Development of Aston Martin's
V8 engine began in 1963 as a
replacement for the six cylinder
engines which had powered every
model of Aston Martin since the
1950 DB2. In 1966 design work

began on a new GT model and both car and engine were to be unleashed on the public in October 1967. With barely twelve months to complete the car, Aston Martin pulled it off, and the DBS was born. Unfortunately, the new V8 engine wouldn't be ready for another two years and the DBS had to make do with the old-fashioned Lagonda engine. Being heavier than the car it replaced, it was slower but in many ways more refined. When the V8 engine was finally ready for the DBS chassis, the resulting car was one of the fastest, safest and greatest cars of its generation. It would set the benchmark, not just for the next thirty years of Aston Martins, but also its competitors in

the GT class. The last of the 5,016 V8-powered cars, a Volante Special Edition, left the factory on 20 October 2000, ending an era for Aston Martin.

Aston Martin broke new ground with the Vanquish at the start of the 21st century, having previewed the model with a fully driveable prototype called Project Vantage at the

Detroit Show in 1998. The Vanquish became the company's new flagship model, with a sleek and readily recognisable shape penned by Ian Callum that would later be further developed for the slightly less expensive (but no less exotic) DB9. The importance of these two models to Aston Martin went

standard 282bhp engine or the 314bhp Vantage unit, and the line concluded with the 1965-70 DB6, with cut-off tail, better aerodynamics and in Vantage form having 325bhp. All these cars remain as special and as exclusive as they ever were, and they command correspondingly high prices based on three factors – condition, history and most of all originality. Here James Taylor gives full details of correct original specification and equipment for all these cars, backed up by in-depth colour photography of outstanding examples of all

models and variants. Body panels, external trim and badging, paint colours, interior trim, dashboard, instruments and controls, under-bonnet components, engine and transmission, lamps, and other features right down to the tool kit, are all covered.

Aston Martin DB9 and Vanquish The Rosen Publishing Group, Inc Before World War II Aston Martin had made some stunning sports cars but had undergone numerous financial crises. The company was bought by David Brown in

1947, and in 1950 he launched the all-new DB2 with a brilliant engine designed by W.O. Bentley. The car was a sleek, beautiful and fast two-seater closed coupe of the highest pedigree and led to the highly successful DB3 and DB3S racers, which were entered by the works at Le Mans, Sebring and elsewhere, driven by star drivers from Stirling Moss to Roy Salvadori. Aston Martin is now more than
a century old — and what a
century it has been. Since its
birth in London on the eve of
the First World War, the
company has experienced the
highs of racing triumph — most
famously in the 1959 Le Mans
24-hour race — and the lows of
bankruptcy, yet throughout it all
has been in the first rank of
British marques. Published in
association with the Aston
Martin Heritage Trust and

written by enthusiast Richard
Loveys, Aston Martin is a fully
illustrated history of the
company that has created some
of the the world's best loved and
most widely respected cars,
including James Bond's iconic
DB5. It covers the cars
themselves, the personalities and
talents who have shaped Aston
Martin from owners to
engineers, the drivers who have
shared with the company in
racing glory, and the centenary
celebrations of 2013.

Sports Car Heaven Herridge & Sons Limited

This book charts the history of Aston Martin from 1926 through to 1940, and explores the cars that were produced by the company during those years when 'Bert' Bertelli ruled the

roost and produced a series of world beating cars. The book covers the First, Second and Third series cars and the 2-Litre 15/98 range, and also takes a look at the Atom to see how the pre-war cars influenced Aston Martin in the David Brown era from 1948.

Aston Martin V8 Brooklands Book Limited

Read the full story of Great Britain's best-loved sports car manufacturer with Aston Martin DB, an exquisitely produced, photo-loaded, history by Aston Martin expert, Andrew Noakes. The name David Brown is synonymous with the glory days of Aston Martin, when a tiny British

sports car company was rescued from near-extinction and turned into a marque that could compete with Ferrari--and win. Stylish design, lavish illustration from the Aston Martin Heritage Trust and meticulously researched text come together in this large-format, 224-page book to create a superb celebration of the 70th anniversary of DB Aston Martins in 2017.

There's a wealth of detail on the Aston Martin DB road and race cars, both from the David Brown era of 1947-1972 and the modern DB era from 1993 onwards, together high quality images and specification tables for all the key models. Aston Martin DB 70 Years is a fitting celebration of one of the world's most enduring sports cars.

The fast, beautiful sports cars that Aston Martin built under Brown's ownership won the Le Mans 24-hour race and the World Sports Car Championship, and provided James Bond with his most famous transport: the ejector-seat equipped DB5 that won acclaim in Goldfinger. Though the DB era ended when Brown sold the company in 1972, its influence continued to be felt. James Bond's most recent car, the specially-made DB10, and Aston Martin has just launched its most complete car ever, the DB11. 'DB' means as much to Aston Martin now as ever. Aston Martin Automobile Heritage Publishing & Co

This book is unique. It is a compendium of wonderful automotive treasure, as discovered. With the passage of time all cars became worthless and unloved, no matter how eminent. Racing cars inevitably became uncompetitive and redundant. Many vehicles passed into scrapyards, the motoring equivalent of a cemetery, or simply rotted away.
