timing, carb and SPICA fuel injection tuning, and driveshaft donut replacement are all explained. Experienced, hands-on guidance that'll keep you in the drivers seat.

**Alfissimo!**

**Motorbooks**

This portfolio is about the revival of Alfa Romeo sports cars and coupes, one of the most desirable and popular of the Italian genre. Their progress is traced through driving impressions, road and comparison tests, model introduction reports and history

articles. Full specifications are included together with performance and technical data plus advice is given on buying a good used example.

Covered are 2.0

Twin spark 16V, 3.0 & 3.2 V6 &

Cup.

**Alfa Romeo 1900 Super Sprint**

Veloce Publishing Ltd

There is something special about Alfa Romeo cars which can't be defined precisely but is, perhaps, best described as a vitality that creates a symbiosis between driver and machine: a oneness that no other marque seems to replicate. Alfa's Berlinas

have always tended to be overshadowed by their spotlight-grabbing Coupé and Spider siblings, but enthusiasts with family car needs have always known that any saloon/sedan with the famous Alfa Romeo badge would deliver pure driving pleasure in equal measure.

Here is the full story of Alfa's quirky but characterful

Berlinas, from their beginnings in the early 1900s through to the start of a new millennium. Not only does the book describe and picture every model, it also contains useful information on restoring classic Alfa Romeos and details of marque specialists.

Alfa Romeo Owners Bible Veloce Enterprises, Incorporated Since the 1930s the Alfa tradition of sporting coup\233s has been as strong as that of their incomparable open cars. But the coup\233s, while sometimes overlooked, have arguably been even finer cars than open-topped siblings and they have certainly had more than their fair share of success in competition. This new book, by well-known

motoring writer Graham Robson, looks at the classic pedigree of Alfa coup\233s, from the Giulietta in 1954 to the end of Alfasud Sprint and Alfetta production in the 1980s. Well-illustrated and including comprehensive specification tables and copious information on design, production and performance, this is the only book a fan of these fine cars will ever need. 1954 through  
1994 when the  
final Alfas-  
including the  
four-cylinder  
Spiders-were  
sold in the  
United States.  
When it came to  
Alfa Romeos,  
author Pat  
Braden was an  
enthusiast's  
enthusiast. Pat  
didn't just write  
about Alfas - he

---

lived and breathed Alfas. From the mid-1950s when he first owned a Giulietta Sprint until his death in August 2002, Pat had owned scores of Alfa Romeos, ranging from a 6C 1750GTC and an 8C 2300 to 1900s, Giuliettas, Giulias and countless later models. Alfa models are discussed according to history, engine, chassis and trouble spots. Without being a repair manual, this book contains important

technical information needed to understand and enjoy one of these Alfas, as well as to perform many minor repair, maintenance, and service tasks. Braden starts with a brief overview of Alfa Romeo history, followed by a look at Alfa's presence in America. He also explores the major models of coupe, spider and berlina that used the all-alloy four-cylinder, as well as the limited production variants. Of course, he also

gives much attention to that mighty engine itself. Braden explains the design and history of the engine, as well as exploring trouble spots and offering extensive advice and tips. Additional technical sections focus on the fuel system, transmission, brakes and chassis, not to mention overall restoration. Alfa Romeo All-Alloy Twin Cam Companion is a key to getting the absolute maximum benefit and

update, the Giulietta name was changed to Giulia, although they still retained their original 101 Series designation. From 1962 onwards, the updated Giulietta continued to be sold under the Giulia name until they were replaced by the all-new 105 Series Giulia-based models in 1965. As the predominance of the basic mechanical components of the 750 and 101 models remained unchanged during their 1954-1965 production run, the original Giulietta workshop manual was considered adequate and the factory supplemented it with the publication of 'Technical Characteristics' booklets (1963 & 1964) that updated the Factory manual with technical data specific to the 1600cc equipped cars. Timeline of the English language manuals issued by the Alfa factory for the 750 & 101 Series Giulietta and Giulia models: The first English language Workshop Manual (Part No.577 - 600 copies) was issued in May 1957 and it consisted of 14 individual booklets in a ring binder. In addition, a separate booklet numbered 15 was added a little later that was identified as 'Special Repair Data for

---

the 'Sprint Veloce, Spider and Super Spider'. In December 1957, Alfa issued 1000 copies of a softbound workshop manual (Part No.611) that combined the booklets from the May 1957 publication into a single volume. It should be noted that booklet 14 'Special Tools and Equipment' was omitted from this edition and that the images are of poor quality. In September

1958, another 1000 copies of a softbound single volume manual (Part No.637) was issued and the images in this manual are almost photo quality. This edition also included the previously missing 'Special Tools' section. However, for some unknown reason the 12-page appendix to the transmission section from the December 1957 edition was omitted. This same part

number (637) was reprinted by the factory in September 1961 (1000 copies). Finally, in November 1962, Alfa issued 2000 copies of a 15-page booklet 'Enclosure to the Shop Manual - Technical Characteristics' (Part No.854). This booklet expanded the technical data for the 1300cc models that was previously included in 'Technical Specifications'

---

section of both the ring bound and softbound workshop manuals. However, in 1962, the Giulietta sport models: Sprint, Sprint Special and Spider were fitted with the new 1600cc engine and the Giulietta Series 101 name was dropped but they continued to be sold under the Giulia name (as 101 Series vehicles) until they were replaced by the all-new 105 Series Giulia-

based models in 1965. Consequently, for the sake of completeness, the 20-page October 1963 'Technical Characteristics' booklet (Part No. 955 -1000 copies) for the 1600cc Giulia Ti, Spider & Sprint and the 7-page October 1964 'Technical Characteristics' for the Giulia Spider Veloce should be a required addition to this list of manuals for the 750 and 101 Series models.

Alfa Romeo Robert Bentley, Incorporated One of the most prestigious Italian cars, the Alfa Romeo Giulietta, is 50 years old. The first in the series appeared at a special preview in Valentino Park, Turin, during the spring of 1954, before being officially unveiled at the city 's motor show that same year. Angelo Tito Anselmi, one of the sector 's authoritative historians, devoted a book to the car that contained a

---

wealth of photographs, designs and manufacturer's official documents, a work that was completed with a list of all the Giulietta's victories between 1955 and 1965, as well as the chassis numbers of each series. This book comprises fundamental reference material, which is indispensable to all Alfa enthusiasts, and now becomes available - on the occasion of its 50th Anniversary - in the English

language edition. The History of Alfa Romeos The Crowood Press Experts from four continents pass judgment on one of the most charismatic cars ever built, the Alfa Romeo Giulietta and the early Giulia range of cars. They became one of the most desirable and popular of the Italian genre. Included are road and comparison tests, technical and performance data, owner's reports and complete

specifications plus advice on acquiring and restoring a Giulietta. Millenove Alfa Romeo 1900 Haynes Publishing Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916

---

models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough

competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts;

Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The

---

cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a lifelong Italian car enthusiast with a special interest in Alfa Romeo.

Millenove Alfa Romeo 1900  
Giorgio Nada Editore  
On June 24, 1910, a group of businessmen, headed by Italian aristocrat Ugo Stella, took over the Italian plant of the French car company Societa Italiana Automobili Darracq located

in Portello, Italy, just outside Milan. Stella renamed the company Anonima Lombarda Fabbrica Automobili, or ALFA. From this day forward, a new class of cars was being produced. Over the years, Alfa Romeo has produced airplane engines, race cars, and family vehicles. This book explores the rich history of these iconic automobiles and how they have impacted the automobile industry. Alfa Romeo Spider Motorbooks International A-R 90 YEAR
