Virtually from the moment of its launch in April, 1964, the Ford Mustang has been a favorite among road racers. From the Tour de France, to production sports car racing, the SCCA Trans-Am series, regional and national A/Sedan competitions, and international and domestic sedan championships in Great Britain, Europe, Australia, and New Zealand, the Mustang has enjoyed a following like few other models. This book is a photographic celebration of road racing Mustangs throughout the world. It focuses on production-based cars, rather than the heavily modified tube-frame silhouette machines that began appearing in the late 1970s. Included are images of big-budget factory-supported cars competing in the Trans-Am series, right through to low-buck independents, and cars competing throughout the world. Using only period images, including countless photos that have never before been published, this is a true photographic history, depicting the global popularity of the Ford Mustang as a road racing car.
