Are free market economies really based on fleecing the consumer? Is the U.S. economy truly just a giant free-for-all that encourages duplicity in our everyday transactions? Is everyone from corporate CEOs to your local car salesman really looking to make a buck at your expense? In *Freedomomics: Why the Free Market Works and Other Half-Baked Theories Don't*, economist and bestselling author John R. Lott, Jr., answers these and other common economic questions, bravely confronting the profound distrust of the market that the bestselling book *Freakonomics* has helped to popularize. Using clear and hard-hitting examples, Lott shows how free markets liberate the best, most creative, and most generous aspects of our society - while efforts to constrain economic liberty, no matter how well-intentioned, invariably lead to increased poverty and injustice.

The treatment of eating disorders remains controversial, protracted, and often unsuccessful. Therapists face a number of impediments to the optimal care for their patients, from transference to difficulties in dealing with the patient's family. *Treating Eating Disorders* addresses the pressure and responsibility faced by practicing therapists in the treatment of eating disorders. Legal, ethical, and interpersonal issues involving compulsory treatment, food refusal and forced feeding, managed care, treatment facilities, terminal care, and how the gender of the therapist affects treatment figure centrally in this invaluable navigational guide.

Princeton Review AP U.S. Government & Politics Premium Prep, 2023 Gallopade International

This volume features scholars who use a critical geography framework to analyze how constructions of social space shape education reform. In particular, they situate their work in present-day neoliberal policies that are pushing responsibility for economic and social welfare, as well as education policy and practice, out of federal and into more local entities. States, cities, and school boards are being given more responsibility and power in determining curriculum content and standards, accompanied by increasing privatization of public education through the rise of charter schools and for-profit organizations' incursion into managing schools. Given these pressures, critical geography's unique approach to spatial constructions of schools is crucially important. Reterritorialization and deterritorialization, or the varying flows of people and capital across space and time, are highlighted to understand spatial forces operating on such things as schools, communities, people, and culture. Authors from multiple fields of study contribute to this book's examination of how social, political, and historical dimensions of spatial forces, especially racial/ethnic and other markers of difference, shape are shaped by processes and outcomes of school reform.

Legislative History of the Voting Rights Act of 1965 Teacher Created Materials

The Voting Rights Act (VRA) stands among the great achievements of American democracy. Originally adopted in 1965, the Act extended full political citizenship to African-American voters in the United States nearly 100 years after the Fifteenth Amendment first gave them the vote. While Section 2 of the VRA is a nationwide, permanent ban on discriminatory election practices, Section 5, which is set to expire in 2007, targets only certain parts of the country, requiring that legislative bodies in these areas—mostly southern states with a history of discriminatory practices—get permission from the federal government before they can implement any change that affects voting. In *The Future of the Voting Rights Act*, David Epstein, Rodolfo de la Garza, Sharyn O'Halloran, and Richard Pildes bring together leading historians, political scientists, and legal scholars to assess the role Section 5 should play in America's future. The contributors offer varied perspectives on the debate. Samuel Issacharoff questions whether Section 5 remains necessary, citing the now substantial presence of blacks in legislative positions and the increasingly partisan enforcement of the law by the Department of Justice (DOJ). While David Epstein and Sharyn O'Halloran are concerned about political misuse of Section 5, they argue that it can only improve minority voting power—even with a partisan DOJ—and therefore continues to serve a valuable purpose. Other contributors argue that the achievements of Section 5 with respect to blacks should not obscure shortcomings in the protection of other groups. Laughlin McDonald argues that widespread and systematic voting discrimination against Native Americans requires that Section 5 protections be expanded to more counties in the west. Rodolfo de la Garza and Louis DeSipio point out that the growth of the Latino population in previously homogenous areas and the continued under-representation of Latinos in government call for an expanded Section 5 that accounts for changing demographics. As its expiration date approaches, it is vital to examine the role that Section 5 still plays in maintaining a healthy democracy. Combining historical perspective, legal scholarship, and the insight of the social sciences, *The Future of the Voting Rights Act* is a crucial read for anyone interested in one of this year's most important policy debates and in the future of civil rights in America.

Hearings Russell Sage Foundation

Surprisingly, kids were some of the key instigators in the Civil Rights Movement, like Barbara Johns, who held a rally in her elementary school gym that eventually led to the Brown vs. Board of Education Supreme Court school desegregation decision, and six-year-old Ruby Bridges, who was the first black student to desegregate elementary schools in New Orleans. In The Civil Rights Movement for Kids, children will discover how students and religious leaders worked together to demand the protection of civil rights for black Americans. They will relive the fear and uncertainty of Freedom Summer and learn how northern white college students helped bring national attention to atrocities committed in the name of segregation, and they'll be inspired by the speeches of Martin Luther King, Jr., Medgar Evers, and Malcolm X. Activities include: reenacting a lunch counter sit-in; organizing a workshop on nonviolence; holding a freedom film festival followed by a discussion; and organizing a choral group to sing the songs that motivated the foot soldiers in this war for rights.
