EJ ' Ted ' Cutting was not only Aston Martin ' s most successful Chief Race Car Design Engineer, but was also an innovator with influential force on the worldwide automotive industry. Originating from a limited edition hardback version, this eBook was produced in celebration of the 60th anniversary of Aston Martin winning the World Sports Car Championship for Britain with the all-conquering DBR1 designed, engineered and created by Ted himself. Rather than a traditional biography of his life, Ted wanted his book to be rather less scripted and informal; it was therefore initially adapted from a number of recorded conversations between himself and Aston Martin Heritage Trust members Stuart Bailey and Brian Joscelyne - the title being an obvious choice considering this! In addition to the in-depth telling of a legendary period in British motorsport by a man at the centre of it all, the book also sees Ted clarify a number of details which have in the past been incorrectly reported. Unusually it also contains all his published documents and access to a 90 minute video of his unique lecture on ' Racing Astons ' to further endorse his story. Although the original hardback edition of this book was produced only in a limited run, Ted ' s wish was to make the complete book available to a much wider audience, now possible through the internet; as an engineer always working at the cutting edge of technology, he would appreciate the benefits of information sharing in the digital age. As well as being of interest to fans of Aston Martin and of motorsports in general, the book is a compelling read for any student of automotive design and engineering; after all, progress is about standing on the shoulders of giants - and in the field of race car design, few individuals ever reach the colossal heights achieved by Ted Cutting.

Duncan Hamilton won the classic Le Mans 24-Hours race in 1953, co-driving his works entered C-Type Jaguar with Tony Rolt. In 1954 the same pair finished second, losing to a much larger-engined V12 Ferrari and by the narrowest margin in years. In all, Duncan Hamilton competed in nine of those great Le Mans endurance classics. Having cut his racing teeth in such pre-war cars as the R-Type M.G. and the Bugatti Type 35B, Duncan graduated to one of the immortal Lago-Talbot Grand Prix cars - which he subsequently mislaid in a French coal-hole. After a hugely eventful racing career - only Duncan could get himself fired by Jaguars for winning the Rheims 12-Hours race in 1956 - he eventually hung up his racing helmet in 1958. As Earl Howe wrote in the original 1960 foreword to this book, though the drivers of this age were fiercely competitive, there were also 'friends to meet, stories to tell and almost certainly a party to be enjoyed...'

Duncan Hamilton was certainly a little larger than life, and this book tells the story of a man who wasn't just one of the most successful drivers of the 1950s, but also the man who trespassed at Brooklands, who spent the war in the Fleet Air Arm surviving plane crashes and trying to drown American Admirals and who was once stopped for speeding on the Cromwell Road, rushing to take part in a TV programme on road safety. It is a must for any classic car enthusiast's bookshelf.
