E0 1966-1970 1300cc 37bhp DIN. Non-USA M240 low compression. Tim Mossman ’ s 1500 CC Engine Build – 1967 VW Beetle
When the Beetle received the 1.5 L

engine for the 1967 model year, its power was increased to 40 kW (54 PS; 54 bhp) DIN. German production stopped after the 1967 model year; however, the T1 still was made in Brazil until 1975, when it was modified with a 1968 – 79 T2-style front end, and big 1972-vintage taillights into the so-called "T1.5" and produced until 1996.

[1967 Vw Beetle Engine Specs](#)

The 1500 cc engine and 4-speed floor shift transmission provides very peppy, acceleration. This is a fun car to drive, maneuvers well, and will cruise easily at 60-65 mph on the open road. The 1967 VW Beetle is one of the most sought after VW's, as a "one-year-only" production, especially with the optional sunroof.

VW Parts | JBugs.com: VW Engine Torque Specifications ...

The Volkswagen Beetle made some major strides for the 1967 model year, and while the car itself didn't get any bigger, many of its mechanical systems and components did. For starters, the Beetle came with a bigger engine for the second year in a row.

Horsepower had been bumped to 50 horsepower the previous year, and for 1967 it was bumped even more, to 53 horsepower.
