by a man at the centre of it all, the book also sees Ted clarify a number of details which have in the past been incorrectly reported. Unusually it also contains all his published documents and access to a 90 minute video of his

unique lecture on ' Racing Astons ' to further endorse his story. Although the original hardback edition of this book was produced only in a limited run, Ted ' s wish was to make the complete book available to a much wider audience, now possible through the internet; as an engineer always working at the cutting edge of technology, he would appreciate the benefits of information sharing in the digital age. As well as being of interest to fans of Aston Martin and of motorsports in general, the book is a compelling read for any student of automotive design and engineering; after all, progress is about standing on the shoulders of giants - and in the field of race car design, few individuals ever reach the colossal heights achieved by Ted Cutting.

Aston Martin V-8 Motorbooks
In England, two car companies reign supreme—Jaguar and Aston Martin. They each produce sleek, fast cars, but there is no confusing the one for the other. Stats, facts, and comparison charts help young readers understand why. They will learn about the similarities, discover the differences, and form their own opinions as to which company they think is the true king of speed.

Jaguar vs. Aston Martin
The Rosen Publishing Group, Inc
The Illustrated London News
Mitchell Beazley

Aston Martin is now more than a century old – and what a century it has been. Since its birth in London on the eve of the First World War, the company has experienced the highs of racing triumph – most famously in the 1959 Le Mans 24-hour race – and the lows of bankruptcy, yet throughout it all has been in the first rank of

British marques. Published in association with the Aston Martin Heritage Trust and written by enthusiast Richard Loveys, *Aston Martin* is a fully illustrated history of the company that has created some of the the world's best loved and most widely respected cars, including James Bond's iconic DB5. It covers the cars themselves, the personalities and talents who have shaped Aston Martin from owners to engineers, the drivers who have shared with the company in racing glory, and the centenary celebrations of 2013.

Motoring Veloce Publishing Ltd 100 heroes from almost 100 years of motor sport are covered in this book. Revealing the determination, heroism, raw courage, skill at the wheel - and just plain humanity - that has

elevated men and women into the special, rarified atmosphere of heroism.

The Encyclopedia of Motor Sport Penguin

This book is unique. It is a compendium of wonderful automotive treasure, as discovered. With the passage of time all cars became worthless and unloved, no matter how eminent. Racing cars inevitably became uncompetitive and redundant. Many vehicles passed into scrapyards, the motoring equivalent of a cemetery, or simply rotted away.

Autocar & Motor

Crowood

In the new edition of this classic text,

Brian Laban brings the story of the AC Cobra up to date. In the early 1960s, a flamboyant Texan, Carroll Shelby, dreamed of a special kind of sports car, a marriage of European style with lusty, affordable American V8 power. He took his dream forward and he persuaded British sports car specialist AC Cars to build his car, and US industry giant the Ford Motor Co to fund it. Its name also came to him in a dream - Cobra. The original production of the Cobra lasted just five years and encompassed barely a thousand cars built within the original framework. But it was only the beginning of a story that is still very much alive, encompassing

'continuations', spin-offs, and a massive worldwide replica industry. Shelby and AC Cobra details the man behind the cars, the story of their development and engineering, racing pedigree and owning and driving these powerful, iconic cars today. Fully illustrated with 250 archive colour photographs.
